and
The Commission on Accreditation for Health Informatics and Information Management Education

Approved By
The Texas Higher Education Coordinating Board
and
The Texas Workforce Commission
for
Veteran’s Educational Training
Vision
   Education . . . For Learning, For Earning, For Life!

Mission Statement
   To build our community through excellence in education for lifelong learning.

Objectives and Strategies
   Provide excellence in education
      • Focus on student success
      • Provide early intervention
      • Provide resources to achieve excellence
      • Encourage excellence and growth in programs
      • Improve efficiency and effectiveness

Foster life-long learning
   • Provide comprehensive educational opportunities
   • Grow and cultivate critical thinking skills

Be a partner in economic and community development
   • Identify and focus on workforce needs
   • Foster individual enrichment, community involvement, and cultural opportunities.
ABOUT HOWARD COLLEGE

The Howard County Junior College District was created by a county-wide vote on November 17, 1945. Seven citizens of Howard County were elected on that same ballot to serve as a Board of Trustees. Howard College was first housed two miles west of downtown Big Spring in the hospital area of the former Air Force Bombardier School. The first session began on September 30, 1946. On September 12, 1951, the college was moved to a one hundred acre campus located in southeast Big Spring. On November 6, 1979, the Board of Trustees unanimously voted to establish the SouthWest Collegiate Institute for the Deaf as a part of the Howard County Junior College District. The first classes offered through this program began on August 25, 1980.

Howard College Big Spring

The Howard College/Big Spring physical facilities are located on a spacious campus. The 120-acre campus contains an administration-classroom complex, a two-story science building, a 14,000 square foot library building, a fitness center, a student union building, a music building, a practical arts building, an applied science center, a 28,000 square foot occupational building, residence halls for men and women, a 90,000 square foot coliseum complex, a baseball park, a softball park, and a football stadium with a seating capacity of ten thousand, utilized and maintained by the Big Spring Independent School District. The Howard County Junior College District property includes 276 acres of land in Martin County, near Stanton, Texas, which is used as an agricultural research and demonstration center. The college also leases 20 acres three miles east of Big Spring that houses a rodeo arena and livestock pens.

Howard College Lamesa

The Lamesa campus of Howard College, 45 miles north of Big Spring in Dawson County, was established in 1972. A variety of learning opportunities are available, including academic transfer and workforce education courses. The building, owned by Dawson County, includes three large classrooms, a computer lab, office space, and a distance learning classroom with interactive video equipment for receiving courses from the Big Spring and San Angelo campuses. High school students are also able to take courses at Lamesa High School for dual high school and college credit.

Howard College San Angelo

The San Angelo campus of Howard College serves the citizens of the Concho Valley, including Tom Green County and surrounding communities, on the San Angelo Campus, at the West Texas Training Center and Goodfellow Air Force Base. The purpose of Howard College at San Angelo is to provide learning opportunities that challenge all persons to a commitment of self-growth, personal fulfillment, and preparation for their roles in society. Instruction on the San Angelo campus is predominantly in technical/occupational fields of study leading to certificates and/or associate in applied science degrees. Compensatory programs for adult learners, selected continuing education courses, and training programs leading directly to employment also are available.

SouthWest Collegiate Institute for the Deaf

SWCID is located at the site of the former Webb Air Force Base in Big Spring. The primary purpose of SWCID is to provide a comprehensive educational environment assisting deaf students in achieving their educational and career objectives. Courses in developmental/preparatory studies, college transfer programs, and vocational/technical training are available. Hearing individuals preparing for vocations in deafness-related fields may pursue their educational and career objectives at SWCID. In addition, professionals employed in the field of deafness are provided opportunities to upgrade their skills/knowledge through workshops and seminars sponsored by SWCID.

SWCID offers students several educational programming options:
1. Self-contained classes offered on the SWCID campus by instructors skilled in the use of sign language and communication modalities,
2. Mainstreamed classes offered on the Howard College-Big Spring campus facilitated through the use of skilled sign language interpreters,
3. A combination of self-contained and mainstreamed course work with some classes being taken on both campuses; and,
4. Educational outreach provided through extension courses in Big Spring and in other communities.

Eden Detention Center

The 1,000-bed Eden Detention Center (EDC) is a medium-security detention facility operated by the Corrections Corporation of America. Located in Eden, Texas, 45 miles from the Howard College San Angelo (HCSA) campus, EDC houses prisoners for the Federal Bureau of Prisons. HCSA offers adult vocational courses in construction, masonry, ornamental horticulture, typing, bookkeeping, computer information, mathematics, and English.

Big Spring Federal Correctional Institute

The purpose of Howard College at the Big Spring Federal Correctional Institute (FCI) is to offer adult vocational courses. Classes in transfer courses are offered on an as-needed basis. For students who have not completed high school, Howard College offers Adult Basic Education (ABE), English as a Second Language, and GED classes at the FCI.

Cornell Correctional Centers

The purpose of Howard College at the Cornell Correctional Centers is to offer select adult vocational courses. For students who have not completed high school, Howard College offers Adult Basic Education, English as a Second Language, and GED classes at the centers.
2008 - 2009 ACADEMIC CALENDAR

Registration dates are published in the schedule and posted on the Howard College website at www.howardcollege.edu. Dates for flexible-entry courses can be found in the schedule and on the website.

**FALL 2008**

August 18 – 22 (M-F)
Faculty and Staff Meetings
August 22 (F)
Last Day to Drop and Receive 100% of Refundable Fees (See Refund Policy)
August 25 (M)
Classes Begin and Late Registration Begins (late fee charged)
August 29 (F)
Last Day to Late Register
September 1 (M)
Labor Day – No Classes
October 17 (F)
Mid-Semester Break – No Classes
November 7 (F)
Last Day to Apply for Fall Graduation
November 24 (M)
Last Day to Drop a Course for Fall Semester
November 26-28 (W-F)
Thanksgiving Holiday – No Classes
December 8-11 (M-Th)
Final Exams
December 12 (F)
Semester Ends

**SPRING 2009**

January 12-16 (M-F)
Faculty and Staff Meetings
January 16 (F)
Last Day to Drop and Receive 100% of Refundable Fees (See Refund Policy)
January 20 (T)
Classes Begin and Late Registration Begins (late fee charged)
January 23 (F)
Last Day to Late Register
March 9-13 (M-F)
Spring Break-Big Spring, Lamesa, and SWCID Campuses
March 16-20 (M-F)
Spring Break-San Angelo Campus
April 10 (F)
Holiday
April 17 (F)
Last Day to Apply for Spring Graduation
April 27 (M)
Last Day to Drop a Course
May 11-14 (M-Th)
Final Exams
May 15 (F)
Semester Ends
Big Spring Campus and SWCID Graduation
May 16 (S)
San Angelo Campus Graduation

**SPRING MINI 2009**

May 15 (F)
Last Day to Drop and Receive 100% of Refundable Fees (See Refund Policy)
May 18 (M)
Classes Begin
May 25 (M)
Memorial Day Holiday – No Classes
June 3 (W)
Last Day to Drop a Course
June 4 (Th)
Final Exams and Semester Ends

**SUMMER I 2009**

June 4 (Th)
Last Day to Drop and Receive 100% of Refundable Fees (See Refund Policy)
June 8 (M)
Classes Begin
June 9 (T)
Last Day to Register for Summer I (Late Fee Charged)
July 2 (Th)
Last Day to Drop a Course
July 8 (W)
Final Exams and Semester Ends

**SUMMER II 2009**

July 9 (Th)
Last Day to Drop and Receive 100% of Refundable Fees (See Refund Policy)
July 13 (M)
Classes Begin
July 14 (T)
Last Day to Register for Summer II (Late Fee Charged)
August 6 (Th)
Last Day to Drop a Course
August 12 (W)
Final Exams and Semester Ends

Assistant Professor/Psychology, San Angelo  
B.S., Pittsburg State University; M.S. Kansas State University

KAREN HAAGENSEN  
Instructor/Vocational Nursing, San Angelo  
A.A.S., R.N.C., Odessa College

RICK HAMBY  
Professor/History and Government  
J.D., St. Mary’s University Law School.

CAROL HANES  
Assistant Professor/English  
B.S., Baylor University; M.Ed., University of Texas at Austin

CARLA HARROLD  
Assistant Professor/Economics  
B.S., Angelo State University; M.B.A. University of Texas

ANNESSA HAYS  
Assistant Professor, San Angelo  
B.S., Texas Tech; M.S. Texas Tech

MICHAEL HEMMETER  
Instructor/Adult Basic Education, San Angelo  
B.A., University of Houston

NANCY WOODS HERNANDEZ  
Professor/Program Director/Business, San Angelo  
B.S. San Diego State University; M.A. Webster University, Psy.D. Alliant International University

RICHARD HICKAM  
Assistant Professor/Psychology  
B.S., M.S., Abilene Christian University

KEITH HIDALGO  
Associate Professor/Government/San Angelo  
A.A., B.S., M.A., Angelo State University

MANUEL HINOJOS  
Professor/Workplace Literacy/Cornell  
A.S., Odessa College; B.S., Northeast Louisiana University

LILLI HENSLEY  
Professor/Program Director/Criminal Justice, San Angelo  
B.A., Angelo State University; J.D. St Mary’s University School of Law

SANDRA HODNETT  
Instructor/Cosmetology  
A.A.S., Howard College, Licensed Texas Cosmetology Instructor

SHANNON HOFFMAN  
Instructor/Eden  
B.S. Angelo State University

RANDELL HOLLIS  
Instructor/FCI  
Undergraduate studies Howard College

VIOLET HUTCHeson  
Instructor/FCI  
B.S. Howard Payne; M.L.S., Texas Woman University

BEVERLY JONES  
Assistant Professor/English  
B.S., M.A., Angelo State University

LINDA KEENEY  
Assistant Professor/Math  
B.S., M.S., Angelo State University

GREG KERNICK  
Assistant Professor/Kinesiology  
B.S., Oklahoma Panhandle State University, M.S., Northern Arizona University

LAURI KIRGIS  
Instructor/Respiratory Care, San Angelo  
B.A.T. University of Texas-Brownsville, R.R.T. National Board for Respiratory Care

LLOYD LACY  
Associate Professor/Computer Science  
B.S., M.B.A., M. Ed., Wayland Baptist University

AURIEL LAFOND  
Assistant Professor/Chemistry  
B.S., University of Wisconsin; M.A., University of Michigan. Additional graduate study: Cornell University, University of California at Berkeley, Texas Tech University

CHARLA LEWIS  
Assistant Professor/Program Coordinator/EMT  
Emergency Medical Technician, Howard College; B.A., Baylor University; M.Ed., University of Texas of the Permian Basin

BENNIE LUBKE  
Instructor/Cosmetology, San Angelo  
Licensed Instructor, Texas Cosmetology Commission

LOU LUX  
Assistant Professor/Business, San Angelo  
B.S., Ohio State University; M.B.A., Angelo State University

ERIN MacKENZIE  
Assistant Professor  
B.S., M.S., Texas Tech

BILLY McMAHON  
Instructor/Computer Information Systems  
A.A.S., Howard College. Additional undergraduate study: University of Texas at Arlington

WILLIAM RICHARD MERRICK  
Instructor/Plumbing/FCI  
GARY MORRIS  
Instructor/Building Maintenance, Cornell  
B.S., Angelo State University

ROBERT D. PATTERSON  
Professor/Dental Hygiene  
B.S., Baylor University; D.S., Baylor College of Dentistry

KIRK PETERSON  
Assistant Professor/Program Director Radiologic Tech, San Angelo  
B.S., Midwestern State University; M.A., Angelo State University

HAWLEY PFLUGER  
Instructor/Eden  
B.S., Sul Ross State University
JULI POE
Instructor/Clinic Director/Dental Hygiene
A.A.S., Howard College

WAYNE RACKLEY
Instructor/Program Director/Computer-Aided Drafting Technology, San Angelo
B.S., Abilene Christian University

KELLY RAINES
Assistant Professor
B.S., M.B.A., Lindenwood University

ROBERT REID
Instructor/HVAC, FCI

MARTY RICE
Instructor/Executive Housekeeping, FCI
Undergraduate study: Howard College

LINDA RONSPIEZ
Program Director/Cosmetology, San Angelo
Licensed Instructor, Texas Cosmetology Commission.

CHAD RUDD
Instructor, FCI
Undergraduate studies: Amarillo College

DONNA RUTLEDGE
Director/Vocational Nursing, San Angelo
R.N., A.S.N., Angelo State University

LINDA SCHAFER
Instructor/Vocational Nursing
R.N., B.S.N., Texas Women’s University

ANGIE SERRANO
Instructor, San Angelo
Undergraduate studies: Howard College

STACY SLATEN
Instructor/Art
B.A., B.S., Texas Tech University; M.F.A., Miami University

BRITT SMITH
Assistant Professor/Kinesiology/Head Baseball Coach
B.S., M.S., West Texas A&M

PAM STEWART
Associate Professor/Speech, Psychology, and English, SA
B.A., M.A., Angelo State University. Additional graduate study: Angelo State University and Sul Ross State University

JUNE STONE
Instructor
R.N., B.S., Texas Tech

SUSAN STRICKLAND
Instructor/Preparatory Studies, San Angelo
B.B.A., Angelo State University

MICHELLE TRUBENSTEIN
Instructor/Program Director Respiratory Care, San Angelo
A.A.S., Howard College. B.A.T. University of Texas-Brownfield, R.R.T., National Board for Respiratory Care

THEODORE RUSTMANN, D.O., FCCP, FAASM
Des Moines College of Medicine

JAMES A. PARKER, JR., M.D.
Texas A & M University College of Medicine

DONALD WEEKS
Instructor/Basic Skills and Computer Skills, FCI
Undergraduate study: East Texas State University

SUSAN WELCH
Instructor/Biology, San Angelo
B.S., Angelo State University; M.S., Sul Ross State University

DEBORAH WILLIAMS
Instructor/ABE
B.B.A., Angelo State University

GAYLA WILLIAMS
Professor/Business and Office administration
A.A., Howard College; B.B.E., M.B.E., West Texas State University. Additional graduate study: Texas Tech University, Angelo State University, North Texas University, and Adams State College

THOMAS WILLIS
Instructor/ESL, Eden
B.S., Texas Tech University

DANIEL WOOLEY
Instructor
B.S., Texas A&M; M.S., Angelo State University

CECILIA WORDEN
Instructor/Eden
B.A., Southwest Texas State

RESPIRATORY CARE MEDICAL DIRECTORS

WALTER RUSTMANN, D.O., FCCP, FAASM
Des Moines College of Medicine

JAMES A. PARKER, JR., M.D.
Texas A & M University College of Medicine

DEBBIE VAN PELT
Instructor/ABE
A.A.S., Howard College, Angelo State University

RHONDA WATSON
Instructor/Workforce Training/Nurse Aide, San Angelo
LVN, Howard College

MARK WEBB
Instructor/Ornamental Horticulture, Cornell
ADMISSIONS

Admission Requirements

A student may be admitted to Howard College according to any one of the following conditions and in compliance with the criteria of the Commission on Colleges of the Southern Association of Colleges and Schools:

1. For admission to a standard academic or general curriculum, Howard College shall require that the applicant be a graduate of an accredited high school or meet the institutional requirements for transfer from another institution of higher education.

2. An applicant who has not graduated from high school and has no transferrable credit from any institution of higher education:
   A. must be admitted upon completion of the General Educational Development Testing Program; or
   B. may be admitted on the basis of submission of a score of 18 on the American College Test (ACT) or 800 on the Scholastic Aptitude Test (SAT) or upon the recommendation of the principal or superintendent of the last high school attended.

3. An applicant who has not been graduated from a high school, has no transferrable credit from any institution of higher education, and is under the age of 18 and who attended a non-accredited public or private high school, or who was schooled in a non-traditional setting:
   A. may be admitted on the basis of submission of a score of 18 on the American College Test (ACT) or 800 on the Scholastic Aptitude Test (SAT) or upon the recommendation of the principal or superintendent of the last high school attended;
   B. must present a notarized record of the high school equivalent work completed and the date of successful completion; and
   C. must agree to limitations or conditions of admissions established by the institution.

4. A person who is eighteen years of age or over and has no transferrable credit from any institution of higher education may be exempt from the admissions requirements of this section and admitted on “individual approval,” provided the admitting officer is convinced that the applicant’s record indicates the student would be competent to benefit from a program of the institution as demonstrated by a score equal to or above the 25th percentile on a placement test or the THEA test. Students admitted on individual approval shall be subject to the same policies and regulations as all other students. To be admitted on individual approval, the student must present his or her academic record to the Registrar for evaluation. If the Registrar denies admission, the student may appeal to the Admission and Standards Committee. To file an appeal with this committee, contact the Vice President for Educational Programs at Howard College in Big Spring.

5. Students enrolling in the terminal curriculum, including technical education courses, shall have the same entrance requirements as those listed in this section. A student not meeting the requirements for admission to a standard academic or general curriculum may be admitted to a terminal program on individual approval if the student is at least eighteen years of age.

6. A student who has completed the junior year of high school may be permitted to enroll in a community college upon recommendation of the high school principal. Normally, the class load of such student shall not exceed two college credit courses per semester. However, under special circumstances that indicate a student with exceptional academic abilities is capable of college-level work, based on such factors as grade point average, ACT or SAT scores, and other assessment indicators, the chief instructional officer of Howard College may grant exceptions to the two requirements. The student must take the THEA test prior to enrolling in college-level work.

7. Residents of the state of Texas may seek admission without consideration of courses taken ten or more years prior to enrollment under Senate Bill 1321. Students have the option of electing to have course work taken ten or more years prior to the starting date of the semester in which the applicant seeks to enroll either counted as usual or ignored for admission purposes. Applicants who elect to apply for admission under this law and who are admitted as students may not receive any course credit for courses taken ten or more years prior to enrollment.

8. A student transferring from another accredited college or university is ordinarily eligible for admission if he or she is eligible for readmission to the institution that he or she previously attended. The following conditions apply:
   A. A student on academic or disciplinary suspension from the last school attended will be considered for admission to Howard College on an individual basis only.
   B. Credits for courses in which a passing grade (“D” or better if student's overall grade average is “C” or better) has been earned may be transferred from any college accredited through one of the regional accrediting associations, such as the Southern Association of Colleges and Schools. Credits may not be transferred from any U.S. institution not so accredited. Preparatory or any other non-degree credit courses cannot be used for transfer or in determining the 2.0 (“C”) transfer average. Howard College awards transfer credit for credit by examination if the credit is included on a transcript from an accredited college or university, if it is within the established 18-hour limit, and if it is appropriately related to the student's educational program (see Credit by Examination in this catalog).
   C. For students who have a declared major and who are seeking a degree, a course-by-course evaluation of a transferred transcript will be completed by an advisor, program director, or other appropriate personnel as needed for a degree plan or program plan.
   D. Course work completed at colleges outside the United States will be considered for transfer on an individual basis. See the International Student Policy.
   E. Students must comply with THEA guidelines prior to enrolling in college-level courses. Students who are unable to meet this requirement may enroll in only preparatory (precollegiate) or non-credit courses until the test is taken.

9. Satisfying these admission requirements does not guarantee admission/acceptance into certain programs. Some programs have additional procedures, standards, and/or requirements that must be met in order to be accepted into the program. Some programs also require specific performance standards to be maintained in order to continue enrollment in the program. Please see specific program descriptions for these requirements.
The steps for entering Howard College are as follows:

1. Obtain the following forms from the Admissions Office. Complete, and return each to the same office.
   A. Application for Admission - This is submitted only for the original admission. When completing the oath of residency portion of the application for admission, the student is responsible for registering under the proper residence classification and for providing documentation as required by the college (driver’s license, voter registration, etc.). Students classified as Texas residents must affirm the correctness of that classification as part of the admissions procedure. If the student’s classification as a resident becomes incorrect/changes for any reason, it is the responsibility of the student to notify the Registrar. Failure to notify the institution constitutes a violation of the oath of residency and will result in disciplinary action. (See number 6 in this section for more information.)
   B. Transcript Request Form - This form is completed in order that the college may obtain an official transcript from the high school or from other colleges if the student is a college transfer. (GED scores may be submitted in lieu of high school completion.) Students must submit an official transcript from all previous schools attended to be approved for admission.
2. Take the Texas Higher Education Assessment (THEA) test. Students who are exempt from the THEA test are not required to take and pass the THEA. Some courses may require placement testing prior to enrolling.
   A. Students should submit these test scores to be used for placement and guidance purposes only. The scores do not determine general admission to college.
   B. Applications for THEA may be made through the high school or college guidance offices. The college placement exam and the THEA are given at Howard College at designated times. Call the guidance and counseling office for more information.
   C. Requests for exemptions will be handled on an individual basis.
3. Notification of Admission - The Admissions Office will notify students of their acceptance for admission after the above information is received.
4. Registration for classes will follow the dates of official registration as announced. Payment of tuition and fees will complete the process of becoming a student.
5. Students must visit with an advisor prior to enrolling each semester. Advisors will assist the student in program planning and selecting appropriate courses. An advisor will be available throughout the student’s attendance for advice and assistance. Each student is responsible for progress accounting, including cumulative grade point averages, courses failed, courses repeated, and graduation requirements.
6. Students who wish to change their residence status must complete a Petition for Reclassification prior to the census date of the course for the term. For a 16-week course, the census date is the twelfth class day. For a six-week course, the census date is the fourth class day. For a three-week course, the census date is the second class day. For more information about residence status, please contact the Registrar’s Office.
7. Falsification of admission records will result in permanent suspension from the college.

