COULD HAVE USED MORE LAB TIME
I completely enjoyed my government class. For someone who personally is intrigued by law and politics I enjoyed coming to this class and I personally feel like I actually learned and got something out of it.
SHE WAS VERY PATIENT AND UNDERSTANDING AND HAS AN UNDERSTANDING OF THE OLDER STUDENTS!!!!
IT TOOK ME ALL SEMESTER TO FINALLY RECEIVE AN A ON AN ESSAY BUT THANKS TO MR PATTERSON I FULLY UNDERSTAND THE REASONING BEHIND THE GRADES. HE PUSHED ME TO WORK HARD FOR THAT A.
More time to better go through and understand hospital patient chart and more time with the hospital electronic chart systems would be extremely helpful. I don't think we have enough learning opportunities with these two before we start actually doing our graded paperwork which puts us at a disadvantage.
CLINICAL WAS A GOOD LEARNING EXPERIENCE
Useful information.
THIS WAS A VERY DIFFICULT COURSE BUT IT WAS ACHIEVED WITH HELP AND EFFORT OF ALL PARTIES; THE INSTRUCTORS AND THE STUDENTS ON BOTH AN INDIVIDUAL AND A GROUP LEVEL.
My clinical instructor, Mrs. Henderson, was amazing. I learned so much from her and was confident performing. I was able to express my fears and face situations easier, knowing I had a good instructor helping me. However, I feel the amount of clinical paperwork was unnecessary. We do not make care plans as LVNs so why should the paperwork be so extensive? Its hard to write 20 pages and manage time to study for important and difficult tests. I find myself struggling to finish these careplans. This program is squished into 9 months. Please d not make it harder by adding more paperwork that we will not be doing in the real world.
I LIKED THIS COURSE
useful information.
THIS COURSE EXPLAINED IN VERY MUCH DETAIL HOW TO PERFORM THE BASIC SKILLS OF NURSING, THE INSTRUCTIONS FROM THE BOOK FOR THIS COURSE WERE VERY OVERWHELMING BUT VERY CLEAR AND UNDERSTANDABLE.
great class
1509 WAS THE HARDEST CLASS I HAVE EVER TAKEN. THE INSTRUCOR DID THE BEST SHE COULD IN TRYING TO EXPLAIN THE MATERIAL, HOWEVER THERE WAS SO MUCH MATERIAL AND NOT ENOUGH TIME TO COVER IT. THIS IS A EXTREMELY HARD CLASS.
I really enjoyed clinicals. Care plans are not easy but they make us think differently and be better nurses.
Useful skills learned.
Grading assignments (care plans) for this course were very inconsistent. Some students put extra time and effort into their paperwork while others did the bare minimal, while all the grades showed no difference. Instructors graded different and some "expected more from some students than from other".
I thoroughly enjoyed this course and the instructor
I do not like how this class had mutiple books to look for answers. The textbook assigned to this class was very hard. And to add more books to find more answers, often was very confusing. Sometimes I could not find the answer in the correct books and had to resort to the internent. I would have preferred one book to look at. Also, it would be helpful to maybe get the page numbers of the book we need it from.

