• On Monday, March 16th, faculty began the transition of all courses to the online, digital format, in order to go live by March 20th.
• Health Professions programs immediately moved forward so that clinicals could be done according to the guidelines. Hospitals began to restrict entrance...except for Scenic Mountain Medical Center and the VA in Big Spring and Shannon Medical Center and San Angelo Community Medical Center in San Angelo. Nursing homes restricted access. Other health entities did the same. Health Professions faculty designed clinical rotations around the clock to get as many clinical hours for students as possible, not knowing what the future would hold. The weekend of March 20th, the Governor issued directions to relax some guidelines so that health professions students could be prepared to enter the workforce quickly. NCLEX testing sites for nurses will be expanded across the nation to provide increased opportunities for students to test upon graduation.
• Dental Hygiene continued with online, using Zoom for classroom. Clinicals will not be held until April 21st following signed mandates from the Governor. It could possibly be summer before clinical hours can be completed for this program. Dental Hygiene Clinical Boards have been postponed.
• Faculty participated in professional development provided by the eTrainers and collaborated on ways to enhance the online format. The biggest challenge was how to approach those courses with hands-on training such as welding, etc. The plan was to begin delivering those opportunities in small groups by March 30th. As time has advanced, extensions of some courses for a few weeks may be the better solution.
• On March 20th, the plan for each course was posted and an alert was sent to each student to check the online format for their schedule beginning on March 23rd.
• Links to resources were added to Blackboard.
• Working with Correctional Facilities relative to instructional delivery.
• Creation of faculty resources page for faculty transitioning to online instruction.
• Libraries sharing national research guide with COVID-19 resources and also developing interactive databases for faculty to use with various courses.

CLUSTER IDENTIFICATION TREND
Name one thing you especially liked about the LEADS program:

“I loved that we talked about managing money and saving time.”

“One thing I liked about the LEADS program was that they help you see how time management actually works and they have you start thinking about your plan A and plan B in real life.”

“I loved how well the professors kept in touch with us, and were there to mainly help us out, and we had the opportunity to go to them for anything.”

“I liked how we had to create a career path plan presentation and then present it to the class to share about our future career plan while practicing our speech skills.”

“It introduced me to new people who I would have never approached if it wasn't for the program.”

“I've never been good at making friends so getting the opportunity to make friends was amazing.”

“This class is one of the classes where I actually know the names of the students and talk to them outside of class, it made me feel like I actually have support and am not by myself.”

“The way it was teaching me things that I will constantly use throughout my future.”
Do you have any final words to share with students entering the HC LEADS program:

“You will really enjoy this class, it will help you improve in a lot of ways in life.”

“Definitely pay attention in this course because it will help you to succeed and inspire you to help others and participate in community activities. This course will also help you to shape who you are if you can’t quite figure it out yet and really let you explore who you are. This course is inspiring.”

“Pay attention and implement what you learn into the real world.”

“It is a great course to take, it teaches you more responsibility and prepared you for classes.”

“It is not a waste of time. It may seem like it at first, but you will learn new things to help you in your college career.”

“LEADS helped me develop myself into a more responsible student. I would recommend this course to all new students.”
Constructive comments to make HC LEADS a better program:

“Maybe have speakers that aren’t from Howard.”

“I would extend LEADS longer or meet twice a week. It’s a lot of content packed into a small course and I feel that having this course more often would really help students to improve their performance and all out help the student succeed in general.”

“You can always make things better, but I personally think that this LEADS program is fine, it helped me and if it can help me then I think it’s perfect.”

“It should be more related to chosen field/cluster.”

“I believe it is a great program, maybe more service work to get involved with the community more.”

“Possibly extending more time on projects considering it’s only one semester program and also meeting twice a week, furthermore, extending the credit as well.”

“Learning more about financial literature and related topics would be very useful.”

“Pretty solid course, but I knew a lot of the content being taught before hand so I can’t really say the impact the information provided for me. However, the inspiration was very powerful.”