Howard College Success Initiative

Purpose
Howard College establishes this plan in accordance with the Texas Education Code, Section 51.306 and 51.403, to assess and correctly place undergraduate students entering our institution. Students who do not have college-level skills in reading, writing, or math, as determined by initial testing, will be placed in a college preparatory program to improve any skill areas that are found deficient.

Minimum Passing Standards

- **THEA** (230 Reading, 230 Math, 220 Writing)
- **ASSET** (41 Reading, 38 Math, 40 Writing)
- **COMPASS** (81 Reading, 39 Math, 59 Writing)
- **ACCUPLACER** (78 Reading, 80 Math, 80 Writing)

Passing score on the essay portion of all tests is 6 (or 5 if student passes the writing multiple choice).

Advising Process
Howard College students are required to see an advisor or counselor prior to registration. At this time students determine their intentions: non-degree seeking, Certificate Level I, Certificate Level II or associate degree, and will be advised according to their goals by an advisor specializing in their interest area. Faculty and staff who advise students will be given necessary training to pass along updates or changing information needed to properly advise students.

Eligibility, Exemptions/Exceptions
Each undergraduate student entering Howard College, unless exempt or under exceptional circumstances, will be required to test for reading, writing, and math skills before enrolling in college-level courses. The students will take a state approved assessment test that identifies areas of deficiency for this initial test.

Exempted from requirements:

1. A student who meets qualifying standards on the SAT, ACT, TAAS, or TAKS. SAT and ACT exemptions are valid for a five-year period following initial test date. TAAS and TAKS scores are valid for a three-year period after initial test date;
2. A student who has graduated with an associate or baccalaureate degree from an institution of high education;
3. A student who transfers from a private or independent institution of higher education or an accredited out-of-state institution of higher education and who has satisfactorily completed college-level coursework with a C or better as determined by the receiving institution;
4. Level One Certificate Students;
5. A student who is serving on active duty as a member of the United States armed forces or as a member of the Texas National Guard;
6. A student who is currently serving as, and for at least the three-year period preceding enrollment, has served as a member of a reserve component of the armed forces of the United States; or
7. A student who on or after August 1, 1990, was honorably discharged, retired or released from:
   a. active duty as a member of the armed forces of the United States or the Texas National Guard, or
   b. service as a member of a reserve component of the armed forces of the United States;
8. A student who has attended any institution of higher education and has been determined to have met college-readiness standards by that institution (Howard College may recommend additional preparatory coursework if a...
Reading and Writing
English 1301 will be considered a reading and writing restricted course. Students must pass both the reading and writing portions of the assessment test and/or the last course of both the reading and writing preparatory sequences with a grade of C or better prior to enrolling in English 1301. Students will not be allowed to be concurrently enrolled in college preparatory courses and English 1301. Students must pass English 1301 before enrolling in English 1302.

Mathematics
All college-level mathematics courses will be considered restricted courses. Students must pass the math portion of the assessment test or the last course of the math preparatory sequence with a grade of C or better prior to enrolling in any credit math course. Students will not be allowed to be concurrently enrolled in college preparatory courses and college-level math courses.

Required attendance and participation
Students enrolled in college preparatory course work due to the Success Initiative policy are required to regularly attend and participate in class activities. Students who miss six (6) hours or more of class may be penalized and may fail the class due to lack of attendance. Instructors have the option to drop students for lack of attendance, or the student may choose to give the grade they earn. The instructor will state his or her attendance policy in the course syllabus. Students are responsible for keeping track of their attendance and, if needed, checking with their instructors to see if absences threaten the successful completion of a course.

Withdrawal from College Preparatory Courses
Students who are enrolled in college preparatory coursework during their first semester may not drop any preparatory course unless they are completely withdrawing from the district. In subsequent semesters, students may drop a college preparatory course only if they have continuous enrollment in at least one other required preparatory course. If the student drops all required preparatory courses, they will be dropped from all other courses at Howard College. Students dropping all required college preparatory courses will not be reclassified (within the same semester) as casual students or have their programs changed to level-one certificates to circumvent this policy. Students who withdraw from preparatory courses due to passing an approved assessment exam will be subject to the published refund schedule as stated in the Catalog.

College Preparatory Course Sequence
Students in preparatory reading, writing, and math, regardless of instructor, will be required to take a comprehensive final exam for each course.

* Math Courses:
  MATH 0330 - Math Essentials
  MATH 0331 - Beginning Algebra
  MATH 0332 - Intermediate Algebra
  MATH 0333 - College Prep Algebra

* Reading Courses:
  ENGL 0301 - Success in College Reading I
  ENGL 0302 - Success in College Reading II

* Writing Courses:
  ENGL 0320 - Success in Grammar/Writing
  ENGL 0321 - College Composition Prep I

* Some courses may not be offered at each campus. Students need to check class schedules each semester for course offerings.
Students will be placed in a level according to their initial test score. Students will then proceed through the sequence to complete their preparatory education, or the student may retest to move forward or place out of the college preparatory program.

**RECOMMENDATIONS**

Students that do not have adequate computer skills. The cost of the complete battery of tests (Reading, Writing, and Math) is $30. Students may take individual sections for $10 per section. Students must wait at least two weeks prior to retesting in each subject area.

**ACCUPLACER**

Howard College administers the Accuplacer Assessment, a state-approved alternative exam for meeting the Howard College Success Initiative. Scores required for placement in college-level courses are as follows: Reading-78, Math-80, and Writing-6 on the Essay section or a 5 on the Essay section and an 80 or higher on the Sentence Skills section. Accuplacer is computerized and is not recommended for students that do not have adequate computer skills.

**CONCURRENT ENROLLMENT (DUAL-CREDIT)**

Concurrent enrollment is a program that allows high school students to enroll in college courses while still attending high school. Courses are taken in place of the normal course load at high school. High school as well as college credit will be earned upon successful completion of the course. Students must have permission in writing from their high school principals or counselors, permission of the student’s parent/guardian, and must present an official high school transcript. Students must satisfy THEA requirements prior to enrolling in college-level course work.

With the appropriate permission and assessment, a student may be concurrently enrolled. Students may take no more than six semester hours per semester unless approved by the instructional administrator and high school principal. Some fees may be waived for concurrent students.

**EARLY ADMISSION STUDENT ENTRANCE INFORMATION**

**PURPOSE**

The Early Admission Program at Howard College offers an opportunity for high school juniors and seniors to progress and earn college credits toward the associate or bachelor’s degree while completing requirements for high school graduation. The program is not in competition with, or in lieu of, high school required or elective credits, but is designed to permit selected students to make more constructive use of their time where, due to class scheduling or high learning capacities, seniors may have free time to enroll in college courses.

**ELIGIBILITY**

The program is available to high school juniors and seniors subject to the following: (1) student must have written approval by the high school principal; (2) student must be classified as a junior or senior in high school and satisfy the average daily attendance policy of the high school; (3) student will be limited to two courses per semester at Howard College; (4) upon acceptance by the college admissions officer, the student will be admitted conditionally, which means that college credit will not be granted until the student gives evidence of high school graduation with an official transcript from the school; (5) the enrolled student will be subject to the rules and regulations of the college; and (6) the student will be required to take the THEA test prior to enrollment. Under special circumstances that indicate a student with exceptional academic abilities is capable of college-level work based on such factors as grade point average, ACT or SAT scores, or other assessment indicators, the chief instructional officer of Howard College may grant exceptions to numbers two and/or three above.

**APPLICATION**

The student should contact a high school counselor for an application to the Early Admission Program. The application must be signed by the student, the high school principal, and the student’s parent/guardian. This form should then be forwarded or brought to the admissions office of Howard College for complete information on registration procedures and for necessary forms.
INTERNATIONAL STUDENT POLICY

This policy is subject to change based on changes in federal regulations and guidelines governing international students. Failure to maintain any of the requirements listed below can result in the student being sent back to the home country.

International Student Admissions
Howard College is authorized under Federal law to enroll international students.

Students should follow the admission procedures detailed in the International Student Admissions Packet which can be found on the Howard College web site or contact the Student Assistance Center.

A student from a foreign country will be eligible for admission to Howard College, and a Form I-20, Certificate for Eligibility, will be issued when all admission requirements have been met and the following items are on file in the Office of the Registrar:

1. Application for Admission, along with a mandatory, non-refundable $50 application fee, in U.S. dollars only. Major credit cards are accepted.
2. Official copies of high school and college transcripts, translated in English and evaluated by approved agency.
3. Official TOEFL (Test of English as a Foreign Language) scores, if applicable (exemptions may apply, based on other placement exam scores and national origin). A score of 500 (paper-based), 173 (computer-based), or 61 (internet-based) on the TOEFL is required to be considered for admission. See the International Student Admissions Packet for more details about TOEFL requirements at www.howardcollege.edu/bigspring/prospective students.
4. Financial information of the applicant, to include financial agreement, financial statement, financial status form with certified bank statement, conditions of acceptance agreement, and ALL required blank forms included in admissions packet.
5. Copy of repatriation/medical evacuation insurance policy. International students who fail to purchase this insurance and show proof by the first class day of each semester will be totally withdrawn from classes.

An international applicant must have all of the above documents on file in the office of International Student Advisor no later than April 1 in order to register for the fall semester, September 1 to register for the spring semester, and January 1 to register for the summer sessions.

International Transfer Students (Students Currently Enrolled in Educational Institutions in the U.S.)
Immigration and Naturalization Service regulations require confirmation that students in the U.S. on an F-1 (student) visa must have established transfer eligibility before the new institution initiates the transfer. Transfer students are subject to the same admission requirements as outlined above.

VETERAN STUDENT ENTRANCE INFORMATION

Howard College is fully approved for Veterans Education Training by the Texas Workforce Commission. Veterans are requested to contact the Student Assistance Center at Howard College or the Veterans Administration Hospital and make application for a certificate of eligibility and entitlement as soon as possible in order that payment of subsistence may be expedited.

It is necessary that all admission requirements be met before certification of enrollment to the Veterans Administration will be submitted. Previous education and training records are evaluated. Students are notified as to what credit will be permitted for this training to be used on their educational objective. Students are required to complete only the remaining required courses in the program to fulfill their objectives. Students will not be certified to the Veterans Administration for any non-required course on their objectives.

It is necessary that veterans present a Certificate of Eligibility and Entitlement or a completed veterans application packet to the Student Assistance Center if they expect to draw subsistence pay from the Veterans Administration. The application packet is comprised of the following documents: (1) Application - VA Form 22-1990; (2) Separation papers - DD214; 4; and (3) Dependency evidence - marriage certificate, birth certificate, divorce decree, etc.

War Orphans desiring to draw benefits from VA, under provisions of P.L. 634, should present a certificate of eligibility prior to enrollment and attendance in class. The Certificate of Eligibility must be on file before certifying the student’s enrollment to the Veterans Administration for educational benefit payments.

Veterans who are no longer entitled to educational benefits under the Veterans Administration and who were residents of the State of Texas at the time they entered active military service, may be eligible for benefits under the Hazelwood Act. Those who think that they may qualify for this benefit should present a copy of their separation document (showing place of entry into active military service) and evidence proving that their VA educational benefits are exhausted to the Registrar for interpretation.
Tuition and Fees

Refund Policy
General Financial Information
Residence Hall Cost
TUITION AND FIXED FEES

The following tuition rates will be charged each semester. These rates apply to courses taken for credit and for audit. **TUITION AND ALL FEES ARE SUBJECT TO CHANGE IF NECESSARY TO COMPLY WITH NEW STATE LAWS AND BOARD POLICY.**

IN-DISTRICT (HOWARD COUNTY RESIDENCY): $40 per semester hour with a minimum base amount of $150

OUT-OF-DISTRICT (TEXAS RESIDENTS): $52 per semester hour with a base amount of $180

NON-RESIDENT (OUT OF STATE AND INTERNATIONAL): $74 per semester hour with a base amount of $200

BUILDING CHARGE (ALL STUDENTS): $70 per semester

STUDENT SERVICES FEE (ALL STUDENTS): $3 per semester hour beginning at 6 hours, up to and including 12 hours.

SENIOR CITIZENS: If space is available at the close of regular registration, students age 65 and older may enroll for up to six hours of courses each semester and/or summer term without payment of tuition. All fees will be charged. If space is available at the close of regular registration, students age 65 and older may audit any course(s) at no charge. This exemption will only be honored upon request in person. Registration must be completed on site each registration period. This exemption does not apply to programs with limited enrollment and/or competitive selection.

HIGH SCHOOL/OTHER STUDENTS:
1. Certain fees or costs may be reduced for concurrently enrolled high school students. The base tuition for high school students enrolled in academic transfer courses is $50 for in-district, $100 for out-of-district, and $140 for non-resident students. Hourly tuition is $38 for in-district, $50 for out-of-district and $72 for non-resident. Fees are waived.
2. The tuition rate for students concurrently enrolled in Workforce Education courses is $0. Students may be responsible for certain course or program costs such as insurance, licensure requirements, testing, certification, equipment, etc.
3. Certain fees or other costs may be reduced for students who are enrolled in classes taken in facilities that are provided for the purpose of instruction when these locations have been approved by the Board of Trustees.

GENERAL FINANCIAL INFORMATION

SPECIAL COURSES: The college reserves the right to set appropriate fees and special tuition for any special courses that may be offered after publication of this catalog.

TRANSCRIPT: Transcript requests should be made in writing. The college can send transcripts only to another college or university if the transcript request is made by phone. It is not the policy of Howard College to fax transcripts. However, in certain situations and when the college is not in a registration period, the college will fax a transcript to another college or university with a written request. A transcript will not be released if a “hold” has been placed on the file. Contact the Registrar’s office for information on transcripts.

FINANCIAL OBLIGATIONS: Students will not receive an official transcript at Howard College until they have discharged all financial obligations to the college. Registration is not complete until all accounts for the semester are paid or proper financial arrangements are made. Unpaid financial obligations may result in dismissal from the college. Students with outstanding financial obligations to the college will not be allowed to re-enroll until these obligations are cleared. Students who have outstanding financial obligations to the college may be allowed to enroll for workforce training and continuing education classes when these classes are required by and/or paid for by a local business or industry. In these cases transcripts will not be issued to the student and evidence of completion of the course will be provided to the employer.
**REGISTRATION:** A period will be set aside each term or semester to permit students to register. All tuition and fees will be paid at this time unless the student is a financial aid recipient.

**LATE REGISTRATION:** A late registration charge of $10.00 is required of all students enrolling after the regular announced day or days to register. This fee is also required if a student enrolls, completely withdraws from all classes, and then initiates another class enrollment. This fee is charged even if this situation occurs within the same day. This charge will be incurred by students who register in person or on-line.

**COURSE CHANGE:** A fee of $10.00 is charged for each course change. This fee will not be charged to any student who changes their courses through the on-line system.

**ADMITTANCE TO CLASS:** Students will not be allowed to attend classes until all tuition and fees have been paid or arrangements for payment have been made with the Business Office.

**BOOKSTORE REFUNDS:** Bookstore refunds will adhere to the posted policy provided by the bookstore contractor.

**CHECK IDENTIFICATION REQUIREMENT:** Personal checks submitted to Howard College will have the student ID or social security number written on them. The college staff will write the student ID or social security number on checks if the student has not already done so. If the student prefers not to have the student ID or social security number on the check, then the student must submit payment by cash, money order, or cashier's check. A driver's license number is required on all checks.

**RETURNED CHECKS:** A processing fee will be assessed any person who writes a check to the college that will not clear the payee's bank for any reason other than bank error. The fee amount will be equal to that charged by the county attorney's office for returned checks. If the check was given as payment toward a student's account, that student will have a hold placed on all records until the financial obligation to the college is cleared. The writer of the check will be notified in writing of the insufficient status. Failure to comply within specified time limit will result in the check being turned over to the appropriate outside agency for collection and additional fines. The college will not accept checks from any one that has written more than two returned checks.

**INSTALLMENT PAYMENT PLAN:** Howard College offers installment contracts for the payment of tuition/fees for Fall and Spring semesters.

- The plan is offered through Nelnet Business Solutions and must be executed on-line.
- One-half of the tuition and fees must be paid before the start of the semester with two equal monthly payments remaining.
- An enrollment fee of $25.00 will be charged per agreement period (semester).
- Contracts that extend past the number of payments on the semester agreement or delinquent accounts will be assessed a $45.00 fee.
- A student who fails to make full payment of tuition and fees, including any incidental fees, by the due date may be prohibited from registering for future classes until full payment is made.
- A student who fails to make payment before the end of the semester will not be issued a transcript or grade report until full payment is made.
- If the account is submitted for collection, the cost of collection will be the student's responsibility.

**RESIDENCE HALL COST**

Cost: Listed below are the current charges and installment amounts. Room and Board charges are subject to change without notice.

**Refundable room deposit**

$100.00 due at time of application for all students. Scholarships and Financial Aid do not cover this deposit. Students will not be assigned a room until the Dean of Students Office has received the deposit and the housing application.

**Room and Board charges**

- Old wing $25.00 Room
  - $1,380.54 Total before tax
  - $1,440.31 Total R & B
- New wing $600.00 Room
  - $1,833.54 Total before tax
  - $1,935.31 Total R & B

**Private Room charge**

Private rooms are an additional $525.00 old wing and $600.00 new wing per semester and are subject to availability. This fee must be paid in full when the resident accepts the private room assignment and cannot be prorated. The Quads in Turner Hall are not available for single occupancy.

**Installment Plan**

Students electing an installment plan will pay a down payment of $930.15 old wing, $1,018.54 new wing, due upon moving into the residence halls or at registration, whichever comes first. Two additional payments of $465.08 old wing, $483.83 new wing. Each will be due on dates as indicated by the Business Office on the installment contract.

**Summer School Housing charges**

$125.00 for the Mini Session and $250.00 for each long summer session (Summer I and Summer II.) A Board/Meal Plan is NOT offered during the sessions.

**Financial Aid/Scholarship recipients**

Room and Board payments due at Registration (financial aid and/or scholarship funds can be applied if the student has returned a signed Award Letter to the Student Assistance Center.)

**Non-Financial Aid/Scholarship recipients**

Room and Board payment due upon moving into the Residence Halls or at Registration, whichever comes first.

**WITHDRAWAL**

The residence hall cost includes room rent and meals. No refunds will be made for the room rent portion of the cost. The meal portion of the cost will be refunded based on the amount paid to date and on the remaining days left in the semester. Refund of the reservation deposit will be awarded under the following conditions:

1. The reservation is canceled before July 15 for the fall semester, December 15 for the spring semester, and May 1 for the mini and summer semesters.
2. The resident voluntarily withdraws from the college for reasons of health or circumstances beyond his/her control.
3. The resident officially checks out of the residence hall with the Residence Hall Supervisors.

Any damage or shortage at the time the resident vacates the residence hall will be deducted from the deposit. To obtain the deposit, the student must contact the Dean of Students Office.

FINANCIAL AID

GENERAL INFORMATION: Howard College provides financial assistance to help make the benefits of higher education available to qualified students. Federal and state grants, scholarships, federal student loans, and federal and state work-study programs are administered through the Financial Aid Office. Applications should be made well in advance of the date a student intends to register. Priority deadlines are April 1 for the fall semester and October 1 for the spring semester.

NOTE TO STUDENTS ATTENDING HOWARD COLLEGE EXTENDED CAMPUSES: Please contact the campus representative to assist you in completing your financial aid application information. Documents may be forwarded directly to your campus representative. Priority deadline is April 1 and fall registration deadline is July 1. Information received after the deadlines may not be processed in time for registration.

Basic qualifications for a student to be considered for all types of financial aid are:
1. Be in financial need (financial need is the difference between what college costs and what your family can pay according to federal guidelines).
2. Make satisfactory academic progress.
3. Be a national or permanent resident of the U.S.
4. Be pursuing a degree or certificate in an eligible program from Howard College. Only course work REQUIRED by your chosen degree plan can be used to determine financial aid eligibility.

To apply for all types of need based-financial assistance, a student must:
1. File the Free Application for Federal Student Aid (FAFSA). This application is available from high school counselors and principals, from the Financial Aid Office, or through FAFSA on the Internet (www.fafsa.ed.gov). Title IV Code Number for Howard College is 003574.
2. Contact the Financial Aid Office to insure that all copies of the Student Aid Report/I.S.I.R. for the Pell Grant are on file in the Financial Aid Office regardless of grant eligibility.
3. Complete the Howard College Application for Financial Aid. NOTE: A separate scholarship application is available in the Financial Aid Office. Deadline for scholarship consideration is April 1.
4. Forward a copy of high school transcript including date of graduation, and GED passing scores, or take a test approved by the Department of Education (see “Ability to Benefit” information below). A copy of the transcript or GED must be provided to the Financial Aid Office in addition to any other H.C. office that may have received a copy.

NOTE: Students selected for verification by the Department of Education will also be required to submit: 1) a signed copy of the family’s (student and spouse for independent students; student/spouse and parents if dependent) most recent federal income tax return (1040, 1040A, or 1040EZ) to the Financial Aid Office (all schedules and W2 information must be included.); and 2) an Institutional Verification Form (IVF) which may be obtained from the Financial Aid Office.