IT WAS A BASIC INTRO TO WHAT SHOULD BE EXPECTED TO NURSING
EVERY NURSING COURSE IS CHALLENGING, AND THE INSTRUCTORS DID THE BEST THEY COULD EDUCATING US ON THE MATERIAL.
Clinicals were a great learning experience. It's what makes this a great program.
Useful information.
This course was challenging because medications are difficult for me to memorize. They have sound alikes and tend to confuse my brain. I feel that a pharmacology pre requisite should be required for the LVN program. It would make a huge difference to go into it knowing basic knowledge on medications you will be seeing and using.
very good content
I would have liked more real world explanations from one of instructors to help me better understand some of the material. Mrs. Henderson always gave real world examples that helped me to understand and learn the material. I feel like study guides along with the objectives would greatly help every course if we would have had them.
I gained a lot of valuable information from the instructor and the course.
ALL NURSING CLASSES ARE HARD, HOWEVER EACH INSTRUCTOR DOES WHAT THEY CAN TO HELP US UNDERSTAND THE MATERIAL. I DO WISH LECTURES HAD MORE INVOLVEMENT LIKE SCENARIOS OR RELATIVE TOPICS TO GET A BETTER IDEA.
This was a challenging course but I learned a lot.
Good class material. definitely learned the foundations of nursing. I liked to be able to review my answers before turning in my scantron.
I gained a lot of valuable information from the instructor and this course.
Very difficult class, but very interesting and challenging.
I would have liked better eqiupment available to us to practice injections. Or more practice giving injections. But, otherwise not a bad textbook.
This is the hardest course in the first semester on the LVN program. I was challenged in ways I've never came across. I had to study constantly and review any chance I could. The tests got better as the semester went on. At first the tests were not being made off the objectives we were studying then after over half the class bombed the endocrine test the instructors began following our objective list to create the tests. I understand that everything we read is testable, but why provide us with objectives if you are not going to use them in our test? I enjoyed being challenged and learned so much during this course.
THIS CLASS WAS AMAZING, WHEN FIRST LEARNING THE MATERIAL IT WAS OVERWHELMING, BUT MRS. HENDERSON DID A GREAT JOB EXPLAINING IT AND EVEN HELPED ME AFTER CLASS TO MAKE SURE I UNDERSTAND WHAT I WAS DOING. I ENDED UP GETTING A 98 ON THE EXAM AND HARDLY MISSED ANY MATH QUESTIONS ON OTHER EXAMS.
THIS WAS BY FAR THE HARDEST COURSE OF THE SEMESTER! IT WAS EXTREMELY CHALLENGING FOR ME. I EVENTUALLY WENT TO BEGIN TO STUDY IN A GROUP AND THAT HELPED ME PASS THE COURSE ALONG WITH HELP FROM MRS. HENDERSON!!
None
They're both very hard on us, but in the best ways possible. without them being hard on us we would never get better or adapt to the situations we're going to be facing in our careers infront of us. I appreciate them being hard on us to make us the best nurses they possibly can.
I loved going to clinicals and experiencing things hands on.
I gained a lot of valuable information from the instructor and this course.
The majority of the time our testing material was covered in our objectives. There were only maybe 1 or 2 times that a question wasn't adequately covered in the lecture or objectives. Over all the course was very beneficial.

I felt better about my mathematical capabilities after completing this course!

The instructors made themselves available at all times during to day to help me understand all of my assignments and to excel in this course.

ALL NURSING COURSES ARE EXTREMELY DIFFICULT, HOWEVER THE INSTRUCTORS DO THE BEST JOB TO EDUCATE US ON THE MATERIAL.

I would recommend this program/class to others.

Mrs. Henderson and Mrs. Brandt are absolutely amazing teachers that strive to do their best and adapt to all of our indivual learning needs as best as possible while retaining integrity as teachers.

1509 was very challenging but once i got the hang of it the class material was very interesting to me. I enjoyed taking tests and before turning them in able to double check my answers. this helped a lot

No comment.

I learned a lot in this class. Very informative.

MS.MULTRY HELPED ME SO MUCH WITH CARE PLANS. BECAUSE WE WERE NEVER GIVEN MUCH TIME TO LEARN HOW TO MAKE A CARE PLAN. MRS HENDERSON TRIED TO EXPLAIN AS MUCH AS SHE COULD BUT MRS MULTRY CAME UP TO THE SCHOOL AND MEET ME ON HER OFF TIME TO ASSURE I UNDERSTOOD FULLY HOW TO CONSTRUCT A ADEQUATE CARE PLAN! SHE IS MUCH APPRICIATED!!!

Great teachers, would love to have them again.

GREAT

A lot of skills in a short amount of time but the instructors were always willing to help you figure it out if you were having problems.

I enjoyed my clinical experience very much. However when it came to grading care plans the instructors had very different grading criteria. Things that you would get wrong with one instructor you wouldn't get wrong with another. If the instructors could be more in sync with grading then you don't have to keep trying to figure out what it is they want.

Mrs. Henderson was one of the best instructors I have had at this college.

