

Dental Hygiene 30 Hours Observation Verification Instructions

Howard College Dental Hygiene is committed to providing an educational experience enriched by personal and professional growth, therefore the application process begins with an introduction to the role of the dental hygienist within the dental team. To be considered for acceptance, you must observe a Registered Dental Hygienist.

You must complete a minimum of 30 hours of observation.

Here's what you need to do:

- Call a dental office or clinic and arrange a time to observe procedures performed by a Registered Dental Hygienist.
- Arrive on time for the observation and dress appropriately (wear clean and neat clothing, no tattered jeans or shirts).
- Observe the procedures of the Registered Dental Hygienist ONLY.
- Obtain the signature of the Registered Dental Hygienist you observed confirming your observations.
- If you have submitted a completed observation form with a previous Howard College Dental Hygiene Program application you do not have to do the observations again. HOWEVER, call the Dental Hygiene Program Office and confirm that we have the completed form on file (432) 264-5065.

DO NOT RETURN THIS CHECKLIST IN THE APPLICATION PACKET