SATISFACTORY ACADEMIC PROGRESS STANDARDS
Students who receive federal financial assistance must maintain satisfactory academic progress (SAP) as described below.
1. All students attending Howard College and receiving federal or state financial aid funds will have a time frame in which to complete their degree requirements. Students are expected to complete their degree or educational objectives within a reasonable number of semesters. This time frame is the equivalent of 150 percent of the published length of the individual program. (For example, if a certificate program requires 30 hours, a student will be paid up to 45 hours to complete the program or if an associate degree program requires 64 hours then a percent will be paid up to 96 hours to complete their degree.) This time frame will include any semester that the student was enrolled even if the student did not receive financial aid and/or transfer work that is applied to the student’s program of study and posted to their transcript. Periods of enrollment may be converted to semesters for non-consecutive enrollment. (Students that have earned 30 credits or more may be asked to keep an updated degree plan at the Financial Aid Office.) Additionally, this degree plan should be reviewed with the academic advisor and the student each semester to ensure that the student is remaining on track to completing the approved degree plan. Students taking courses outside of their degree plan may exhaust financial aid eligibility prior to completion of degree.
2. Students who have previously attended Howard College are making Satisfactory Academic Progress if the following conditions are met. If any or all are not met, the student will be on financial aid probation.

A. Full-time Students Semester/Credit Hours: A full-time student will be expected to complete one-sixth (10 hours) of the work required for his/her degree each semester. Grades of “I”, “W”, and “F” will not satisfy the course completion requirements.

Clock Hour Programs: To remain eligible for financial assistance, students pursuing certification in clock hour programs (i.e. Cosmetology) will be allowed a time frame to complete the program that is the equivalent of 150% of the published length of the program.

B. Part-time Students Semester/Credit Hours: Part-time students will be expected to complete nine hours for three-quarter time, six hours for half-time attendance, and all courses originally enrolled in for less than half-time each semester. Grades of “I”, “W”, “F” will not satisfy the course completion requirements.

Clock Hour Programs: Students will be expected to complete a minimum of 50% of the clock hours required to complete the program by the end of the mid-point of the 150% time frame.

C. All students will be expected to acquire a 2.0 grade point average on all work completed each semester to remain in good academic standing.

D. A course previously completed with a grade of “D” or above cannot be used when determining financial aid eligibility, enrollment status, or satisfactory progress. EXCEPTION: An exception can only be made if the repeat is required by the program of study as documented by the faculty advisor/counselor. Only one repeat is allowed under these circumstances.

E. Students enrolled in the same course three or more times will not receive financial aid funding for that specific course.

F. Students who have earned 30 credits or more may be asked to submit an updated degree plan to the financial aid office.

NOTE: Students who are required to take preparatory course work will be limited to 30 semester hours of financial aid eligibility for these classes. STUDENTS NOT MEETING CONDITIONS LISTED ABOVE MAY BE PLACED ON FINANCIAL AID PROBATION.

3. Students who do not meet the above requirements during the next semester of attendance following their financial aid probation...
will be placed on financial aid suspension. This suspension will last during the next semester of enrollment and no federal or state awards will be made. After the student has achieved satisfactory academic progress, the student will be placed on financial aid probation for the semester immediately following suspension.

4. There may be occasions in which an exception to the definition of Satisfactory Academic Progress should be made. The Director of Financial Aid will review all pertinent information regarding the situation and may grant an exception to the standards. If a student feels that an exception should be made, he/she should submit a written explanation of the circumstances surrounding the semester in question to the Director of Financial Aid for consideration. If the student is dissatisfied with the decision of the Financial Aid Director, the case may be referred to the Financial Aid Committee for a decision. Final decision will then be left to the Financial Aid Committee.

5. Return of Title IV Funds - Under federal law students attending Howard College / SWCID who receive Title IV aid (Pell, SEOG, Federal Student Loans) and completely withdraw before the sixty percent (in time) in the period of enrollment will be required to return any unearned funds. Unearned Title IV funds are the percentage of term not attended times the Title IV aid. Students who cease attendance, do not withdraw, and receive all failing grades (Fs) for a semester will be considered “unofficially withdrawn”; these students will be subject to a review of their attendance records. If it is determined that a student ceased attendance before the 60% point in the semester, the student will be required to return those unearned funds. In some instances, the student may owe both the federal government and the college. Students owing either the government or the college will be required to return any unearned funds. Unearned Title IV funds be required to return any unearned funds. Unearned Title IV funds are the percentage of term not attended times the Title IV aid. Students who cease attendance, do not withdraw, and receive all failing grades (Fs) for a semester will be considered “unofficially withdrawn”; these students will be subject to a review of their attendance records. If it is determined that a student ceased attendance before the 60% point in the semester, the student will be required to return those unearned funds. In some instances, the student may owe both the federal government and the college. Students owing either the government or the college will be required to return any unearned funds. Unearned Title IV funds.

**Ability To Benefit**

Students who do not have a high school diploma or its recognized equivalent must pass a Department of Education approved exam administered by the college.

**GRANTS**

**FEDERAL PELL GRANT:** The purpose of the Federal Pell Grant Program is to provide eligible students with a “floor” of financial aid to help defray some of the costs of post-secondary education. Student eligibility is based on financial need determined on the basis of a formula, developed by the Department of Education and reviewed by Congress annually, which is applied uniformly to all applicants. Howard College participates in the Federal Pell Electronic Data Exchange (EDE) system. This allows the college to correct information on the Pell Grant Student Aid Report electronically for those students who list Howard College as their college choice.

**FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG):** A limited number of Supplementary Grants are available to students with exceptional need each year. Student eligibility and amount of grant is determined by the income level of the student and his parents.

**STATE STUDENT INCENTIVE GRANT PROGRAM (SSIG) and TEXAS PUBLIC EDUCATIONAL GRANT (TPEG):** These grant funds are available from a combination of Federal, State, and College sources to assist deserving students who have additional financial need. These grant funds are limited and generally range from $200 to $600 per academic year.

**TEXAS (Toward Excellence, Access, & Success) GRANT PROGRAMS:** The purpose of these programs is to provide a grant of money to enable well-prepared eligible students to attend public and private nonprofit institutions of higher education in Texas. The programs are administered through the Texas Higher Education Coordinating Board. Awards are made through the financial aid office; all students who have completed a financial aid file will be reviewed for eligibility. Returning or transfer Texas Grant recipients must complete a financial aid file to continue to receive the award. The Texas Grant program offers three opportunities for a student to qualify for the program. All three programs require that a student be a Texas resident, has financial need, has applied for all available financial aid or assistance, maintains satisfactory academic progress, and has not been convicted of a felony or crime involving a controlled substance.

For students graduating with a recommended or advanced high school diploma: To be eligible for the Texas Grant program, a student must have graduated from a public or accredited private high school in Texas, no earlier than Fall 1998 (note: must enter program within 16 months of graduation from high school), completed the recommended or advanced high school curriculum or its equivalent, and enrolls at least 3/4 time in an undergraduate degree or certificate program. Satisfactory academic progress for a student's first year on this program is determined by the school's satisfactory academic progress standards; in subsequent years, a student must have a minimum of a 2.5 cumulative grade point average and have completed 75 percent of the hours attempted in the prior academic year. A student who maintains eligibility will continue to receive the award up to 150 credit hours, six years, or upon completion of a bachelor's degree, whichever comes first.

1. For students receiving an Associate's Degree in May 2001 or later: A student who receives an Associate’s Degree in May 2001 or later and continues in college for a higher degree can qualify for the Texas Grant program. A student in this program must enroll at least 3/4 time in a higher level undergraduate degree program and must enroll within 12 months of completion of the associate degree. The academic standards are completion of at least 75 percent of the hours taken in the prior year, and a cumulative grade point average of at least 2.5. A student who maintains eligibility will continue to receive the award up to 90 credit hours, four years, or upon completion of a bachelor’s degree, whichever comes first.

2. Texas Grant II Program: This program is for students that do not qualify under the Texas Grant program and are attending a public community college, technical college, or public Texas institution. A student must be enrolled at least half-time in the first 30 hours (or their equivalent) in an associate’s degree or certificate program at a public two-year institution of higher education. The family’s contribution (EFC) must be no more than $2,000. The academic standards are completion of at least 75 percent of the hours taken in the prior year and a cumulative grade point average of at least 2.5. A student who maintains eligibility will continue to receive the award up to 75 credit hours, four years, or upon completion of an associate’s degree, whichever comes first.
SCHOLARSHIPS
The following is a partial list of scholarships available for Howard College students. Deadlines to apply for these scholarships may differ. It is the student's responsibility to obtain, complete, and submit applications by the appropriate deadline. Basic eligibility for most scholarships requires that a student must have potential to achieve as evidenced by scholastic standing of acceptable grades on high school records and on a national standardized college entrance exam such as the ACT or SAT examinations. Most scholarship programs also require a student to be attending college on a full-time basis. Some of the aid is based on financial need criteria. Use the Howard County Junior College District Application for Scholarship to apply for all scholarships listed with the exception of those indicated with an asterisk (*).

ADAM ANDREWS MEMORIAL SCHOLARSHIP
Awarded to a deserving Forsan High School graduate who demonstrates outstanding leadership and good moral character.

ATHLETIC SCHOLARSHIPS
Scholarships are available in men's and women's basketball, baseball, softball, rodeo and athletic trainer. The student must complete the HC Scholarship Application and contact the coach in the individual athletic area for tryout information.

*ATMOS SCHOLARSHIP
This scholarship is available to ATMOS customers who wish to pursue a career in culinary or fine arts, agriculture, geology, engineering, business, or drafting. Applicants must reside in Howard, Glasscock, Martin, Scurry, Dawson, Gaines, Terry, Yoakum, Midland, or Ector counties. Recipient must maintain a minimum 2.5 GPA. A separate application is required and available in the Howard College Student Assistance Center.

SHERRIE BAIRD MEMORIAL SCHOLARSHIP - SWCID
Awarded to a deserving full-time SWCID student with good moral character and a desire to succeed in college. Student must be a Texas resident with preference given to a Howard County resident.

JACK BARBER MEMORIAL SCHOLARSHIP
Established to aid worthy and needy baseball athletes with outstanding leadership and academic ability.

JOHN BAYNE MEMORIAL SCHOLARSHIP
Established to assist worthy students majoring in the field of psychology.

BIG SPRING ATHLETIC ASSOCIATION
Scholarships are available to Big Spring area graduates interested in the field of athletic training.

*BIG SPRING CHICANO GOLF ASSOCIATION
Awarded to assist needy and deserving Howard County residents with the desire to achieve academically and professionally. Applications may be obtained from the high school counselors offices, the Student Assistance Center at HC, or from any association member.

BIG SPRING HIGH SCHOOL CLASS OF ‘65 MEMORIAL SCHOLARSHIP
Awarded annually to a graduating senior at Big Spring High School. Preference is given to students whose relative is a member of the BSHS Class of 1965.

EVERETT BLACKBURN ATHLETIC TRAINER SCHOLARSHIP
Scholarships are awarded annually to aid a student interested in athletic training or sports medicine.

CARRIE CARNAHAN MEMORIAL SCHOLARSHIP
Established to assist a deserving graduating senior of Coahoma High School majoring in nursing at Howard College.

J.T. AND DOROTHY CLEMENTS SCHOLARSHIP
Student must be enrolled full-time on the HC campus majoring in an academic degree plan and maintain a 2.5 GPA.

*COAHOMA LIONS CLUB SCHOLARSHIP
Awarded to a graduating senior at Coahoma High School. Applications are available from the counselor's office at Coahoma High School.

TATIA COLVIN MEMORIAL SCHOLARSHIP
Established to assist a worthy student graduating from Big Spring High School to study theater at Howard College.

DAVID COUNTS HONORARY SCHOLARSHIP - Criteria pending.

*MARILYN CRADDOCK SCHOLARSHIP - SAN ANGELO
National competition to be awarded to Medical Transcription students sponsored by the American Association for Medical Transcriptionists (AAMT). Contact the Health Information Technology Program Director on the Howard College-San Angelo campus for an application and additional information.

ROBERT DUNCAN HONORARY SCHOLARSHIP - Criteria pending.

ETLD SCHOLARSHIP
Established to assist a deserving student who demonstrates the potential to achieve college and career goals. Preference is given to applicants who are graduates of Big Spring High School or Forsan High School, majoring in English, History, or Political Science.

FORE SCHOLARSHIP - SAN ANGELO
National competition to be awarded to Health Information Technology and Administration students sponsored by the American Health Information Management Association (AHIMA). Contact the Health Information Technology Program Director on the Howard College-San Angelo campus for an application and additional information.

SCOTT AND GINGER GRIFFIN MEMORIAL SCHOLARSHIP
Student must be enrolled full-time on the HC campus and maintain a 2.0 GPA. Student must be disabled or the parent of a disabled child as defined in the Americans with Disabilities Act (ADA).

*MARIE HALL SCHOLARSHIP
Awarded to students who demonstrate financial need and who have graduated from or maintained residence in Howard or surrounding counties. Detailed eligibility criteria are included on the application that may be obtained from the Howard College Student Assistance Center.
W.B. HARDY MEMORIAL SCHOLARSHIP
Awarded annually to a deserving vocational/technical degree student with good moral character and ability to achieve college and career goals.

*DR. PRESTON AND ELIZABETH BADGETT HARRISON ROTARY SCHOLARSHIP
Awarded to Howard County resident who plans to enroll or is enrolled full-time at Howard College Big Spring. Application may be obtained from the Howard College Student Assistance Center.

ALICE HAYNES BIG SPRING ROTARY CLUB DENTAL HYGIENE SCHOLARSHIP
Established to aid worthy students who demonstrate financial need. Must be a second year Dental Hygiene student.

TROY M. HOGUE LAW ENFORCEMENT SCHOLARSHIP
Established to aid students majoring in law enforcement. Must demonstrate good academic achievement and good moral character.

HONORS SCHOLARSHIP PROGRAM
Given annually to the top 10% scholastic graduates in the area high schools as certified by the high school principals. These awards are to be used for the first two semesters immediately after high school graduation. Presentation of scholarships are made at end-of-year high school assemblies and graduation exercises.

*HOWARD COLLEGE CHEERLEADERS
Given to selected students based on grade point average and audition. Students must complete the HC/CD Scholarship Application and contact the Director of Student Activities for a separate application and tryout information.

HOWARD COLLEGE/SWCID DIPLOMATS - BIG SPRING, SAN ANGELO, SWCID
Given to selected students based on interview and participation in academic and extra-curricular activities.

*HOWARD COLLEGE INTRAMURALS
Given to selected students based on interview and application. Students must complete the HC Application and contact the Director of Student Activities for a separate application.

HOWARD COUNTY GRADUATES SCHOLARSHIP
Awarded annually to a Howard County graduating senior in the top 10% of their class.

JOHNNY JOHANSEN MEMORIAL SCHOLARSHIP
Sponsored by the Big Spring Council of Garden Clubs to be awarded to an Agriculture/Plant Science major.

MARY JOHNSON SCHOLARSHIP
Students must demonstrate good moral character, must be enrolled full-time on the Howard College Big Spring campus, and maintain a 2.5 GPA. Preference will be given to graduates from a Mitchell County High School (Colorado City, Loraine, Westbrook).

FRANK JUNELL HEALTH SCIENCE SCHOLARSHIP - SAN ANGELO
A merit scholarship awarded to a full-time Health Professions student on the San Angelo campus. Must have a minimum 3.0 GPA.

KEATING MEMORIAL SCHOLARSHIP
Awarded to Howard County high school seniors selected by faculty and administration at each school.

KIWANIS CLUB OF BIG SPRING SCHOLARSHIP
Awarded annually to a Big Spring High School Key Club member who plans to enroll at Howard College. Applications are available from the BSHS Key Club Sponsor.

WENDELL LAWRENCE MEMORIAL SCHOLARSHIP
Established to aid worthy and needy Howard County students with outstanding leadership and academic ability. Must be a full-time student.

RED AND ROBBIE LEWIS MEMORIAL SCHOLARSHIP FUND
Established to aid students with high potential in the field of math/science. Must be a full-time student to be eligible for consideration.

ANN MADDOX MEMORIAL SCHOLARSHIP - SAN ANGELO
Awarded to Howard College San Angelo Campus Health Information Technology students by Concho Valley Health Information Management Association (CVHIMA). Please contact the Program Director of Health Information Technology on the Howard College San Angelo campus for application and additional information.

P.W. MALONE MEMORIAL SCHOLARSHIP - BIG SPRING, SWCID
Student must be enrolled full-time on the HC or SWCID campuses and must maintain a 2.5 GPA. Student will be supported for two years if all criteria are met.

*POLLY MAYS MEMORIAL SCHOLARSHIP
Established to recognize and award annually to a deserving Howard County resident majoring in history. Scholarships are available for full-time or part-time students. A separate application and essay are required.

ALBERT AND KATHERINE McNALLEN SCHOLARSHIP - Awarded annually to a student graduating from a high school in Howard County and interested in the performing arts.

J.D. AND MATTIE MILLER MEMORIAL SCHOLARSHIP
Established to assist deserving Howard County high school graduates who demonstrate academic achievement and good moral character. Students must have graduated within the past two years. Preference is given to Coahoma High School graduates.

DIANA CURRIE NICHOLS MEMORIAL SCHOLARSHIP
Awarded annually to assist a deserving student accepted into the nursing program at Howard College Big Spring campus.
PERMIAN HONOR SCHOLARSHIP FUND
Awarded annually to area high school graduates who are in the top percentile of their graduating class and who have scored highest on the ACT or SAT. These scholarships are made for up to four years if satisfactory progress is maintained and if the student remains in a college in the Permian Basin. Applications are available only through the Permian Honor Scholarship Foundation.

ADRIAN AND MARY RANDLE SCHOLARSHIP FUND
Established to aid students with outstanding leadership and academic ability. Must be a full-time student.

FLORENCE READ MEMORIAL SCHOLARSHIP
Established to assist worthy Howard County students with an interest in agriculture.

MOVELDA RHINE MEMORIAL SCHOLARSHIP
Awarded annually to a Big Spring campus student pursuing an Associate Degree in Business.

ZULA RHODES 4-H AND AG SCHOLARSHIP
Awarded annually to deserving students majoring in agriculture.

DORA ROBERTS DEPARTMENTAL SCHOLARSHIPS
Scholarships are available to aid students interested in completing a certificate or an associate degree at Howard College-Big Spring. Students must have and maintain a 2.5 GPA.

DORA ROBERTS PERFORMANCE SCHOLARSHIP
Scholarships are available to students who wish to participate in various performing groups. These scholarships include band/ choir, art, theater, and Livestock Judging Team. Students must indicate which scholarship they are applying for on the application.

*CHARLES, LELA AND MARY SLOUGH SCHOLARSHIP
Applications for this scholarship are available in the Student Assistance Center and must be submitted to the donor. Specific criteria and eligibility are detailed on the application.

*Sonic Scholarship
Awarded annually to Howard County graduating seniors. A separate application and essay are required. Applications for this scholarship are available in the Student Assistance Center or high school counselor offices.

SWCID FEST SCHOLARSHIP - SWCID
Awarded annually to a new full-time SWCID freshman exhibiting good moral character and motivation to complete college and career goals. Student must have and maintain a 2.5 GPA.

WOODMEN OF THE WORLD SCHOLARSHIP
Established to assist deserving students attending the Big Spring campus. Preference is given to students whose relative(s) is a member of the fraternal organization.

JEB WORTHY SCHOLARSHIP
Awarded annually to a deserving student majoring in nursing.

LOUISE WORTHY, MD CHILD CARE SCHOLARSHIP
Established to assist Howard College students with child care at Howard Cottage.

MARTHA SLAGLEY YOUNGMAN SCHOLARSHIP IN NURSING-BIG SPRING
Awarded annually to a student accepted or enrolled in the accelerated RN program.

TEXAS NURSING SCHOLARSHIPS
A limited number of scholarships are available each year through the State of Texas. The Dean of Nursing makes nominations for nursing students in July each year.

ANN GARRETT TURNER SCHOLARSHIP
Established to assist students with the cost of residential hall living.

C.D. AND RUBY TURNER MEMORIAL FUND
Student must be enrolled at least part-time on the HC campus and maintain 2.0 GPA. Preference will be given to HC service area students.

UNITED TRANSPORTATION UNION SCHOLARSHIP
Awarded to a deserving Howard County high school graduating senior. Must be enrolled at Howard College, Big Spring campus and maintain a 3.0 GPA. Preference is given to Transportation Union and Auxiliary dependents.

VALEDICTORIAN/SALUTATORIAN SCHOLARSHIP
The HCJCD Board of Trustees offers tuition scholarships to each student certified to be valedictorian of a graduating class of an accredited high school in Texas. This scholarship must be claimed for the Fall semester following Spring graduation from high school. In order to be eligible for the valedictorian scholarship, the applicant’s name must be on file with the Texas Education Agency, Austin, Texas. Scholarships in the amount of $600 per year are offered to each student certified to be salutatorian of a graduating class at an accredited high school in Texas.

WOLSLAGER FOUNDATION SCHOLARSHIP - SAN ANGELO
The scholarship is awarded to more than one full-time student at Howard College attending the San Angelo campus. Students must have and maintain a 2.5 GPA; must be a graduate of a high school within Tom Green, Concho, Irion, Sterling, Runnels, Brown, McCulloch, Coke, Mills, Crockett, or Schleicher county; OR have been a resident of one of these counties for a minimum of five years.