Wonderful class.

Both instructors are amazing and did a great job teaching us to become the best nurses we can be.

The textbook for this course was not very helpful. The answers I was looking for were spread out through multple chapters. When trying to find where they could be in the beginning of the book, was not very helpful either.

I felt as though this course was just a lot of memorization, instead of absorbing and understanding the actual material.

None

I loved my clinical experience. Mrs. Henderson did an outstanding job in helping be learn and being hands on with me when I was learning something new. She was able to help me completely understand the take I was doing. She was encouraged me to learn new things and explained them in ways that I could learn and remember. She did an outstanding job as a clinical instructor.

content explained very well. My favorite course

This course was the most difficult for me to pass, but i believe it was the most effective learning that I have done so far to actually make me think like a nurse.

CHENDERSON HELPED MORE THAN ANYONE

I think that this is a harder course when it comes to teaching about medications because you kind of just have to learn them on your own. But I think both instructors tried to help however they could.

This class was very difficult, but the instructor made it enjoyable.
great
The time and patience that the instructors had throughout the semester was beneficial to my learning. They followed the objectives and put in powerpoints the high points of the lessons learned to help us follow along in the book and understand information better.
The instructors have gotten better as the course went on. Lectures improved and tests improved.
Mrs. Henderson and Mrs. Brandt are absolutely amazing teachers that strive to do their best and adapt to all of our indivual learning needs as best as possible while retaining integrity as teachers.
Both of the instructors were very effective in helping me learn the material and create a better understanding of the skills to become a good nurse.
Mrs. Henderson was one of the best people I have ever worked with. She always has a smile on her face and is willing to help you out no matter the situation. She cares about patient safety but at the same time wants to make sure you learn along the way. She is willing to get up there and show you exactly how to do it whenever you are having problems understanding.
great
CHENDERSON IS A GREAT INSTRUCTOR
n/a
None
I would like more ways to compare the course to real world things that I could adequately use to understand the material better. One instructor was better than the other with giving us something to relate to during learning.
C. Henderson is exceptionally good at tying real life experiences into our lectures. B. Brandt is just as good about involving the class in the lecture and using nclex questions to challenge us.
chenderson is by far the most caring and understandable instructors ive ever meet and honestly i dont know how i could do it without her in this program! bbrant is very sweet as well but had some times when she seemed to be aggrivated by questoins ask in class.
n/a
The instructors were very helpful and made themselves available to answer any questions I had.
Sometimes it was hard to follow when guest speakers where talking about the subjects.
I think both instructors did a great job with the material!
Thank you for all your help and letting me taking this class this winter! I have really enjoyed it!
Very helpful when she is needed. If struggling with somthing she's always there to explain how to fix the situation.
A lot of information for such little time.
The instructors made sure we understood the math portion of nursing and how to calculate what you would give a patient with what you were given and what you had. They also helped us with knowing which medications fall under the specific categories of disorders and what to look for as far as side effects and contraindications and how well the patient is tolerating their medications. They helped categorize all the medications in the power points and charts to help us understand better.
The instructors made sure we had all of the necessary material and information to do well in this class. The instructors' power points were very beneficial and allowed us to understand the material and follow through the book effectively. The power points were another good study material for our exams.
The course was challenging and pushed me further to learn the material.
Mrs. Brandt and Mrs. Henderson gave us everything we needed as student nurses to be successful in what we

have devoted our time to. They have gave more than what was expected of them as instructors to make sure we understood and could perform the clinical tasks and the nursing management behind a disease. They always made themselves available to help explain further a section we didn't understand or just to be there as an emotional support system when we would get into a rut. As student nurses we are very lucky to have them as instructors.

&#65533;&#65533;

Class and instructor were overall very good. Besides some technological problems that occurred periodically throughout the class, there were no complaints. ☺

Was taught by LT Haney in big springs

Outstanding course, I'm eager to begin the next semester

Class that should be easy yet I made it hard

&#65533;

This was a critical course the become a paramedic...Travis was outstanding in helping me understand and learn cardiology paractice

Happy to have passed this time