TEXAS HEALTH INFORMATION MANAGEMENT ASSOCIATION SCHOLARSHIP - SAN ANGELO
Statewide competition to be awarded to one Health Information Technology and one Health Information Administration student within the State of Texas sponsored by the Texas Health Information Management Association (TxHIMA). Contact the Health Information Technology Program Director on the Howard College-San Angelo campus for an application and additional information.
work

federal and state college work study program

Students who have additional financial need may be allowed to work up to 15 hours per week at on-campus and off-campus jobs. Every effort is made to place students in jobs related to their field of study. Students not eligible for the work study program may apply for other work opportunities in the Student Assistance Center.

loans

federal family education loan programs (ffelp)
The following loan programs provide assistance to students who have additional financial need to cover the cost of attending college. The FAFSA must be completed to determine eligibility for the Federal Stafford Loan.

federal stafford loans - subsidized and unsubsidized

These are low-interest loans available through private or state lenders. Students who demonstrate need may borrow through the subsidized loan program, i.e., the Federal Government will pay the interest on the student’s loan while he or she is enrolled at least half-time. Those who do not qualify for the subsidized loan (in whole or part) may be considered for the unsubsidized loan; however, the student must pay interest that accrues on the loan during the entire period of the loan.

federal plus

The Parent Loan for Undergraduate Students (PLUS) is available for parents of dependent undergraduate students.

borrowing limits

There are limits on how much a student can borrow. The annual borrowing limits for a Subsidized Stafford Loan are $3,500 for freshman students, $4,500 for sophomore students. Independent students may be eligible to borrow up to $4,000 through the Unsubsidized Stafford Loan Program. The Howard College aggregate limit is $23,000. This includes loans received at other institutions. Howard College will not certify a loan for a student or parent if a history of delinquent or defaulted loans exists.

other financial aid sources

The aid sources listed below are other types of assistance which may be available for certain students. The Financial Aid Office maintains close coordination with these other agencies/organizations.

job training

Training opportunities are available through the W.I.A. (Workforce Investment Act) Program for eligible students. Contact the local Texas Workforce Commission for application information.

veteran’s benefits

Educational benefits for veterans and/or veteran dependents are available to eligible students through the Office of the Registrar.

vocational rehabilitation

The Texas Rehabilitation Commission offers a variety of services and assistance to Texas college students for whom physical disabilities constitute a handicap to employment. Applications for these services should be made directly to the Texas Rehabilitation Commission. Authorization for vocational rehabilitation support must be on file in the Howard College Financial Aid Office before registration.

bureau of indian affairs

The purpose of this program is to enable Indian students with financial need to attend college. The student should contact the Bureau of Indian Affairs (BIA) for specific requirements.

tuition rebates

The purpose of this program is to provide tuition rebates that will provide a financial incentive for students to prepare for university studies while completing their high school work, avail themselves of academic counseling, make early career decisions, and complete their baccalaureate studies with as few courses outside the degree plan as possible. Minimizing the number of courses taken by students results in financial savings to students, parents, and the state.

To be eligible for rebates under this program, students must meet all of the following conditions:

1. Enrolled for the first time in an institution of higher education in the fall 1997 semester or later;
2. Request a rebate for work related to a first baccalaureate degree received from a Texas public university;
3. Be a resident of Texas, attempt all course work at a Texas public institution of higher education, and have been entitled to pay resident tuition at all times while pursuing the degree, and;
4. Must have attempted no more than three hours in excess of the minimum number of semester credit hours required to complete the degree under the catalog under which the student graduated. Hours attempted include transfer credits, course credit earned exclusively by examination, courses that are dropped after the official census date, for-credit preparatory courses, optional internship and cooperative education courses, and repeated courses. Courses dropped for reasons that are determined by the institution to be totally beyond the control of the student shall not be counted.

The amount of the tuition to be rebated to a student under this program is $1,000, unless the total amount of undergraduate tuition paid by the student to the institution awarding the degree was less than $1,000, in which the amount of tuition to be rebated is an amount equal to the amount of undergraduate tuition paid by the student to the institution. Students must apply for rebates prior to receiving their baccalaureate degrees on forms provided by the institution and must keep the institution apprised of their addresses for at least 60 days after their graduation date.

For more information about tuition rebates, contact the Registrar at Howard College or the four-year institution awarding the baccalaureate degree.

TRANSFER OF CREDIT

TO HOWARD COLLEGE:
Transfer students must comply with all THEA policies. Students on academic or disciplinary suspension from the last school attended will be considered for admission to Howard College on an individual basis only. Credits for courses in which a passing grade (“D” or better if the student’s overall grade average is “C” or better) has been earned may be transferred to Howard College from any college accredited through one of the regional accrediting associations of the Council for Higher Education Accreditation. College policy is NOT to transfer credits received from any U.S. institution not so accredited.

Howard College awards transfer credit for “credit by examination” if it is included on an official transcript from an accredited college or university, if it is within the established 18-hour limit, and if it is appropriately related to the student’s educational program. Preparatory, remedial or any other non-degree credit course cannot be used for transfer or in determining the 2.0 (“C”) transfer average.

Course work completed at a college outside the United States will be considered for transfer on an individual basis. An advisor, program director, or other appropriate personnel will complete a course-by-course evaluation of a transferred transcript as needed for a degree plan or program planning in the enrollment process. At least 25% of the hours required for a degree must be earned at Howard College.

Students are required to submit an official transcript from each school previously attended. (A student’s transcript will have a “hold” put on it until all transcripts from each school previously attended are received.) It is the student’s responsibility to make sure all transcripts have been received in the Registrar’s Office.

A Howard College transcript will not be issued if a student’s file is not complete and has had a “hold” placed on it. Students will not be allowed to register for the following term if all college transcripts are not received in the Registrar’s Office by the end of the initial term of enrollment.

FROM HOWARD COLLEGE:
Most of the courses taught by Howard College are transferable. Courses with numbers following the course description are academic courses approved by the Texas Higher Education Coordinating Board. These courses are transferable to public colleges in Texas; remedial, developmental, or preparatory courses are exceptions. However, courses that will transfer may not be required for all majors.

Courses that do not have numbers following the course description are approved by the Texas Higher Education Coordinating Board as technical courses. Although several of these courses will transfer to various colleges, they are designed for two-year technical programs and frequently will not transfer. Students planning to transfer Howard College credits to another college are advised to contact the receiving institutions to determine their transfer policies. Howard College counselors will assist students with information on transferability of courses, but the decision to accept courses in transfer and/or to apply those courses to individual degree plans is made by the receiving institution. Senior colleges generally will not accept more than 66 semester credit hours in transfer from a junior college. Most colleges will accept a grade of “D” if the student has an overall “C” average. If the “D” is in one’s major field of study, the course may have to be repeated. Students who have not graduated from Howard College may transfer hours back from the university to Howard College to earn an associate degree. At least 25% of the hours toward the degree must have been earned at Howard College.

TRANSFER DISPUTES
If course credit earned by a student at another institution of higher education in Texas is not accepted by Howard College or if course credit earned by a student at Howard College is not accepted by another institution of higher education in Texas, the student and the transferring institution will receive written notice that the transfer of the course is denied.

Both Howard College and the other institution along with the student shall attempt to resolve the transfer of the course credit in accordance with Board rules. If the transfer dispute is not resolved to the satisfaction of the student or the institution at which the credit was earned within 45 days after the date the student received written notice of the denial, the institution denying transfer will notify the Commissioner of Higher Education of its denial and the reasons for denial. The Commissioner of Higher Education or the commissioner’s designee will make the final determination about a dispute concerning the transfer of course credit and give written notice of the determination to the involved student and institutions.

TECH-PREP
Tech-Prep is a nationwide initiative for courses of study designed to assure that high school students acquire more technically-oriented knowledge and skills. These programs prepare students for employment in areas of high demand and emerging technologies. Each is a coordinated sequence of academic, career, and technology education courses, beginning in the ninth grade, which prepare students for lifelong learning, including advanced study at community and technical colleges and universities. Courses of study listed in this catalog that recognize Tech-Prep credit are noted under the program title. Tech Prep articulation is further explained under Courses of Study in this catalog.

CHANGE OF SCHEDULE
After a student has completed the enrollment process and receives an approved schedule, the registrar; and those officials the registrar designates, must approve any schedule changes. If the request originates with the student, the change must be completed within the time specified in the college calendar. A fee of $10.00 will be charged for each approved request made for the convenience of the student. The college reserves the right to make changes in a student’s schedule; when this occurs, no fee is charged.

With the consent of the registrar, a student may drop a course. A grade of “W” (Withdrawn) may be received. No course may be dropped during the last two weeks of a semester or during the last week of a summer term unless the student withdraws completely from school. The last day to drop a flexible-entry course will be determined by the registrar. No courses may be dropped after the final exams have been administered.

New full-time students may drop a college preparatory class only if they drop college-level courses to part-time status and have continuous enrollment in at least one preparatory class. If a new full-time student does not drop to part-time status, they may not drop any college preparatory class.
A returning student may drop a college preparatory class only if they have continuous enrollment in at least one other college preparatory class. If the student drops all required preparatory classes, thus placing them out of compliance with continuous enrollment in required college preparatory education, they will be dropped from all other classes at Howard College.

All changes in schedule, including adding and dropping courses, must be arranged by the student in writing or in person. Changes are not official until all steps in the process have been completed. Records of withdrawal and re-enrollment will be maintained.

WITHDRAWAL

Students who find it necessary to withdraw from a class or classes should obtain a Change of Registration Form from the faculty (enrollment advisor in San Angelo) of the course(s) being dropped. This form should be completed and turned in to the Registrar's Office. A student wishing to completely withdraw from all courses will be directed to visit with the appropriate campus official. Merely discontinuing class attendance does not constitute a drop or withdrawal. All students must notify the Registrar's Office in writing before they will be officially withdrawn from class. Failure to withdraw properly may result in a grade of “F” in the course.

Also, failure to comply with this regulation will subject the student to losing all refunds which would normally be available. Such failure may also jeopardize the privilege of readmission to this or any other college. Students who are mandated to attend a preparatory course(s) must remain in at least one course unless they are withdrawing from college.

All college property in possession of a student must be returned and all arrears to the college must be paid before the student can withdraw in good standing and be eligible for a transcript of credit from the college.

Under federal law, students attending Howard College/SWCID who receive Title IV (Pell, SEOG, Federal Stafford Loans) and completely withdraw before the 60 percent point (in time) in the period of enrollment will be required to return any unearned funds. Unearned Title IV funds are the percentage of term not attended times the Title IV aid. In some instances the student may owe both the federal government and the college. Students owing either the government or the college will be ineligible for any further federal aid until funds are repaid.

Six-Course Drop Policy

The following is an initial notification of new legislation that impacts all incoming new students. The essence of this new policy is: A student cannot drop more than six courses during the lifetime of their undergraduate enrollment while attending any public institution in Texas.

Under section 51.907 of the Texas Education Code, “an institution of higher education may not permit a student to drop more than six courses, including any course a transfer student has dropped at another institution of higher education.” This statute was enacted by the State of Texas in spring 2007 and applies to students who enroll in a public institution of higher education as first-time freshmen in fall 2007 or later. Any course that a student drops is counted toward the six-course limit if “(1) the student was able to drop the course without receiving a grade or incurring an academic penalty; (2) the student’s transcript indicates or will indicate that the student was enrolled in the course; and (3) the student is not dropping the course in order to withdraw from the institution.” Some exemptions for good cause could allow a student to drop a course without having it counted toward this limit, but it is the responsibility of the student to establish that good cause. Contact the Office of the Registrar for more information before you drop a course.

Policies and procedures for implementation of this statute are being developed and will be published as soon as they are available.

COURSE LOAD

A full-time student is defined to be a student enrolled in 12 or more semester hours during a regular long semester, inclusive of one-hour physical activity courses. Students scoring below college level in reading, writing and mathematics skills should limit their enrollment to 12 semester hours (including preparatory courses) plus activity courses. Additional courses may be taken with the permission of the counselor or advisor. The normal course load during the regular semester is five solid courses of 15 to 17 semester hours, exclusive of one-hour activity courses or labs. A solid course is any course with a semester hour value of three or more semester hours. In order to be permitted to exceed the normal course load, a student must have earned a 3.0 grade point average as a full-time student during the previous semester.

The absolute maximum course load that a student may obtain permission to take is seven solid courses. Permission to exceed the normal course load must be obtained from the instructional administrator at the respective campus.

Courses delivered in shortened semesters should have the same number of contact hours and the same requirement for out-of-class learning as courses taught during a regular semester. The maximum course load for a mini-term (less than 5 weeks) is 3 semester credit hours. The maximum course load for a regular summer term (5 1/2 weeks) is 6 semester credit hours, exclusive of one-hour activity courses or labs. Concurrent enrollment in Howard College and at any other institution must be approved by the registrar. Course load limits apply to concurrent enrollments.

CREDIT BY EXAMINATION

Credit by examination may be earned by: (1) standardized achievement tests (CLEP, CEEB Advanced Placement, SAT and ACT); (2) departmental examination; or (3) military programs. NO STUDENT WILL RECEIVE CREDIT BY EXAMINATION FOR MORE THAN EIGHTEEN SEMESTER HOURS. Credit will be awarded only in areas appropriately related to the student’s educational program. No student who has been given a grade other than W in the course is eligible for credit by examination unless the course is otherwise unavailable and is required for graduation. For each hour of credit earned by examination, the student must earn an equivalent hour enrolled as a student in regular classes. Grades for credit by examination are recorded as pass and are not considered in computing grade point averages. Credit awarded for testing (ACT, SAT, CLEP, Departmental, etc.) at Howard College may or may not meet minimum requirements for credit at other institutions. It is the student’s responsibility to check with the school they intend to attend to verify further credit.

Howard College awards transfer credit for “credit by examination” if it is included on an official transcript from an accredited college or university, if it is within the 18 hour limit, and if it is appropriately related to the student’s educational program.
I. STANDARDIZED ACHIEVEMENT TEST:

A. CLEP Examinations: (College Level Examination Program) examinations are administered through the STEPS Learning Center. CLEP credit may be earned for the following subjects in accordance with the credit minimum scores and course equivalents listed. Students should check transferability of scores and/or courses with receiving institutions.

2. DEPARTMENTAL EXAMINATIONS

Students may obtain permission to challenge certain courses through departmental examinations in subject areas where CLEP examinations are not available. Students will not be permitted to challenge courses with laboratory and clinical hours unless they have had and can show proof of documented training or work experience equivalent to the requirements of the courses.

Students must take the exam WITHIN 30 DAYS from the date the application is approved in order to receive credit. Cost of the exam will be the current tuition rate per semester hour.

Procedures to apply for the Credit by Department Exam can be downloaded from the Howard College web site at www.howardcollege.edu/publications.

3. MILITARY CREDIT

Credit for military programs may be awarded in accordance with the guidebooks for evaluating credit for training received in the military service. Students must score in the fiftieth percentile or above and submit an official copy of the scores to the admissions office.

4. AUDIT

Attending a class in order to observe and learn the information without taking part in the discussion or completing the other course requirements is an audit. No credit or grade is earned for auditing a class. The same fees are charged if the course is taken for credit or audit. A request for non-credit form must be completed and on file in the registrar’s office by the twelfth class day in the fall and spring and by the fourth class day in the summer.

Students must take the exam WITHIN 30 DAYS from the date the application is approved in order to receive credit. Cost of the exam will be the current tuition rate per semester hour.

Procedures to apply for the Credit by Department Exam can be downloaded from the Howard College web site at www.howardcollege.edu/publications.

SYSTEM OF GRADING

The following grades are used with the grade point value per semester credit hour.

<table>
<thead>

</tbody>
</table>

1. An “I” that is not removed before the end of the next long semester automatically becomes an “F.” An “I” is not figured in the grade point average until this time.

2. To determine the grade point average for scholastic standing, compute the total number of grade points, then divide the total number of hours attempted into the total grade points.

3. A course attempted is defined as one for which a student registers and receives any grade other than “W.”

4. If a student repeats a course for which credit has previously been received, the higher grade is the grade of record. Neither the hours nor the grade points associated with the lower grade will be used to determine the student’s eligibility to graduate; however, the lower grade will remain on the student’s transcript indefinitely.

5. Repeating a course will not remove the original grade from a student’s permanent record.

6. Each subject will have a final grade for the semester on file.

7. Grades for credit by examination are recorded as “pass” and are not considered in computing grade point averages.

Upon completion of the semester, grade reports will be available to those students who do not have a financial hold on their records. If the student has a financial obligation to the school, the student must clear the balance or make other arrangements before receiving his or her grades.
SCHOLASTIC PROGRESS STANDARDS

A student whose performance becomes deficient will be placed on probation (see “Grade Point Average Requirement Table” in this section). Failure to remove this deficiency could subject the student to being placed on suspension. A student who is placed on suspension will remain on suspension for one regular semester. After this period of enforced suspension, the student may be readmitted on scholastic probation for one semester. To be readmitted, follow the application process outlined in this catalog. The student who fails to improve his/her scholastic standing during this semester will be suspended for one or more full semesters. The table below indicates the computation used to figure whether a student is on scholastic probation or suspension.

A student who is receiving VA educational benefits must maintain a cumulative GPA of 2.00 to be considered making satisfactory progress. Students receiving VA educational benefits who fail to achieve a cumulative GPA of 2.00 during any semester or quarter will be placed on probation during the following semester/quarter. If the student achieves a semester GPA of 2.00 or better during the probationary semester/quarter but has not achieved the required cumulative GPA of 2.00, the student may be continued on probation for one more semester/quarter. If the student who is receiving VA educational benefits is on probation and fails to achieve a semester or quarter GPA of 2.00 at the end of the probationary semester/quarter, the student will be reported to the Veterans Affairs Regional Office as making unsatisfactory progress. If a student receiving VA educational benefits fails to achieve a cumulative GPA of 2.00 at the end of the second consecutive probationary semester/quarter, the student will be reported to the Veterans Administration Regional Office as making unsatisfactory progress.

ATTENDANCE POLICY

Regular and punctual class attendance is important to the attainment of the educational objectives of the college. Each instructor or program will have attendance guidelines with administrative approval which will be consistent with the mission of the college but will fulfill individual course requirements. Each instructor’s policy will be explained in detail to the class at the beginning of the semester and will be included in the course syllabus.

Attendance is effective on the first day of classes of the semester. Regular and punctual attendance in class and laboratories is expected of all students. Excused absences for college activities will be reported to faculty by memo from the Dean of Students. All other absences will be evaluated by the instructor. It is the student’s responsibility to communicate with the faculty member concerning any absence as soon as the student is aware that he/she will be absent or as soon as the student returns to class. The student must take the initiative and assume the responsibility for making up any missed work. In some cases, the student may be required to present evidence to support an absence.

According to the instructor’s attendance policy, an instructor may choose to officially drop the student from the class with the student receiving a grade of “W.” However, if the instructor does not choose to officially drop the student from class, it is the student’s responsibility to drop the class if he/she chooses. The student may contact the instructor to discuss his/her specific situation, but the instructor will not be required to provide make-up opportunities for unexcused absences. A student who is not dropped by the instructor and chooses not to drop will at the conclusion of the semester receive the appropriate grade achieved by his/her course work.

Students enrolled in college preparatory course work due to THEA policy are required to attend and participate in class activities. Students who miss six (6) hours of class may be penalized and may fail the class due to lack of attendance. Instructors have the option to drop students for lack of attendance, or the instructor may choose to give a grade. The instructor will state their personal attendance policy in the class syllabus. Students will be contacted by either their instructor/advisor or the counseling office when absences threaten the successful completion of a course.

STUDENT ABSENCES ON RELIGIOUS HOLY DAYS

A student who is absent from class(es) for the observance of a religious holy day may take an examination or complete an assignment scheduled for that day within one week after the absence if not later than the 15th day of the fall or spring and the 5th day of the summer semester, and if the student notified the instructor(s) in writing of the proposed absence on a form provided by the institution. In some cases, a letter of verification of the observed holy day from the religious institution may be required. In addition, the student must adhere to the provisions of Section 51.911 of the Texas Education Code and to the institution’s procedures. Forms are available in office of the Dean of Student Services. In case of conflict, students may appeal through the academic appeals process.

DEAN’S LIST AND PRESIDENT’S LIST

Students completing at least 12 hours of college-level courses during a long semester with a grade point average of 4.0 are eligible for recognition on the President’s List. Students completing at least 12 hours of college-level courses during a long semester with a grade point average of 3.25 to 3.99 are eligible for recognition on the Dean’s List. This status is indicated on a student’s transcript for each semester the recognition is earned.
GRADUATION WITH HONORS
Candidates for graduation whose overall grade point average in college-level courses is 3.25 or above are eligible to graduate with honors. This status is indicated on a student's transcript as well as publicly announced during the spring graduation ceremony. The list is subdivided into three divisions based on grade point average as follows:
- Summa Cum Laude: 4.0
- Magna Cum Laude: 3.5 - 3.99
- Ampla Cum Laude: 3.25 - 3.49

GRADUATE GUARANTEE
TRANSFER CREDIT
Howard College guarantees to its Associate of Arts and Associate of Science students who have met the requirements for the degree that course credits will transfer to other Texas colleges or universities provided the following conditions are met:
1. Transferability means acceptance of credits toward a specific major and degree at a specific institution. These three components must be identified by the student during the application for admission process prior to the first semester of enrollment at Howard College.
2. Limitations on total number of credits accepted in transfer, grades required, relevant grade point average, and duration of transferability apply as stated in the catalog of the receiving institution.
3. Transferability refers to courses in a written transfer/degree plan filed in student's file in the registrar's office.
4. Only college level courses with Lower-Division Academic Course Guide Manual approval numbers will be included in this guarantee. If all conditions are met and a course or courses are not accepted by a receiving institution in transfer, the student must notify the appropriate instructional administrator within 10 days so the "Transfer Dispute Resolution" process can be initiated. If course denial is not resolved, the college will allow the student to take tuition-free alternate courses, semester hour for semester hour, which are acceptable to the receiving institution within a one-year period from granting of degree at Howard College.

GUARANTEE FOR JOB COMPETENCY
If an Associate of Applied Science (A.A.S.) graduate is judged by his/her employer to be lacking in technical job skills identified as exit competencies of his/her specific degree program, the graduate will be provided up to twelve tuition-free credit hours of additional skill training by Howard College under the conditions of the guarantee policy. Special conditions that apply to the guarantee include the following:
1. The graduate must have earned the Associate of Applied Science degree or Certificate of Proficiency beginning May 1992, or thereafter in a Technical/Vocational/Occupational program identified in the college catalog.
2. The graduate must have completed the Associate of Applied Science Degree or Certificate of Proficiency at Howard College (with 75% of credits earned at Howard College) and must have completed the degree within a five year time span.
3. Graduates must be employed full-time in an area directly related to the area of program concentration as certified by the appropriate division chair.
4. Employment must commence within twelve (12) months of graduation.
5. The employer must certify in writing that the employee is lacking entry-level skills identified by Howard College as the employer's program competencies and must specify the areas of deficiency within ninety (90) days of the graduate's initial employment.
6. The employer, graduate, division director, counselor, and appropriate faculty member will develop a written educational plan for retraining.
7. Retraining will be limited to twelve credit hours related to the identified skill deficiency and to those classes regularly scheduled during the period covered by the retraining plan.
8. All retraining must be completed within a calendar year from the time the educational plan is agreed upon.
9. The graduate and/or employer is responsible for the cost of books, insurance, uniforms, fees, and other course-related expenses.
10. The guarantee does not imply that the graduate will pass any licensing or qualifying examination for a particular career.

GRADUATION REQUIREMENTS
A formal graduation exercise is held annually at the end of the spring semester at Howard College. This exercise is for those students who are completing requirements during that spring semester or who have completed requirements during the preceding summer or fall semesters. Degrees and certificates are not awarded automatically. To be considered as a candidate for a degree or certificate, the student must submit the intent to graduate no later than the date published in the calendar in order to participate in the graduation exercise. The Intent to Graduate form should be picked up in the Advising office. An official degree check is required.

CATALOG RESTRICTIONS: A student is expected to complete the certificate/degree requirements set forth in a particular Howard College (SWCID) catalog. Normally this will be the catalog in effect at the time the student enters the college. A student must then be continuously enrolled under the catalog in effect. If the student does not attend one or more semesters and re-enrolls, the student will then use the catalog in effect at the time of re-enrollment. Only with the specific approval of the Executive Dean for Instruction may a different catalog be selected. In no case may a student complete the requirements set forth in a catalog more than seven years old. When necessary, a catalog issued later than the student's first registration may be selected by the Executive Dean for Instruction in conference with the student.

The catalog is updated each summer, and its provisions apply during the following school year; September through August. However, a student who registers for the first time in the college during a summer session is subject to the degree requirements set forth in the catalog effective for the fall semester immediately following the initial enrollment. Because the college must retain flexibility to improve its curriculum, course offerings may be changed during the student's education. If a course required under a previous catalog is no longer offered, a student eligible to graduate according to that catalog should consult an adviser to identify another course that may be used to fulfill the requirement.
Because of the rapid changes occurring in vocational/technical fields today, course work taken in a major field of study or vocational/technical courses directly related to that major field may not be accepted in transfer to satisfy specific Associate of Applied Science or Certificate program requirements. The appropriate Division Director must approve the acceptance of course credit in transfer when the course work was completed five years or longer before entering the Howard College program of study. This also applies to returning students when vocational/technical courses that are applicable to degree or certificate programs and the course content has changed to the point that retraining is necessary to ensure that the student has marketable skills for the degree/certificate pursued.

**REQUIREMENTS FOR ASSOCIATE DEGREES**

Howard College awards the following degrees: Associate of Arts (AA), Associate of Science (AS), Associate of Arts in Teaching (AAT), and Associate of Applied Science (AAS). In addition to the course work of the individual’s degree plan, the requirements below must be met. Exception to the individual’s degree plan or any of the requirements below can only be made upon the approval of the Vice President for Educational Programs.

1. Completion of all admission requirements.
2. Completion of at least 25% of the hours required for the degree are to be earned from Howard College.
3. Achievement of a minimum cumulative grade-point average of 2.0 on a 4.0 scale for all HC course work used to satisfy degree plan requirements.
4. Satisfactory completion of all financial obligations.
5. Satisfactory completion of the core curriculum for each degree as listed in this catalog. All students are expected to display competency in reading, writing, oral communication, and math skills prior to receiving an Associate Degree.
6. Satisfactory completion of the Texas Higher Education Assessment (THEA) requirements.

**AWARDING OF DEGREE POSTHUMOUSLY**

Upon request the Board of Trustees may award a degree posthumously to a student in good standing when the death of a student occurs in the semester scheduled for graduation.

**REQUIREMENTS FOR CERTIFICATES**

1. Completion of all admission requirements.
2. Completion of at least eight semester hours credit from Howard College.
3. Achievement of a minimum cumulative grade-point average of 2.0 on a 4.0 scale for all HC course work used to satisfy degree plan requirements.
4. Satisfactory completion of all financial obligations.
5. Satisfactory completion of Texas Higher Education Assessment (THEA) requirements (if required).
6. An official degree (certificate) check by the Counseling Department is required.

**INDIVIDUAL COURSES OF STUDY**

The degree requirements outlined in this publication are intended to provide general information for students who are seeking a college degree. Howard College emphasizes the importance of individualized attention so that each student may realize his or her academic goals with a minimum of problems or delay. It is essential that students work closely with their academic advisors to establish a plan of educational objectives.

The AA, AS, and AAT degrees are for students who intend to transfer to a senior institution. Students should select courses based upon the requirements of the senior institution to which they plan to transfer. Students must complete the general education core and additional academic work to receive the AA, AS, or AAT degrees. Substitutions for any course in the general education core may be made only with the prior approval of the Vice President for Educational Programs.

Students seeking the Associate of Applied Science degree or Certificate must complete the courses outlined in the degree plans of this publication. Substitution for any course in the AAS degree or Certificate requires prior approval of the Vice President for Educational Programs.

Students desiring to transfer course work to Howard College to be applied toward a degree or certificate must have their transcripts evaluated during their first semester of enrollment. Transcript evaluation is conducted by the Advising Office and approved by the appropriate instructional officer.

**Associate of Arts Degree**

Students intending to work toward a Bachelor of Arts degree should take the curriculum leading to the Associate of Arts degree, as follows (Refer to the Core Curriculum for Transfer on the following pages to determine appropriate courses):

<table>
<thead>
<tr>
<th>Subject</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>

</tbody>
</table>

**The Computer Science requirement may be replaced by an elective course if the student meets one of the following:**

a. A student took and passed a high school computer course within three years of enrolling at Howard College.

b. A student has documentation of computer proficiency from another college or institution.

c. A student takes and passes a computer proficiency test prior to registration. Contact your advisor for testing times and places.

Computer proficiency must be documented on the student’s transcript.
Associate of Science Degree
Students intending to work toward a Bachelor of Science or a Bachelor of Business Administration degree should take the curriculum leading to the Associate of Science degree, as follows (Refer to the Core Curriculum for Transfer on the following pages to determine appropriate courses):

<table>

**The Computer Science requirement may be replaced by an elective course if the student meets one of the following:

a. A student took and passed a high school computer course within three years of enrolling at Howard College.

b. A student has documentation of computer proficiency from another college or institution.

c. A student takes and passes a computer proficiency test prior to registration. Contact your advisor for testing times and places.

Computer proficiency must be documented on the student's transcript.

Associate In Applied Science Degree
The Associate of Applied Science Degree is designed for the student pursuing a two-year specialized collegiate level occupational program of study that will prepare him or her for immediate employment in business or industry. The following general educational requirements are included as an integral part of each AAS program. Both the general educational requirements and the specified occupational courses for the program in which the student is enrolled must be met in order to qualify for the degree. Degree plans are required for students working toward an AAS degree. Counseling should be sought as early as possible. Specific degree requirements can be found in the Work Force Education and Health Professions section of this catalog.

</table>

Certificate Of Completion
Technical and vocational certificates will be conferred on those completing the designated courses and general requirements.

Second Degree/Advanced Certificates
Students wishing to graduate from Howard College may apply for only one degree and/or certificate during the same semester in which the student plans to meet graduation requirements for that particular degree and/or certificate. After receiving any degree from Howard College, a student must complete a minimum of twelve additional semester hours at Howard College before earning a separate degree or advanced certificate in a different major course of study. More than 12 semester hours may be required to complete the second degree depending on the course requirements in the major course of study. The additional hours required must be completed after the date on which the first degree/certificate was awarded. A student may earn only one AAS in each program area. Multiple Certificates may be earned in the same program area.
To facilitate transferability of lower division courses, Senate Bill 148 requires each institution of higher education to adopt a core curriculum of at least 42 semester credit hours. The core curriculum can be transferred in block to any state college to be substituted for the core of the receiving institution. Howard College requires a 42 semester credit hour core curriculum as follows:

Special Programs

Adult Education
Continuing Education
Workforce Training
Adult Education

Adult Education provides instruction in communication and computation skills for individuals beyond the age of compulsory school attendance who are functioning at a level of performance that does not permit them to meet their adult responsibilities in today's society. The major goals of the state program are as follows:

1. Provide adults with basic skills in reading, writing, and speaking English (ESL-English as a Second Language); mathematical skills; and general knowledge acquisition through the eighth grade level of competency, (ABE-Adult Basic Education); or an accepted minimum competency level.
2. Prepare adults for competitive and successful results on the General Educational Development (GED) test.
3. Assist adults to meet specific educational objectives below the college credit level.
4. Provide educational prerequisites to vocational education or post-secondary education.

The Howard College-Big Spring cooperative serves seven counties: Glasscock, Scurry, Mitchell, Nolan, Reagan, Martin and Howard. When a sufficient number of students are interested, classes can be held in Coahoma, Stanton, Colorado City, Snyder, Sweetwater, Big Lake, Forsan, Grady, Garden City, and Big Spring. Information about night classes in the surrounding communities can be obtained by calling the local school or the Adult Education Office at Howard College-Big Spring.

The Howard College-San Angelo cooperative (Co-Op 42) serves 15 counties and 36 school districts.

A learning center, located on the Howard College campus, is open during selected day and night hours for students' use. Students are encouraged to attend according to their own time schedule. All instruction is individualized.

Registration is open during the entire year. Students may register at the class. There is no fee for program participation or materials.

Continuing Education/Workforce Training

The concept of continuing education reflects the attitude of a fast-paced and changing society striving for more involvement in and awareness of the world around it. Continuing Education/Workforce Training provides the opportunity for the surrounding community to take classes for personal, social, physical, and professional needs. Classes are designed and created as a result of voiced needs and opinions of the community. Classes can be organized to meet projected needs of business, community, cultural, and special interest groups. Community members who are interested in pursuing a new interest or teaching a class are encouraged to call the Continuing Education/Workforce Training Office.

Tuition and fees for a Workforce Training Course or an approved Career and Technical course offered by Howard College for non-credit may be established by the college president or the designee and must be uniformly and consistently assessed for each course and may be set at zero. Exemptions, waivers, and/or a reduction of fees only apply to courses receiving state funding as governed by state law. If space is available at the close of regular registration, students age 65 and older may enroll for up to 6 semester credit hours or 9.6 CEUs each semester or quarter term without payment of tuition. This exemption will only be honored upon request in person. Registration must be completed on site each registration period. All fees will be charged. This exemption does not apply to programs with limited enrollment and/or competitive selection.

All fees are payable at the time of registration either by check, money order, or credit card. Cost of the student supplies will be discussed at the first class meeting. The student will be responsible for the purchase of supplies and books. Textbooks may be purchased at the Howard College Bookstore. Students are encouraged to delay the purchase of all student supplies until after the first class meeting.

Courses are open to interested persons regardless of age and educational background with some exceptions. International students enrolled in a continuing education program that exceeds 191 contact hours in a semester are required to provide confirmation that they are in the U.S. on an F-1 (student) visa. Federal and state law may exempt some individuals. Refer to the International Student Policy in this catalog for further information.

Courses may vary in length from a few weeks to a full semester. Short one or two-day seminars and workshops are also offered. Continuing Education/Workforce Training courses observe scheduled college holidays. Classes are advertised prior to the starting date. Community members are encouraged to pick up a schedule at the college or request that a schedule be mailed to them. Every attempt is made to inform the public of scheduled courses. A student may register in the Admissions and Registrar's Office during posted hours of operation. Students are encouraged to enroll as soon as possible in order to insure a place in the course. Registration is continuous until a class starts.

The Continuing Education/Workforce Training Department reserves the right to cancel any course in which there is not sufficient enrollment. Interested persons are urged to register early in order to be counted as being enrolled to avoid any unnecessary cancellation. Should a class be canceled after the student enrolls, the student will be given an opportunity to change to another course or receive a full refund.

Upon completion of approved courses, a certificate of completion with the CEU total will be given to students who successfully complete a course. A Continuing Education Unit (CEU) is equal to ten hours of classroom attendance. Satisfactory completion will be determined by attendance and performance as assessed by the instructor. Certificates of completion will be awarded to students who successfully complete any workforce training or community education course.

ACCESS TO STUDENT RECORDS
As established in the Family Educational Rights and Privacy Act of 1974, Section 438, Howard College provides students with access to their official education records and provides students with an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The college will obtain written consent from the student before releasing personally identifiable data from these records except for items classified as directory information. Directory information includes student’s name, address, and telephone number; date and place of birth; enrollment status (full-time, part-time); student classification; major field of study; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; degrees and awards received; most recent previous educational agency or institution attended; state of legal residence; parent’s name, address, and telephone listing; and email address. Students may request that all or part of their directory information be withheld from the public by filing in person a Directory Information Restriction Request form, which is to be obtained and filed in the Admissions Office.
A copy of the Student Record Policy for the college is printed in the current Student Handbook.

STUDENT RIGHTS, PRIVILEGES, EXPECTATIONS
Howard College’s primary function is to provide an educational environment that will include the opportunity for academic, social, and personal growth. Enrollment in a tax-supported educational institution of higher learning is not compulsory. It is optional and voluntary. The voluntary entrance of a student in such institutions is an entrance into the academic community by individual volition. By such voluntary entrance, the student assumes obligations of performance and behavior reasonably imposed by the institution of choice relevant to its lawful missions, processes, and functions. These obligations are generally much higher than those imposed on all citizens by the civil and criminal law.

The college assumes that the student has earnest educational purpose and maturity of reasonable behavior. This assumption continues until the student demonstrates otherwise. Every student is subject to federal laws. Any student who violates any provision of those laws is subject to disciplinary action, including expulsion, notwithstanding any action taken by civil authorities on account of the violation. The privilege of exercising rights of citizenship under the Constitution of the United States is reaffirmed by the college to each student. The college strives to assure due process and to outline specific ways of appeal in case of disagreement with administered discipline. All policies regarding student conduct and discipline are outlined in the Student Handbook which is located in the Dean of Students Office.

All students must obtain an official student I.D. card that is used at various college functions. Residence Hall students use I.D. cards as meal tickets. I.D. cards are made at the Harold David Fitness Center on the Big Spring campus. I.D. cards are made at registration and in the Student Services Office in San Angelo. I.D. cards are made at registration on other campuses.

STUDENT COMPLAINT PROCEDURE
All students have the right to inquire about, criticize, or propose improvement to college policies, procedures, and regulations. Channels of expression include bringing the concern to the attention of the Student Government Association, an appropriate college committee, or an appropriate college official. Every effort will be made to resolve the problem. All student complaints should be communicated to the Student Services personnel on their respective campuses: Big Spring - Administrative Dean of Student Services; SWCID - Dean of Student Services; San Angelo - Campus Dean of Support Services; other sites - Campus Coordinators. The Student Services personnel will attempt to resolve the matter and will provide a written response to the student. Complaints may be submitted anonymously. However, in order to resolve a complaint in some cases, the complainant may not be able to remain anonymous. Permission to reveal the sources of the complaint will be obtained from the source before being revealed. If the student chooses to remain anonymous, the ability to fully resolve a complaint may be compromised, but every effort will be made to resolve the complaint.

If the student is not satisfied with the efforts or response of the Student Services personnel to resolve the complaint, the student may appeal his/her complaint to the administrator appointed by the president. This administrative officer will call a committee of two faculty, one staff, and two students to review the complaint and the proposed solution. The decision of this committee is final. This policy does not apply to complaints regarding student discipline, academic matters, discrimination or sexual harassment. Grievance procedures for these matters are outlined in the Student Handbook.

STUDENT ASSISTANCE CENTER
The Student Assistance Center, located in the administration building on the Howard College, Big Spring campus, is opened to prospective, current, and transfer students. The staff of the Center provides financial aid advising and application information about scholarships, grants, work study programs, and student loans. In addition, students may obtain admissions applications as well as program information. Campus tours may be scheduled year round. The registration process begins in the Student Assistance Center as well as change of registration (add/drop).

GUIDANCE AND COUNSELING SERVICES
The Counseling Center provides professional psychological services to students and non-students of the community. These services include individual and group counseling for personal, educational, occupational, and emotional development. The center maintains testing services which include the administration and interpretation of appropriate aptitude, interest, and personality tests to assist students in making personal, educational and career decisions. Special services are provided for students desiring assistance in reading and tutorial help. The Howard College Counseling Center is an approved location for the American College Testing Program, the College Entrance Examination Board Testing Program, the General Educational Development Test, the College Level Examination Program, and the Texas Higher Education Assessment Program.
Howard College will provide to all students computer access for academic purposes. This access is to aid the students’ performance in the classroom. Priority will be given to students currently enrolled in subjects requiring computer access (i.e. Computer Science, Preparatory Programs, etc.). Availability to all enrolled students will be on a space-available basis.

The S.T.E.P.S. Lab is located in the Practical Arts Building on the Big Spring campus. The lab houses instructional equipment with tutorial software and materials. All of the equipment is available on a first-come-first-serve basis to any currently enrolled Howard College student who presents a valid student ID card upon entrance. Lab hours are posted. In addition, group and individual tutoring is available through the lab. Contact the Director of the lab for more information.

The mission of the Distance Learning (WINGS) Network is to provide Howard College and its public with quality educational experiences at a distance for academic credit, personal enrichment, and/or professional development. Students may take courses from Howard College through a combination of face-to-face courses, live/interactive video, and online classes. Corporate sites and independent school districts may join Howard College’s WINGS network to become receiver sites for credit and non-credit courses. The WINGS network increases opportunities for high school students to participate in concurrent enrollment and early admissions with Howard College. Selected junior, senior, and graduate level college courses are taught from educational consortia and then sent live to selected sites with two-way audio, increasing opportunities to participate in upper level and graduate degree programs while on the Howard College campus.

Howard College faculty members teaching over distance participate in special training programs and ongoing assessment. All courses include ongoing interaction with faculty. All degree program requirements, course work, and prerequisites are the same as for on-campus students. All credit courses run according to the regular academic calendar. Students may complete degrees in selected program areas and register for Distance Learning classes at the same time and in the same way as for on-campus classes. To enroll in any Howard College credit course, students must first be admitted to Howard College. For online classes students must be able to access the Internet.

Howard College is an institutional member of several educational consortia dedicated to the delivery of instruction by distance. These consortia include the Regional Electronic Academic Communication Highway (REACH) with the University of Texas of the Permian Basin, Midland College, and Odessa College; the Southwest Consortium for Advancement of Technological Education (SCATE); the Virtual College of Texas; the Texas Consortium for Educational Telecommunications.

A varied and wholesome program of student activities is provided through student organizations. The college feels that the student should have the opportunity to supplement classroom work by choosing activities that meet needs for recognition or growth, desire for companionship, spiritual growth, and creative effort. Student activities afford recreation, opportunity for leadership development, and effective group participation. The various student organizations are sponsored by faculty and staff members and are responsible to the administration.
STUDENT GOVERNMENT ASSOCIATION

Students are encouraged to become involved with institutional governance by expressing their thoughts and feelings about college policies, procedures, and activities. This is accomplished by participation in the Student Government Association.

The Student Government Association (SGA) consists of all presently enrolled students of Howard College/SWCID. While all students are invited to attend SGA meetings, the representative voting bodies of the Student Government Association are the Student Senates: one at Big Spring, one at San Angelo, and one at SWCID. Each Student Senate consists of the following members:

1. Four officers elected by members of the Student Government Association on respective campuses;
2. Eight freshmen representatives elected by members of the Student Government Association on respective campuses;
3. Eight sophomore representatives elected by members of the Student Government Association on respective campuses.

Through this Senate, students are given an opportunity to promote student government and to develop and manage a well-rounded program of student activities. The Senate also acts as an intermediary between students, the faculty, and the administration. The President of each Senate, or their designee, serves on the President's Council, the Student Discipline Committee, the Special Events Committee, and the Commencement Committee.

SCHOLASTIC AND HONORARY SOCIETIES

PHI THETA KAPPA

This is a national junior college honorary society. Iota Beta, the Big Spring chapter, was organized during the 1956-57 school year and was granted a charter at the 1957 national convention in Lawton, Oklahoma. To be eligible for membership, a student must have completed 15 semester hours at Howard College, must be at least a half-time student, cannot be enrolled in any preparatory courses during the semester they are inducted, and maintain a 3.25 grade point average.

Alpha Tau Theta, the San Angelo chapter, was organized in the Fall 1990 and chartered April 11, 1991. To be eligible for membership, a student must have completed 15 hours at Howard College, must be at least a half-time student; cannot be enrolled in any preparatory courses during the semester they are inducted, and maintain a 3.25 grade point average.

The purpose of Phi Theta Kappa is to promote scholarship, to provide recognition for scholarship, and to cultivate fellowship among top-ranked scholastic students of the junior colleges of the United States.

INTEREST AREA ORGANIZATIONS

AMERICAN ASSOCIATION FOR MEDICAL TRANSCRIPTION (AAMT)

Any student accepted into the health information technology program pursuing a certificate in medical transcription is invited to join. This provides them an opportunity to network within their chosen profession. For more information visit www.aamt.org.

AMERICAN ASSOCIATION FOR RESPIRATORY CARE

This national professional organization supports Respiratory Care Practitioners with educational opportunities, legislative assistance, employment opportunities, and more. Students enrolled in the respiratory care program are eligible to join at reduced rates. For more information, visit www.aarc.org.

AMERICAN HEALTH INFORMATION MANAGEMENT ASSOCIATION (AHIMA)

Any student accepted into the health information technology program has the opportunity to join this national professional association, which automatically makes them a member of the state component association, Texas Health Information Management Association, THIMA. For more information visit www.ahima.org.

CRIMINAL JUSTICE STUDENTS ASSOCIATION

Membership in the CJSA is open to any student on campus who is interested in criminal justice. The purpose of the association is to promote participation in social, civic, and like-minded interests through scheduled activities of enjoyment, education, and personal reward.

CONCHO VALLEY HEALTH INFORMATION MANAGEMENT ASSOCIATION (CVHIMA)

Any student accepted into the Health Information Technology program in San Angelo has the opportunity to join this local association of health information professionals. This provides them a chance to network and work together on committees with local health information professionals.

HEALTH INFORMATION TECHNOLOGY STUDENT ASSOCIATION (HITSA)

Membership is open to all students enrolled in Health Information Technology or persons interested in the field of Health Information Technology, including those students in the medical transcription field.

HUMAN RESOURCE MANAGEMENT (HRM) CLUB

The Howard College HRM Club is associated with the local Society for Human Resource Management. Students meet regularly to gain career exposure, information, and experience as they consider entering the field of human resources. Students who have chosen HRM as a career focus, and those who simply want to explore and learn more are welcome.
MEXICAN AMERICAN STUDENT ORGANIZATION (MASA)
Membership in this organization is open to any student on campus who is interested. The purpose of the club is to promote cultural awareness. The club sponsors and participates in various student activities.

STUDENT AMERICAN DENTAL HYGIENISTS’ ASSOCIATION
SADHA is the student affiliate of the American Dental Hygienists’ Association. The goal of the organization is to improve the public’s total health by increasing the awareness of and access to quality oral health care and to position the Dental Hygienist as the preventive oral health professional. The organization was chartered at Howard College in September 1983.

TEXAS HEALTH INFORMATION MANAGEMENT ASSOCIATION (TxHIMA)
Any student accepted into the Health Information Technology program has the opportunity to join this state professional association. For more information visit www.txhima.org.

TEXAS NURSING STUDENTS ASSOCIATION
TNSA, the Texas Nursing Students Association, is the professional association for students preparing to become Registered Nurses. TNSA is jointly sponsored by the Texas Nursing Association and the American Nursing Association.

TEXAS SOCIETY FOR RESPIRATORY CARE
This state-based organization allows Texas RCPs to share information and obtain continuing education units required by the Texas Department of Health. Students enrolled in the respiratory care program are eligible to join at reduced rates. For more information visit www.tsrco.org.

RELIGIOUS ORGANIZATIONS
BAPTIST STUDENT MINISTRIES
The Baptist Student Ministries is organized to encourage spiritual and Christian citizenship among Howard College students and faculty members. Biweekly meetings of an inspirational nature, early morning preparatory periods, and monthly social gatherings make up the chief activities of the BSM. Students who are members of local Baptist churches are considered members of the organization. Other students of all denominations are invited to join.

INTERCOLLEGIATE ATHLETICS
Howard College and the community of Big Spring are extremely proud of the highly successful athletic program. The winning tradition is firmly entrenched through the efforts of our outstanding student athletes. Each year the men and women of the rodeo team, the Hawk basketball team, the Lady Hawk basketball team, the Lady Hawk softball team, and the Hawk baseball team are ranked near or at the top of the official conference standings. Howard College is represented frequently on the All-Conference, All-Region, and All-American teams. All students are urged to support these outstanding athletic programs by attending as many of the sporting events as possible.

INTRAMURAL PROGRAMS - BIG SPRING
The intramural program provides all students with recreational and competitive opportunities. Team sports are arranged on a round-robin basis, and individual or dual sports are set up by elimination tournaments, meets, or special events. Students may choose from intramural sports of flag football, softball, volleyball, ping pong, foosball, racquetball, and pool. Information about sign-up dates and schedules is posted in the SUB.

CHEERLEADERS
The college has an active cheerleader squad. A cheerleader must be a full-time student and maintain a 2.5 grade point average. Selection to this prominent campus group is based on cheerleader ability and past accomplishments. Students interested in becoming a cheerleader should contact the Dean of Student Services at Howard College-Big Spring.

DIPLOMATS
The Howard College Classics were established in 1977 to serve as official hostesses at various institutional functions and to represent the college at many community events. In 1990 this group became known as the Diplomats and includes both female and male students serving in a similar capacity. Selection to this prestigious group is based on high school records in both academic areas and extra-curricular activities. Recommendation by a high school administrator or counselor is required. Students interested in becoming Diplomats should contact the Dean of Student Services at Howard College-Big Spring.

HEALTH SERVICES
Medical services are coordinated by the Student Services Division. Howard College does not have student health clinics. However, each campus is close to medical facilities that can meet most medical needs. The Student Services Division will assist students in making appointments at these facilities. A campus health and safety manual is available that addresses health and emergency procedures. In addition, information on health services relative to the residence halls is included in the residence hall supplement of the student handbook. Students interested in a sickness and accident insurance program may pick up a brochure in the Student Services’ office or at registration. This coverage is available to all students and their dependents who may want to purchase insurance coverage.

DENTAL HYGIENE SERVICES - BIG SPRING
Dental hygiene services, including teeth cleaning, are available to students at a reduced cost. Contact the Dental Hygiene Department on the Big Spring campus to make an appointment.

COSMETOLOGY SERVICES
Cosmetology services, including hair cut and styling, hair color, and nail and skin care are available to students at a reduced cost. Contact the Cosmetology Department to make an appointment.
HOUSING AND FOOD SERVICE
INFORMATION - BIG SPRING

Housing Policy
All Howard College, Big Spring students enrolled in 9 hours or more are required to live in the residence halls with the following exceptions:

1. students living with relatives
2. married students
3. 21 years of age or older
4. completed 30 or more semester hours of post secondary education
5. college housing is filled

The Administrative Dean of Students Services must approve all exceptions.

HOUSING FACILITIES
Howard College Big Spring has two residence halls. Although each residence hall varies slightly in physical design, basic services offered include recreation/meeting space, study rooms/computer labs, coin operated laundry facilities, and TV viewing areas. Basic furnishings include extra-long twin beds (mattress size 39” x 80”), study space and desk chairs. Extended basic cable television service and local telephone service is provided in each room.

Turner Hall can accommodate 98 residents in two different style rooms. Accommodations in the south wing are quadruple occupancy rooms (4 beds in a room) with each room having a private bathroom. All rooms in the north wing of Turner Hall and in the Men’s Residence Hall are double occupancy rooms in a suite style arrangement (two rooms share a bathroom). The Men's Hall can accommodate 150 men.

FOOD SERVICE
Students living in the residence halls are provided with a 19 meal plan (breakfast, lunch and dinner are served Monday - Friday and brunch and dinner are served on Saturday and Sunday).
Courses of Study

Arts and Sciences/Academic Transfer

Career Technical Education

Tech Prep Articulation

Abbreviations Used in Course Descriptions

Numbering and Descriptions of Courses

Career Technical Education Degrees and Certificates
Howard College offers course work designed to prepare students to continue their education at senior institutions or to enter specific occupational areas at the end of a one- or two-year period of specialized training in occupational education. The courses of study that follow are designed to aid students who wish to pursue either of these alternatives. It is suggested that each student see an academic advisor, the Registrar, or other college advisor at the earliest opportunity in order to plan an effective program. Any student that does not declare himself/herself as an academic (arts and sciences) major will be declared as a vocational/technical education major.

ASSOCIATE OF ARTS AND ASSOCIATE OF SCIENCE

Arts and Sciences offers programs for transfer to baccalaureate degree-granting institutions. Students planning to transfer to a senior college or university should consult the catalog of that institution, a faculty advisor, the Registrar, or guidance office when planning their courses to meet specific degree requirements. Students desiring to qualify for the Associate of Arts or the Associate of Science degree must meet the following requirements:

<table>

<td><strong>61-62</strong></td>
</tr>
</tbody>
</table>

(See page 37 for more information on the Associate of Arts in Teaching)

*The Computer Science requirement may be replaced by an elective course if the student meets one of the following:

- A student took and passed a high school computer course within three years of enrolling at Howard College.
- A student has documentation of computer proficiency from another college or institution.
- A student takes and passes a computer proficiency test prior to registration. Contact your advisor for testing times and places.

Computer proficiency must be documented on the student’s transcript.

CAREER AND TECHNICAL EDUCATION

Career and Technical Education seeks to develop intellectual abilities and skills that will enable the student to enter the workforce. The purpose of Career and Technical Education programs is to prepare students for jobs in business and industry. The student who completes a prescribed two-year curriculum in Career and Technical Education will receive the Associate of Applied Science Degree.

Students desiring to qualify for the Associate of Applied Science degree must meet the following requirements:

**Associate of Applied Science**

**TOTAL**                                         **60-72**

NOTE: Some courses of study include a “WECM Elective.” This is a course that is included in the Workforce Education Course Manual. Please contact your instructor or the Division Chair/Career and Technical Education for specific courses available.

TECH PREP ARTICULATION

In order for a student to receive credit for a Tech Prep course, there must be an articulation agreement between Howard College and the student’s high school. The student must complete a Howard College Application for Admission Packet, a Tech Prep Articulation Request Form, and attach two copies of his/her high school transcript. One copy must be an official copy that states the high school graduation date. The student may complete the Tech Prep Articulation Request Form at the Howard College Admissions/Registrar’s Office or on his/her high school campus. Representatives from Howard College will visit each high school campus in the Spring of each year to assist students in completing their Tech Prep Articulation Request Form. If the student chooses to complete the Tech Prep Articulation Request Form on his/her high school campus a $5.00 administration fee applies. Students who choose to pay the $5.00 administrative fee will receive a T-Shirt and a copy of their Howard College Transcript once the credit is transcripted. Scholarships are available for students who are unable to pay.

Once the student has completed the Tech Prep Articulation process, the request will be forwarded to the appropriate department at Howard College. That Department will analyze the high school transcript and mark all articulated courses in accordance with the Articulation Agreement on file. The application will then be examined by the Division Director of Workforce Education (BS) or the Dean of Instruction (SA) and then approved by Vice President (BS) or the Provost (SA). If approved, the application will then be forwarded to the Registrar’s Office. The Registrar’s Office will then transcript the Tech Prep Credit and, if the student has paid the $5.00 administrative fee or received a scholarship, the Registrar will mail a copy of the Howard College Transcript to the student. If the student has not paid the $5.00, he/she can request a copy of the transcript showing the articulated credit six weeks after the application date.
ABBREVIATIONS USED IN COURSE DESCRIPTIONS

All courses have a rubric. A rubric is a course name and number. For example, Freshman Composition has a rubric of ENGL 1301 and Introduction to Accounting I has a rubric of ACNT 1303.

This list of rubric abbreviations will explain where to look for a particular rubric in the course descriptions. For example, ACNT can be found under the course descriptions for Business.

NUMBERING AND DESCRIPTION OF COURSES

Courses are designated by four digit numbers, which show both the rank of the course and its value in semester hours. The first digit on the left indicates the rank of the course. Freshman level courses begin with the digit 1; sophomore level courses begin with the digit 2; developmental courses begin with 0. The second digit in the course number indicates the number of semester hour credit. For example, English 1301 is freshman level as indicated by the first digit, and carries three semester hours credit as indicated by the second digit. Chemistry 2423 is sophomore level and carries four hours of credit.

If a number appears in parentheses following the course description, this is a course approval number assigned by the Texas Higher Education Coordinating Board. This indicates a parallel course in Texas state public senior institutions of higher education.

ENGL 1301

CAREER AND TECHNICAL EDUCATION AND HEALTH PROFESSIONS

For Health Professions Programs Only: The Joint Commission on Accreditation of Healthcare Organizations (JCAHO) standards require competency assessment of all individuals in direct contact with patients and employees. Competency extends beyond technical skills to an individual’s criminal history; therefore students complete clinical background checks prior to admission to specific programs. Instructions for completing the background checks can be obtained from the department to which the student is applying.

Associate of Applied Science Degrees and Certificates

The following programs are non-transfer programs. However, courses listed in the courses descriptions with a 10-digit approval number at the end of the course description are courses that will transfer.

Programs leading to the Associate of Applied Science Degree or a Certificate include the following:

- Agribusiness
  - Farm and Ranch Management
- Business
  - Accounting
  - Business Administration
  - Culinary and Hospitality Management
- Health Care Management
- Human Resource Management
- Management
- Marketing
- Management Information Systems
- Child and Family Development Studies
  - Child Care and Development
  - Gerontology
- Computer and Information Sciences
  - Computer Support Technology
  - Information Management
  - Networking
  - Web Design & Management
- Computer and Information Systems Security
  - Computer Forensics Investigations
- Cosmetology
  - Cosmetologist
  - Facial Specialist
  - Instructor Option
  - Nail Technician
- Criminal Justice Technology
  - Chemical Dependency Counseling

Child and Family Development Studies
(Note: A criminal background clearance and CPR/First Aid Certification is required for employment in the Child and Family Development field and is the responsibility of the student.)
The A.A.S. in Child and Family Development Studies and the Child Care Certificate program is designed to provide students with a theoretical knowledge base and practical experience, which will prepare them for employment in early childhood centers as a teacher or director (according to minimum standards for Day Care Centers, Texas Department of Family and Protective Services) as well as for other child-related occupations.
The Gerontology Certificate prepares students for jobs in adult day care centers, 55+ programs at hospitals and banks, elder hostels, and senior academic opportunities operated through colleges and universities, social service agencies, and recreation/leisure industry, which includes senior tours and senior centers.
(Gerontology offered on the Big Spring campus only)

Total Hours .....................18...........................608

FACIAL SPECIALIST/ESTHETICIAN
The Cosmetology Facial Specialist/Esthetician Program is 750 clock hours in length as prescribed by the Texas Department of Licensing and Regulation (TDLR) and the State Legislature. Estheticians specialize in skin care rather than hairstyling. They may also manufacture, sell, or apply cosmetics. As highly trained specialists, estheticians provide preventative care for skin and offer treatments to keep skin healthy and attractive. Unless the esthetician is also a licensed dermatologist, he or she does not prescribe medication or give medical treatments. However, the esthetician is trained to detect skin problems that require medical attention.

First Semester
Course........................Semester Hours......Contact Hours
CSME 1420........................4............................160
CSME 1521........................5............................144

4 TPO Academy Courses
DENTAL HYGIENE
Associate of Applied Science

This program in Dental Hygiene is accredited by the Commission on Dental Accreditation of the American Dental Association, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and by the United States Department of Education.

Admission into the program is based on a point system that takes into consideration several factors:

- Must be at least 18 years of age
- Minimum college GPA of 2.5
- Howard College admission application
- Dental Hygiene admission application
- College or university transcript(s) (OFFICIAL)
- Work experience in dental office or 30 hours of observation (verified)

Completion ("C" or higher) of the following courses prior to acceptance:

- Introductory Chemistry
- Anatomy & Physiology I
- Anatomy & Physiology II
- Microbiology
- Completion of support courses

Call or write the Dental Hygiene Department for admission application. A completed application file must be received in the office by March 1 of the year applying. The Dental Hygiene Admission Committee determines admission based on points generated. Address completed application to: Director of Dental Hygiene, Howard College, 1001 Birdwell Lane, Big Spring, TX 79720.

Promotion/Graduation Policy
The student MUST receive a MINIMUM grade of “C” and maintain a 2.5 overall GPA in EACH support (non-dental hygiene) course as well as EACH dental hygiene course. The student must attain and maintain minimum competencies in all laboratory and clinical skills.

Liability Insurance
Dental hygiene students are required to purchase liability insurance prior to the beginning of clinical laboratory experience. Arrangements to purchase insurance at a reduced group rate will be made through the Howard College Business Office in conjunction with the payment of other required fees.

Additional Cost
Dental hygiene students must also purchase an instrument kit and uniforms through the department. For information on current estimated costs for these items, contact the Director of the Dental Hygiene program.

EMERGENCY MEDICAL SERVICES
(Note: A criminal background clearance may be required before acceptance into this program.)

The Emergency Medical Services (Emergency Medical Technology/Paramedic) is certified by the Bureau of Emergency Management, a division of the Texas Department of Health. Certification levels consist of the following: Basic EMT/Certification, EMT/Intermediate Certification, EMT/Paramedic Certification. A student may stop at any one certification level or continue through each level to the next. The student must pass the Texas Department of Health skill and written exam in order to become certified at each level. The Texas Paramedic now has the opportunity to become a Licensed Paramedic rather than a Certified Paramedic if he or she has an Associate Degree in EMS or higher degree.

Policies Specific to the Emergency Medical Technology Program

Minimum Admission Requirements:
Applicants must complete and provide the following:
1. Howard College application for admission.
2. Official high school or GED transcripts.
3. Official college transcripts of any other institutions attended.
4. EMS program application.
5. Successfully complete a criminal background clearance before the end of the first semester in the program.
6. A physical examination (completed after June 1 of the year of admission, or after November 1 if entering the program in the Spring).
7. Proof of immunizations required by Texas Health Department, Rule 97.64. Additional immunizations may be required by some clinical facilities.

IMPORTANT: The student must be a certified EMT/Basic before being allowed to enroll in the Paramedic level.

Students enrolling in EMT 1501 must present an American Heart Association Health Care Provider CPR card to the instructor within three weeks after the class start date.

Certification Policy
The student must receive a minimum grade of 75 in lecture portion of each course as well as complete all clinical/internship hours and state skills examinations before being allowed to sit for the TDH examination.

Liability Insurance
EMS students are required to purchase liability insurance during college registration. Arrangements to purchase insurance at a reduced group rate will be made through the Howard College Business Office in conjunction with the payment of other required fees.

Clinical
Clinical experiences provide detailed education, training, and work-based experience in direct patient/client care at a clinical site. All clinical experiences are unpaid external learning experiences that are required for program completion. Students may not be substituted for staff personnel while performing clinical program requirements. Students and faculty provided by Howard College are not and will not be acting as servant agents or employees of a medical facility during program clinical rotations.

Clinical Requirements
Hospital clinicals and ambulance field internship hours are required for all courses. A student uniform is required and out-of-town travel to clinicals and internships may be required. Any Basic EMS student wishing to ride out on the San Angelo Fire Department ambulance will be required to pay an additional $10.00/semester for ambulance internship hours. Any Advanced EMS student wishing to ride out on the San Angelo Fire Department ambulance will be required to pay an additional $15.00/semester for ambulance internship hours. This fee will be paid to Howard College (included in the tuition/fee payment).

Textbooks, Syllabus, and Equipment
The textbook and syllabus are required parts of each course. The syllabus is a printed copy of the rules and policies of the EMS Department. It also contains all of the necessary paperwork. There is also a variety of required equipment to be purchased. All of these may be purchased at the Howard College Bookstore. If the student already has the required equipment, it is not necessary to purchase another set.

This program may be scheduled as a day or evening program. The total number of semesters may vary depending on campus site. See class schedule.

1 Capstone course.
2 Recommended elective: BIOL 2402-Anatomy and Physiology II, POFM 1313-Medical Terminology, PSYC 2301-General Psychology, or SOCI 1301-Introduction to Sociology.

NOTE: For those students interested in bringing their TDH Paramedic Certificate up to an AAS degree, please contact the EMT/Paramedic Course Coordinator at 432-264-5141.

HEALTH INFORMATION TECHNOLOGY
(San Angelo Campus)

Howard College offers these competency-based programs in Medical Transcription and Health Information Technology. Completion of the Medical Transcription Certificate Level I qualifies the student to take the written element of the two-part Certified Medical Transcriptionist (CMT) examination while completion of the AAS in Health Information Technology (HIT) entitles the graduate to be eligible to write the national examination for a Registered Health Information Technician (RHIT). The AAS program in HIT is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM).

Clinical
Clinical experiences provide detailed education, training, and work-based experience at a clinical site. All clinical experiences are unpaid externships that are required for program completion. Students may not be substituted for staff personnel while performing clinical program requirements. Students and faculty provided by Howard College are not and will not be acting as servant agents or employees of a medical facility during program clinical rotations.

ADMISSION REQUIREMENTS
Applicants for the program must complete or provide the following:
1. Howard College application for admission.

NOTE: Admission to the college does not guarantee admission to the Health Information Technology (HIT) programs.
2. Official high school or GED transcripts.
3. Official college transcripts of any other institutions attended.
4. Health Professions program application.
5. Meet with the program director or his/her designee.
6. Successfully complete a criminal background clearance before the end of the first semester in the program.

To maintain acceptance in the program students must:
1. Attain a minimum of a “C” in all courses required for the Health Information Technology (HIT) and Medical Transcription (MT) programs.
2. Complete the technical\textsuperscript{6} courses of the program within the three (3) year window prior to graduation.
3. Secure a complete physical examination, using the appropriate form, before entering the initial clinical course.
   The Program Director will provide the appropriate form.
4. Applicant must provide proof of immunizations required by the Texas Health Department, Rule97.64. Additional immunizations may be required by some Clinical facilities.
5. Secure liability insurance (automatically charged at the time of registration for clinical courses).
6. Secure proof of health insurance prior to registration for initial clinical course.

\textsuperscript{6}Technical courses for these programs include any course beginning with HIT, HPRS, MRMT, and/or BCIS.

3 Course may be articulated through an approved high school Tech Prep agreement.

MEDICAL ASSISTANT
(NOTE: A criminal background clearance is required before acceptance into this program. Students should contact the program director for proper advising.)

A medical assistant is an integral member of the health care team, qualified by education and experience to work in the physician’s administrative office, the examining room, and the office laboratory. This program prepares graduates to function as entry-level practitioners. Graduates of this program are eligible to submit application for certification examination with the American Medical Technologist Association. Individuals who pass the examination are awarded the Registered Medical Assistant (RMA) credential.

Students Interested in Phlebotomy only: The three course series in phlebotomy (MDCA 1309, MDCA 1352, & MDCA 1164) will be offered every Fall and Spring semester. Students wishing to take only these courses should contact the program director for proper advising.

NOTE: Prior to the first class day, students will be required to show proof of ALL immunizations or submit a signed waiver obtained from the State of Texas Health Department. Students enrolled in the Medical Assistant program are required to purchase health insurance prior to the beginning of courses with external clinical experiences.

Admission Requirements
1. Applicants must complete a Howard College application and meet minimum admission standards to Howard College.
2. Must be 18 years of age at the time of certification examination.
3. High school diploma or GED. (High school concurrent enrollment possible).
4. Prior to acceptance into the program, students are required to have the following:
   a. A physical examination (recommended but not required).
   b. Tuberculosis clearance: by PPD or Mantoux test (within last three months or annually), or chest x-ray results if applicable.
   c. MMR titer or proof of immunization.
   d. Tetanus vaccination (within the last 10 years).
   e. Varicella: two doses-two months apart OR positive titer OR written confirmation of disease.
   f. Polio (OPV/IPV): Three doses over six months.
   g. Students are required to have the COMPLETE Hepatitis B vaccine series or a waiver may be obtained from the State of Texas Health Department before going to clinical sites. The student who has a completion date on the Hepatitis B vaccine of 10 years or longer will be required to update this record with an antibody titer to check their immunity.

   • A student that has no proof of ANY immunizations would take six months to complete requirements for all areas.

   • A student who has documentation of childhood immunizations but has not completed the Hepatitis B series would take four months to complete required immunizations and clearances.

5. CPR Course C Certification through the Howard College Continuing Education Department is highly recommended but not required.
6. Enrollment is limited.
7. Students may enroll full-time or part-time.
Liability Insurance
Medical assistant students are required to pay liability insurance and clinical fees each semester.

Health Insurance
Students enrolled in the Medical Assistant program are required to purchase health insurance prior to the beginning of courses with external clinical experiences.

Progress
Students must complete all MDCA and support courses with a “C” or above to progress to the next term.

NURSING--ASSOCIATE DEGREE/RN
(NOTE: A criminal background clearance is required before acceptance into this program.)
Program based at the Big Spring Campus.

ASSOCIATE OF APPLIED SCIENCE
Application deadline is June 1. Admission and selection criteria can be obtained by requesting an application packet from the Department of Nursing, Howard College, 1001 Birdwell Lane, Big Spring, TX 79720, (432) 264-5070.

Admission Criteria Specific to the ADN Program
Prior to actual admission into the Associate Degree Nursing Program, applicants must have successfully completed 14 hours of required support courses with a final grade of “C” or above.

<table>
<thead>
<tr>
<th>Course</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 1301</td>
<td>Freshman Composition</td>
</tr>
<tr>
<td>BIOL 2401</td>

</tr>
<tr>
<td>BIOL 1322</td>
<td>Nutrition</td>
</tr>
<tr>
<td>BIOL 2402</td>
<td>Anatomy &amp; Physiology II</td>
</tr>
</tbody>
</table>
| BIOL 2401 and BIOL 2402 | must have been taken within five (5) years of the admission date. If older than five years, course may have to be repeated or a minimum competency score be attained for entrance. Contract the Nursing Office. All applicants to the Howard College Associate Degree Nursing Program who have met the requirements for admission to the college will be evaluated according to the criteria specified. Each applicant will be forwarded to the selection committee. However, meeting requirements does NOT guarantee admission to the program. The following criteria will be used for admission to the RN program:

1. Completed application.
2. Official transcripts showing a “C” or better in all prerequisites.
3. TEAS scores. Adjusted Individual Reading Score = 80%
In the event the number of applicants exceed set ratio for faculty and preceptors admission will be made on the basis of total points. Student will be ranked on the basis of total points based on prerequisite grades and Adjusted Reading Score percent. Should two or more applicants have the same number of points than the TEAS Adjusted Total Individual Score will be the tie breaker. If there is a tie on the total points, the TEAS Adjusted Total Individual score, than the date of application will determine entrance.

It is the applicant’s responsibility to submit all required documents, to make all appointments, and to pay all fees for testing.

Students may be required by a clinical facility to submit to a random selection for a drug screening test.

Students may be required by a clinical facility to submit to a background check and fingerprinting. If a student does not pass the background check or the drug test and is unable to attend clinical, the student will be unable to fulfill the course requirements and possible failure of the course may occur. It is not the responsibility of the nursing faculty of Howard College to make alternative arrangements for clinical hours.

Upon completion of the program, the student will be subjected to a State background check done by the Department of Public Safety and a Federal background check conducted by the FBI.

ADMISSION INFORMATION
Pre-testing: Students seeking admission to the Associate Degree Nursing Program must schedule a time with the Testing Coordinator to take the Test of Essential Academic Skills (TEAS). The TEAS test can be taken once every 60 days for a cost of $30. The maximum number of times the TEAS may be taken is three (3).TEAS scores greater than five (5) years of age will not be accepted. TEAS scores will be accepted from other schools only if mailed directly to the Howard College ADN offices from the administering school. Student’s scores are evaluated by the nursing staff. The student may be advised to take preparatory course work in various skills that are designed to enhance success in the program. The adjusted individual reading score of 80% must be attained.

SUMMER TERMS
During the summer term, students are required to take A&P I, A&P II, Nutrition, and Freshman Composition. Students earning less than a final grade of “C” in non-nursing courses must repeat that course before becoming eligible to take Associate Degree Nursing courses.

FALL AND SPRING TERMS
Progression to the fall term as an Associate Degree Nursing
major is contingent upon successful completion of the summer courses. A “C” or above is required in all nursing and support courses to progress to the next term. The minimum grade required for a “C” is a 76 in the nursing program.

*Co requisite courses - Courses marked with * are considered co requisite courses. Please see Howard College Nursing Student Policies regarding co requisite courses and Progression of Students/Continuation of Students within the nursing program.

- RNSG 2201 Care of Children and Families
- RNSG 2361 Clinical

**Level IV - SPRING**
- RNSG 2404 Care of the Client with Common Health Care Needs
- RNSG 2460 Clinical
- SPCH 1311 or Introduction to Speech Communication
- SPCH 1315 Public Speaking
- SOCI 1301 Introduction to Sociology

**ADMISSION REQUIREMENTS**
1. Completed Nursing application form for admission into the Associate Degree Nursing Program.
2. An official transcript indicating high school graduation or proof of GED sent to nursing.
3. An official transcript from each college/university attended sent to nursing. One transcript is for the Nursing Department, the other will be forwarded to the Admissions Office.
4. Results of Test of Essential Academic Skills (TEAS) examination administered by STEPS learning center. The maximum number of times the TEAS may be taken is three (3). TEAS scores greater than five (5) years of age will not be accepted. TEAS scores will be accepted from other schools only if mailed directly to the Howard College ADN offices from the administering school.
5. Transfer of prerequisite credits is contingent upon approval by the Coordinator of Nursing and the Dean of Guidance and Counseling. Nursing courses taken in another institution will be reviewed and evaluated by the Nursing office.
6. Successful clearance of a criminal background investigation.
7. Proof of at least 2 doses of the Hepatitis B series.
8. Proof of Varicella titer (bloodwork). If Varicella titer non-reactive, must provide proof of completion of Varicella immunizations series (2 doses) or letter from physician refusing treatment.

Following completion of the above by the deadline of JUNE 1, the applicant will be considered for the selection pool. An applicant’s file is not complete until all of the above documents have been submitted. Applicants are responsible for keeping their file updated with current addresses and phone numbers.

If accepted to the nursing program:
1. Prior to the first class day students are required to have:
   a. A physical examination within previous three (3) months.
   b. The results of a TB tine or PPD (within the last 3 months)
   c. Proof of MMR immunization (a signed statement by medical practitioner showing 2 doses of vaccine or MMR titer level.
   d. Tetanus vaccination (proof of within the past ten years).
2. Students are required to have the third hepatitis injection before attending clinical (mid October). The student who has a completion date on the hepatitis B vaccine of ten years or longer will be required to update this record with an antibody titer to check their immunity.
3. Current CPR certification-American Heart Association for Health Care Providers, BLS course (current within 1 year).

**HEALTH INSURANCE**
Students enrolled in the Nursing Program are required to purchase health insurance prior to the beginning of clinical experiences and to maintain such insurance for the duration of their enrollment.

NURSING--ACCELERATED PROGRAM FOR VOCATIONAL NURSES (NUR)
(Note: A criminal background clearance is required before acceptance into this program.)

This program has been designed to provide a career mobility program to upgrade the skills of licensed vocational nurses. The curriculum will enable the qualified vocational nurse graduate to acquire an Associate Degree in Nursing in an accelerated period of time.

Application deadline is April 1. Admission and selection criteria can be obtained by requesting an application packet from the Department of Nursing, Howard College, 1001 Birdwell Lane, Big Spring, TX 79720. (432) 264-5070.

ADMISSION CRITERIA SPECIFIC TO THE ACCELERATED ADN PROGRAM
Prior to actual admission into the Associate Degree Nursing Program, applicant must have successfully completed 21 hours of required support courses with a final grade of “C” or above:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>

<td>Microbiology</td>
</tr>
<tr>
<td>BIOL 1322</td>
<td>Nutrition</td>
</tr>
<tr>
<td>BCIS 1305</td>
<td>Computer Science Elective</td>
</tr>
</tbody>
</table>

BIOL 2401 and BIOL 2402 must have been taken within five (5) years of the admission date. If older than five years, course may have to be repeated or a minimum competency score be attained for entrance. Contact the Nursing Office. All applicants to the Howard College Accelerated ADN Program who have met the requirements for admission to the college will be evaluated according to the criteria specified. Each applicant will be forwarded to the selection committee. However, meeting requirements does NOT guarantee admission to the program. The following criteria will be used for admission to the RN program:
1. Completed application.
2. Official transcripts showing a “C” or better in all prerequisites.
3. TEAS (minimum requirement: Adjusted Individual Reading Score = 80%).

In the event the number of applicants exceed set ratio for faculty and preceptors admission will be made according to the TEAS reading score starting from the highest score to the lowest score. In the event of a tie on the TEAS reading score, the TEAS math skills score will be used to determine. If there is a tie on both the reading score and the math score, the date of application will determine entrance. Applications expire after selection is made and any student not selected or who declined admission must file a new application to be considered for the next year.

It is the applicant’s responsibility to submit all required documents, to make all appointments, and to pay all fees for testing. Students may be required by a clinical facility to submit to a random selection for a drug screening test. Students may be required by a clinical facility to submit to a background check and fingerprinting. If a student does not pass the background check or drug test and is unable to attend clinical, the student will be unable to fulfill the course requirements and possible failure of the course may occur. It is not the responsibility of the nursing faculty of Howard College to make alternative arrangements for clinical hours.

Upon completion of the program you will be subjected to a State background check done by the Department of Public Safety and a Federal background check conducted by the FBI.

ADMISSION INFORMATION
Pre-testing - Students seeking admission to the Associate Degree Nursing Program must schedule a time with the Testing Coordinator to take the Test of Essential Academic Skills (TEAS). The TEAS test can be taken once every 60 days for a cost of $30. The maximum number of times the TEAS may be taken is three (3). TEAS scores greater than five (5) years of age will not be accepted. TEAS scores will be accepted from other schools only if mailed directly to the Howard College ADN offices from the administering school. Student’s scores are evaluated by the nursing staff. The student may be advised to take preparatory course work in various skills that are designed to enhance success in the program. An Adjusted Individual Reading Score of 80% must be attained.

ADMISSION REQUIREMENTS
1. Completed application form for admission into the Accelerated ADN Program by April 1.
2. An official transcript indicating high school graduation or proof of GED sent to nursing.
3. An official VN transcript sent to nursing.
4. An official transcript from each college/university attended (other than Howard College) sent to nursing.
5. Results of the Test of Essential Academic Skills (TEAS) (administered by STEPS learning center). The maximum number of times the TEAS may be taken is three (3). TEAS scores greater than five (5) years of age will not be accepted. TEAS scores will be accepted from other schools only if mailed directly to the Howard College ADN offices from the administering school.
6. Transfer of prerequisite credits is contingent upon approval by the Coordinator of Nursing and the Dean of Guidance and Counseling. Nursing courses taken in another institution will be reviewed and evaluated by the Nursing office.
7. Successful clearance of a criminal background investigation.
8. Proof of at least 2 doses of the Hepatitis B series.
9. Proof of Varicella titer (bloodwork). If Varicella titer non-reactive, must provide proof of completion of Varicella immunizations series (2 doses) or letter from physician refusing treatment.

Following completion of the above by the designated deadline of April 1, the applicant will be considered for the selection pool. An applicant’s file is not complete until all of the above documents have been submitted.

If accepted to the nursing program:
1. Prior to the first class day students are required to have:
   a. A physical examination (completed after March 1 of the year of admission).
   b. The results of a TB tine or PPD (completed after March 1 of the year of admission).
   c. MMR titer or proof of immunization.
   d. Tetanus vaccination (proof of within the past 10 years).
   2. Hepatitis B vaccine series (3 doses) or serologic proof of immunity to Hepatitis B.
   3. Current CPR certification-American Heart Association for Health Care Providers, BLS course, current within 1 year.
4. Proof of health/hospitalization insurance by first class day.
5. Current VN license to practice in the state of Texas or valid work permit for new graduates. New graduates must take and pass the state board exam prior to the Fall semester, failure to accomplish will result in suspension from the program.
6. Complete the Nursing Success Camp.

HEALTH INSURANCE
Students enrolled in the Nursing Program are required to purchase health insurance prior to the beginning of clinical experiences and to maintain such insurance for the duration of their enrollment.

Co requisite courses - Courses marked with * are considered co requisite courses. Please see Howard College Nursing Student Policies regarding co requisite courses and Progression of Students/Continuation of Students within the nursing program.

NURSING-VOCATIONAL (VN)
( NOTE: A criminal background clearance is required before acceptance into this program.)

The Vocational Nursing Program is a twelve (12) month certificate program that offers college credit. The program is designed to prepare students to perform direct patient care under the supervision of a registered nurse and/or physician. Students are prepared for upward mobility in a nursing career. The program is approved by the Texas Board of Nursing and the Texas Higher Education Coordinating Board. Upon completion, students may make application to take the NCLEX-PN (State Board Examination) to become Licensed Vocational Nurses. Students may complete the Vocational Nursing Program in one year and continue a second year for completion of the Associate Degree Nursing Program. Application deadline is June 1. Admission and selection criteria can be obtained by requesting an application from the Department of Nursing, Howard College, 1001 Birdwell Lane, Big Spring, TX 79720, or the Department of Nursing, Howard College, 3501 N. Hwy 67, San Angelo, TX 76905.

ADMISSION CRITERIA SPECIFIC TO THE VOCATIONAL NURSING PROGRAM

Prior to actual admission in the Vocational Nursing Program, applicant must successfully complete the required support courses with a final grade of “C” or above. If enrolled in these courses in summer, applicant must furnish proof of enrollment. The minimum grade required for a “C” is a 76 in the nursing program.

Co requisite courses - Courses marked with * are considered co requisite courses. Please see Howard College Nursing Student Policies regarding co requisite courses and Progression of Students/Continuation of Students within the nursing program..
All applicants to the Howard College Vocational Nursing Program who have met the requirements for admission to the college will be evaluated according to the criteria specified. Each applicant will be ranked on the basis of total points. Students will be admitted to the program according to ranking and point status. Should two or more applicants achieve the same number of points, date of receipt of application will be the determining factor for admission. It is the applicant’s responsibility to submit all required documents and to make all appointments and pay all fees for testing.

ADMISSION INFORMATION
Pre-testing - Students seeking admission to the Vocational Nursing Program must schedule a time with the Guidance and Counseling office (432)264-5085 - Big Spring or the Student Life Coordinator Office (325) 481-8300, x-244 - San Angelo to take the Psychological Services Bureau (PSB) test. The PSB test can be taken once every 60 days for a cost of $20. After exam scores are evaluated by the counseling staff, the student may be advised to take preparatory course work in various skills that are designed to enhance success in the program. A minimum of one (1) point must be attained in each section of the PSB to qualify for selection/admission into the program. The scores from the PSB are valid for up to 5 years prior to the Fall semester in which they are seeking admission into the Vocational Nursing program.

THEA/PRE-THEA
The Vocational Nursing Program itself is a THEA-Waived program; however, applicants will be asked to take the THEA or Pre-THEA Reading exam in order to take prerequisite academic courses.

SUMMER TERMS
The summer will be a busy time. During the summer term, students are required to take A&P I, A&P II, Nutrition, and Life Span/Growth & Development. Students earning less than a final grade of “C” in non-nursing courses must repeat the course(s) before becoming eligible to take Vocational Nursing courses.

FALL AND SPRING TERMS
Progression to the fall term as a Vocational Nurse major is contingent upon successful completion of the summer courses. A “C” or above is required in all nursing and support courses to progress to the next term.

ADMISSION REQUIREMENTS
Submit to Nursing Department (either in Big Spring or San Angelo): Deadline June 1

1. Attend a Howard College Health Professions Orientation.
2. Completed nursing application form for admission into the Vocational Nursing Program.
3. An official transcript indicating high school graduation or proof of GED. Please send to the attention of the Nursing Department.
4. An official transcript from each college/university attended. Please send to the attention of the Counseling Department.
5. One official transcript from Howard College, if attended, by June 1.
6. Results of the Psychological Service Bureau (PSB) examination (administered by the Guidance and Counseling Department).
7. Proof of Hepatitis B #1 and #2 shots prior June 1.
8. Successful clearance of a criminal background investigation.

Following completion of the admission requirements by the designated deadline of June 1, the applicant will be considered for the selection pool. An applicant's file is not complete until all of the admission requirements have been completed.

Applicants are responsible for keeping their files updated with current addresses and phone numbers.

Final approval of acceptance into the nursing program requires that prior to the first class day students will have:

1. A physical examination (completed after June 1 of the year of admission);
2. Applicant must provide proof of immunizations required by the Texas Health Department, Rule 97.64. Additional immunizations may be required by some clinical facilities.
4. Successful clearance of a criminal background investigation.

HEALTH INSURANCE
Students enrolled in the Nursing Program are required to purchase health insurance prior to the beginning of clinical experiences and to maintain such insurance for the duration of their enrollment, if not covered by a family member.

REGISTRATION FOR NURSING COURSES
Written approval must be obtained from the Director of the program before the student can register for nursing courses. The nursing student will then register on the announced registration date. Registration after the announced date will be considered late registration and an appropriate fee will be charged.

RADIOLOGIC TECHNOLOGY-ASSOCIATE OF APPLIED SCIENCE

(NOTE: A criminal background clearance is required before acceptance into this program.)

This program is based at the San Angelo campus. Howard College offers an Associate of Applied Science program in Radiologic Technology. Graduates of this program are eligible to take the American Registry of Radiologic Technologists Examination. Individuals who pass this examination are awarded the certification credential. This program is pending accreditation by the Joint Review Committee on Education in Radiologic Technology (JCERT).

APPLICATION PROCESS
Interested individuals should attend a Health Professions Orientation as the first step in the application process. The initial meeting will determine applicant options and set a time line for completing acceptance requirements. The program begins each fall with class selection made by July 15. All applicants must have fulfilled admissions criteria by the class selection date.

ADMISSION CRITERIA

1. College entrance exam passing test scores are required in order to gain entrance into academic courses.
2. Successfully completed the required support courses (Anatomy and Physiology I and II and Math 1314 or Math 1332). If enrolled in these courses in summer, applicant must furnish proof of enrollment.
3. Applicant must attend a Howard College Health Professions Orientation.
4. A physical examination (completed after June 1 of the year of admission).
5. Applicant must provide proof of immunizations required by the Texas Health Department, Rule 97.64. Additional immunizations may be required by some clinical facilities.
6. Successful clearance of criminal background investigation.
7. An application to the Radiologic Technology Program must be submitted to the Howard College Health Professions Division along with an official transcript indicating high school graduation or proof of GED and an official transcript from each college/university attended (including Howard College, if attending, by the end of the first summer session).

PREPARATION FOR ADMISSION
BIOL 2401, BIOL 2402 and MATH 1314 or 1332 are prerequisites to this program. See the catalog for guidelines regarding these courses. Students may also take any non-RADR course prior to acceptance to the program.

PROGRESS STANDARDS
Once accepted into the program, students must complete all required courses within three years. In order to progress from one term to another, students must earn a letter grade of “C” or better in all required courses. Students who do not make this progress may reapply for the next cycle of the program but will be considered as new applicants and will be subject to the current curriculum and application process. Students who do not successfully complete a course must repeat that course. In addition, for any co-requisite classes associated with that class, the student must take the final examination and pass with a 75 or higher and not have to repeat the co-requisite. If a 75 is not obtained, the student will be required to audit the co-requisite class to ensure he/she maintains knowledge and skills necessary for future success. Students may not attempt the program more than twice.

THE PRECEDING CRITERIA DO NOT ACT AS SUBSTITUTE TO ANY HOWARD COLLEGE ADMISSION POLICY OR PROGRESS STANDARDS

EXPENSE IN ADDITION TO TUITION, TEST, AND FEES

Uniforms and Supplies
Students must purchase appropriate uniforms necessary for participation in clinical activities. Uniform consists of appropriate scrubs, lab coat, shoes and a watch with a second hand. Cost of uniform varies dependent upon style, size and quality of the items. There will be Out of Town Travel for Clinical Activities.

Clinical
Clinical experiences provide detailed education, training, and work-based experience in direct patient/client care at a clinical site. All clinical experiences are unpaid external learning experiences that are required for program completion. Students may not be substituted for staff personnel while performing clinical program requirements. Students and faculty provided by Howard College are not and will not be acting as servant agents or employees of a medical facility during program clinical rotation.

RESPIRATORY CARE ASSOCIATE OF APPLIED SCIENCE

(NOTE: A criminal background clearance is required before acceptance into this program.)

Tech Prep Program
This program is based at the San Angelo campus.

Respiratory Care Practitioners (RCPs) assist in the diagnoses and treatment of diseases of the heart and lungs as well as provide respiratory support for patients suffering from many other types of disease. Their practice includes patients from all age groups. They may work in hospitals, nursing homes, clinics, or the patient’s home. They are becoming increasingly involved in specialty areas such as air and ground ambulance, patient education, rehabilitation, and intensive care of infants and children.

Howard College offers an Associate of Applied Science program in Respiratory Care. Graduates of this program are eligible to take the National Board for Respiratory Care Entry Level and Advanced Level Examination. Individuals who pass this examination are awarded the Certified Respiratory Therapist (CRT) credential. Once the CRT credential is earned, graduates may take the NBRC Written Registry and Clinical Simulation exams. Candidates who pass these exams earn the Registered Respiratory Therapist (RRT) credential. This program is accredited by the Committee on Accreditation for Respiratory Care (CoARC) and the Commission on Accreditation of Allied Health Education Programs (CAAFEP).

APPLICATION PROCESS

Interested individuals should attend a Health Professions Orientation as the first step in the application process. The initial meeting will determine applicant options and set a time line for completing acceptance requirements. The program begins each fall with class selection made by July 15. All applicants must have fulfilled admissions criteria by the class selection date.

ADMISSION CRITERIA

1. College entrance exam passing test scores are required in order to gain entrance into academic courses.
2. Successfully completed the required support courses (Anatomy and Physiology I and II and Math 1314 or Math 1332). If enrolled in these courses in summer, applicant must furnish proof of enrollment.
3. Applicant must attend a Howard College Health Professions Orientation.
4. A physical examination (completed after June 1 of the year of admission).
5. Applicant must provide proof of immunizations required by the Texas Health Department, Rule 97.64. Additional immunizations may be required by some clinical facilities.
6. Successful clearance of criminal background investigation.
7. An application to the Respiratory Care program must be submitted to the Howard College Health Professions Division along with an official transcript indicating high school graduation or proof of GED and an official transcript from each college/university attended (including Howard College, if attending, by the end of the first summer session).
8. Results of PSB test.
9. Upon selection, completion of personal interview and minimum of four hours of observation with a therapist.

PREPARATION FOR ADMISSION

BIOL 2401, BIOL 2402 and MATH 1314 or 1332 are prerequisites to this program. See the catalog for guidelines regarding these courses. Students may also take any non-RSPT course prior to acceptance to the program.

PROGRESS STANDARDS

Once accepted into the program, students must complete all required courses within three years. In order to progress from one term to another, students must earn a letter grade of “C” or better in all required courses. Students who do not make this progress may reapply for the next cycle of the program but will be considered as new applicants and will be subject to the current curriculum and application process. Students who do not successfully complete a course must repeat that course. In addition, for any co-requisite classes associated with that class, the student must take the final examination and pass with a 75 or higher and not have to repeat the co-requisite. If a 75 is not obtained, the student will be required to audit the co-requisite class to ensure he/she maintains knowledge and skills necessary for future success. Students may not attempt the program more than twice.

THE PRECEDING CRITERIA DO NOT ACT AS SUBSTITUTE TO ANY HOWARD COLLEGE ADMISSION POLICY OR PROGRESS STANDARDS

EXPENSE IN ADDITION TO TUITION, TEXTS, AND FEES

Uniforms and Supplies

Students must purchase appropriate uniforms necessary for participation in clinical activities. Uniform consists of approved scrubs, lab coat, shoes, watch with a second hand, and a stethoscope. Cost of uniforms varies dependent upon style, size, and quality of the items. Additionally, students purchase an equipment kit in the first semester of the program. This kit contains equipment used over the course of the program. Cost of the laboratory kit is currently $80 and is subject to change.
Clinical experiences provide detailed education, training, and work-based experience in direct patient/client care at a clinical site. All clinical experiences are unpaid external learning experiences that are required for program completion. Students may not be substituted for staff personnel while performing clinical program requirements. Students and faculty provided by Howard College are not and will not be acting as servant agents or employees of a medical facility during program clinical rotation.

Health Insurance

Students enrolled in the Respiratory Care Program are required to purchase health insurance prior to the beginning of clinical experiences and to maintain such insurance for the duration of their enrollment.

Out of Town Travel for Clinical Activities

As the San Angelo population does not expose students to consistent cases of patients from special populations (neonates, pediatrics, etc.), clinical activities that concern these patients are conducted out of town. This clinical takes place in the final semester of the program. Students are expected to pay about $400 per student (subject to change).

SURGICAL TECHNOLOGY

(NOTE: A criminal background clearance is required before acceptance into this program.)

Program based at San Angelo Campus

Certified Surgical Technologist (CST)

The Certified Surgical Technologist (CST) is an integral member of the operative team, which includes the surgeon, anesthesiologist, and Registered Nurse. Their role is to perform duties during the pre, intra, and postoperative phases of surgical care. The primary responsibility of the CST is to create and maintain the surgical field integrity, and under the direction of the surgeon prepares instrumentation and suture material as needed in the operative field. All surgical technologists who graduate from a CAAHEP (Commission on Accreditation of Allied Health Education Programs) approved program are eligible to sit for the certification exam to become a CST.

Clinical

Clinical experiences provide detailed education, training, and work-based experience in direct patient/client care at a clinical site which focuses on surgical procedures. All clinical experiences are unpaid external learning experiences that are required for program completion. Students may not be substituted for staff personnel while performing clinical program requirements. Students and faculty provided by the institution are not and will not be acting as servant agent or employee of medical facility during program clinical rotations.

Admission Criteria Specific to the Surgical Technology Program

Howard College's Surgical Technology Program is a Certificate Level I program, which is CAAHEP approved and fully credentialed. Program applicants who have met the criteria for admission in Howard College will be evaluated according to specific program criteria outlined for admission into the surgical technology program. All admission criteria are outlined in the Surgical Technology admission packet and may be obtained in the counseling office or through the program director's office.
Effect with the entering class of Fall 2005, completion of the following is required prior to application into the program. A grade of C or better is required in all prerequisite courses in order to apply into the program. Program application deadline is June 1st of each year:

- BIOL 2401, 2402, & 2420
- HPRS 1206
- HITT 1253 or HPRS 1205
- Manual Dexterity Testing

Program acceptance is based upon the criteria outlined in the admission packet, regarding the above prerequisite requirements, and admission interviews. Students with the highest scores will be admitted into the program. Program admission will be limited to 14 students per year. If admitted into the program a grade of C or better is required in all course work in order to progress in the program.

PreTesting Criteria

THEA (THEA) Testing

The Surgical Technology Program itself is a THEA-Waived program; however, applicants for the Fall 2005 class will be asked to take the THEA or Pre-THEA reading exam in order to take the prerequisite academic courses.

Admission Requirements

Submit to the surgical technology department (San Angelo campus only)

1. Completed surgical technology application for admission.
2. Two official transcripts indicating high school graduation or proof of GED. One transcript is for the surgical technology department office and one for the Admissions Office.
3. One official transcript from Howard College with all prerequisite course grade information.
4. Results of the THEA or pre-THEA reading scores.
6. All of the above information must be received into the Surgical Technologist Directors office by June 1st in order to be considered for admission into the program.
7. A personal interview may also be required.
8. Student must attend Health Professions Orientation.

Final Acceptance into the Surgical Technologist Program will require that prior to the first class day the student will have completed the following:

1. A physical examination form (completed after June 1st of the year of admission)
2. Applicant must provide proof of immunizations required by the Texas Health Department, Rule 97.64. Additional immunizations may be required by some clinical facilities.
3. Current CPR certification (Provider American Heart Association).
4. Successfully have completed a criminal background clearance.

Graduation Requirements

Successful completion of the LCC-ST Self-Assessment Examination is required for program completion.

Health Insurance

Students enrolled in the Surgical Technology program are required to purchase health insurance prior to the beginning of their clinical experiences and to maintain the insurance for the duration of their enrollment, if not covered by a family member.

WELDING TECHNOLOGY

WLDG 1421 *Introduction to Welding Fundamentals*

Four semester hours ....................................... *(2-4)*

This course is an introduction to the fundamentals of equipment used in oxyacetylene and arc welding, including welding and cutting safety, basic oxyacetylene welding and cutting, basic arc welding processes, and basic metallurgy.

*May be articulated.*
General Studies

Academic Transfer Courses
Approved Fields of Study
ACADEMIC TRANSFER COURSE DESCRIPTIONS
The following courses are designed for transfer to the four-year college or university. Courses are offered in the following disciplines:

- Accounting (ACCT)
- Agriculture (AGRI)
- Anthropology (ANTH)
- Art (ARTS)
- Biology (BIOL)
- Business (BUSI)
- Chemistry (CHEM)
- Child and Family Development Studies (GERS)
- (Early Childhood Education) (TECA)
- Communications (COMM)
- Computer and Information Sciences (COSC)
- Criminal Justice (CRIJ)
- Dance (DANC)
- Drama/Theater (DRAM)
- Economics (ECON)
- Education (EDUC)
- Engineering (ENGR)
- English (ENGL)
- French (FREN)
- Geology (GEOL)
- Government (GOVT)
- History (HIST)
- Humanities (HUMA)
- Kinesiology/Physical Education (PHED)
- Mathematics (MATH)
- Music (MUSI)
- Philosophy (PHIL)
- Physics (PHSY)
- Psychology (PSYC)
- Sociology (SOCI)
- Spanish (SPAN)
- Speech (SPCH)
- Theater (DRAM)

APPROVED FIELD OF STUDY CURRICULUM
A Field of Study Curriculum is a set of courses that will satisfy the lower-division requirements for a baccalaureate degree in a specific academic area at a general academic teaching institution. A field of study curriculum affects academic degree programs at public colleges or universities as designated within the particular field of study curriculum. The following fields of study have been adopted by the Texas Higher Education Coordinating Board.

BUSINESS
The Business Field of Study Curriculum Advisory Committee has adopted the following annotated set of courses (totaling between 21 and 24 semester credit hours of fully transferable and applicable courses) as a Field of Study Curriculum for Business.

The Field of Study Curriculum for Business is for students seeking a Bachelor of Business Administration (BBA) degree.

Economics................................................................. 2 courses
ECON 2301 & 2302 only
Microeconomics & Macroeconomics

Mathematics............................................................. 1 course
MATH 1325
minimum content must be at the level of Calculus or above

Computer Literacy..................................................... 1 course
BCIS 1305 or 1405 only
new course with a TCCNS BCIS prefix

Speech................................................................. 1 course
SPCH 1311 or 1315 or 1321 (preferred) only public ..........
speaking with an emphasis (50% or more of course content) on
the preparation and presentation of professional speeches, using
computer technology when appropriate

Accounting............................................................ 2 courses
ACCT 2301 or 2401 & 2302 or 2402 only
Financial & Managerial Accounting

Special circumstances may dictate supplements to the field of study.
COMMUNICATIONS

The total semester credit hours for the Field of Study Curricula for Communication must be between 12 to 15 hours taken from the competencies below:

All freshman and college-transfer students who are declared music majors are placed in appropriate music theory classes by the music faculty. College transfer students will have all previous music course work evaluated. In addition, music students will be assigned to piano, voice or major instrument areas of study.

All students entering music theory should have a knowledge of key signatures, scales, and understanding of basic notation and pitch. If a lack of background is determined, the student will then be expected to achieve a parity of proficiency with first year theory students, prior to taking sophomore course work.

Courses in Applied Music and the Performing Groups may be repeated for credit with the consent of the instructor and the understanding of the student that they may not apply toward advanced degrees upon transfer to a senior college.

The non-keyboard music major is expected to reach a level of proficiency equivalent to two years of college level private instruction. Instrumental, voice, and piano concentrates are given playing auditions to determine level of proficiency. It is advisable for all music majors to have completed several years of private piano study prior to entering college.

Applied Music Examinations
All students taking applied music courses must appear for a jury examination at the end of each semester. The examining committee will decide whether the student is to be advanced to a higher classification or retained (asked to repeat the same course) in the event that he is not ready to proceed to the next higher level. If a student repeats a course, only the credit earned in the repetition of the course will be counted toward degree requirements.

Specific examination requirements for each classification are determined by the faculty of each Applied Music area, in consultation with the departmental chairman. These requirements are subject to periodic review.

Piano Requirements

**Keyboard Majors and Concentrates**
Keyboard concentrates must take private lessons in piano each semester during the freshman and sophomore years. All keyboard concentrates must take piano sight-reading and accompanying studies for four semesters, participate in one performance group per semester, and participate as needed for student recital accompanying as determined by the music faculty.

**Instrumental and Voice Concentrates**
Instrumental and voice concentrates must take four semesters of secondary piano. The primary instruction in applied music would be either voice or an orchestral instrument for student in this area. As a secondary piano student, each music student must prepare to pass a piano proficiency barrier upon acceptance in a senior college. Specific requirements for meeting the piano proficiency barrier may be obtained from the music faculty at Howard College.

DEFINITION OF TERMS

The following terms are used throughout the catalog and particularly in this section of Course Descriptions. A brief explanation follows each term.

**Concurrent Enrollment**
(a) Enrollment by the same student in two different colleges at the same time or
(b) Enrollment by a high school student in high school and college at the same time, or
(c) Enrollment by a student in two related courses in the same semester.

**Contact Hours**
The number of clock hours a student spends in a given course during the semester.

**Credit Hours**
College work is measured in units called credit hours. A credit hour value is assigned to each course and is normally equal to the number of hours the course meets each week. Credit hours are sometimes referred to as semester hours.

**Electives**
A course chosen by the student that is not required for a certificate or degree.

**Flexible Entry Course**
A course that permits beginning or ending dates other than the beginning or ending of the semester.

**Laboratory Hours (Lab)**
The number of clock hours in a semester the student spends each week in the laboratory or other learning environment.

**Lecture Hours**
The number of clock hours in a semester the student spends each week in a classroom.

**Major**
The student’s main emphasis of study.

**Performance Grades**
Grades assigned point values, including A, B, C, D, and F.

**Prerequisite**
A course that must be successfully completed or a requirement such as related life experiences that must be met before enrolling in another course.

**Semester Hour**
An hour that presents the work accomplishment by a class meeting one hour a week for 16 weeks. Most classes meet three hours a week; consequently, most courses will carry three semester hours of credit.
Course Descriptions
ACCT 2301 Principles of Accounting I - Financial 
Three semester hours ........................................ (3-1) 
Accounting concepts and their application in transaction 
analysis and financial statement preparation; analysis of financial 
statements; and asset and equity accounting in proprietorships, 
partnerships, and corporations. Introduction to cost behavior, 
budgeting, responsibility accounting, cost control, and product 
costing. (S203015104)

ACCT 2302 Principles of Accounting II 
Three semester hours ........................................ (3-1) 
Continuation of ACCT 2301. The course includes accounting 
for partnerships and corporations, cost accounting, decision- 
making, and statements and analysis. Prerequisite: ACCT 2301. 
(S203015104)

ACNT 1303 Introduction to Accounting I 
Three semester hours ........................................ (3-1) 
Analyzing, classifying, and recording business transactions 
in a manual and computerized environment. Emphasis on 
understanding the complete accounting cycle and preparing 
financial statements, bank reconciliation, and payroll.

ACNT 1304 Introduction to Accounting II 
Three semester hours ........................................ (3-1) 
Accounting for merchandising, notes payable, notes receivable, 
valuation of receivables and equipment, and valuation of 
inventories in a manual and computerized environment. 
Prerequisite: ACNT 1303.

ACNT 1313 Computerized Accounting Applications 
Three semester hours ........................................ (3-0) 
Utilizing the computer to develop and maintain accounting record 
keeping systems, make management decisions, and process common 
business applications with emphasis on utilizing a spreadsheet and/ 
or data base package/program. This is a sophomore-level course. 
Prerequisite: ACNT 1303 or ACCT 2301.

ACNT 1329 Payroll and Business Tax Accounting 
Three semester hours ........................................ (3-0) 
A study of payroll procedures, taxing entities, and reporting 
requirements of local, state, and federal taxing authorities in a 
manual and computerized environment. Prerequisite:ACNT 1303 
or ACCT 2301 or instructor permission.

ACNT 1331 Federal Income Tax: Individual 
Three semester hours ........................................ (3-0) 
A study of laws currently implemented by the IRS, proving 
a working knowledge of preparing taxes for the individual. 
Prerequisite:ACNT 1303 or ACCT 2301 or instructor permission.

ACNT 2388 Internship-Accounting 
Three semester hours ........................................ (0-9) 
A work-based learning experience that enables the student 
to apply specialized occupational theory, skills, and concepts. 
A learning plan is developed by the college and the employer. 
Prerequisite:This is a capstone course and should be taken in the 
student's last semester.

AGAH 1357 Swine Production 
Three semester hours ........................................ (3-1) 
An overview of the swine industry. Topics include the 
organization and operation of swine enterprises, selection, 
breeding, reproduction, health, nutrition, management, and 
marketing of swine and their products.

AGAH 1441 Sheep and Goat Production 
Four semester hours ........................................... (3-3) 
An overview of the sheep and goat industry. Topics include 
the organization and operation of sheep and goat enterprises, 
selection, breeding, reproduction, health, nutrition, management, 
and marketing of sheep and goats and their products.

AGEQ 1345 Principles of Farrier Science 
Three semester hours ........................................... (2-4) 
Study of horse anatomy, focusing on care of the lower limb.

AGEQ 1411 Equine Science 
Four semester hours ........................................... (3-3) 
An introduction to the horse industry. Includes history, 
organization and operation of equine enterprises, selection, 
breeds, breeding, reproduction, health, nutrition, management, 
and marketing.

AGME141S Farm and Ranch Shop Skills 
Four semester hours ........................................... (2-4) 
Study and application of shop skills used in agricultural processes 
including arc wilding, oxyacetylene cutting and welding, drawing 
and planning projects, tool maintenance, metal working, 
woodworking, plumbing, and concrete.

AGMG 1311 Introduction to Agribusiness 
Three semester hours ........................................... (3-0) 
Introduction to agribusiness management, marketing, and sales in 
the free enterprise system. Topics include economic principles, 
finance, risk management, record keeping, budgeting, employee/ 
employer responsibilities, communications, human relation skills, 
and agricultural career opportunities.

AGMG 1344 Agricultural Records Management 
Three semester hours ........................................... (3-1) 
Examination of the principles of agricultural records and 
bookkeeping with emphasis on utilization and interpretation of 
farm and ranch accounts.

AGMG 2301 Livestock Business Management 
Three semester hours ........................................... (3-0) 
Instruction in contracts, leases, laws and regulations, estate 
planning, and applications of personnel and management 
principles.

AGMG 2388 Internship - Agribusiness/Agricultural 
Business Operations 
Three semester hours ........................................... (0-9) 
A work-based learning experience that enables the student 
to apply specialized occupational theory, skills and concepts. A 
learning plan is developed by the college and the employer.
AGRI 1131 The Agriculture Industry
One semester hour .................................................(1-0)
Overview of world agriculture, nature of the industry, resource conservation, and the American agricultural system, including production, distribution, and marketing. (0101035201)

AGRI 1309 Computers in Agriculture
Three semester hours .................................(3-1)
Use of computers in agriculture applications. Introduction to programming languages, word processing, electronic spreadsheets, and agriculture software. (0101015101)

AGRI 1311 Dairy Science
Three semester hours .................................................(3-1)
Survey of the dairy industry, dairy breeds, standards for selection and culling, herd replacements, feeding, management, and health maintenance. Food value of milk, tests for composition and quality, utilization and processing of market milk and dairy products are also covered. (0109055101)

AGRI 1319 Introductory Animal Science
Three semester hours .................................................(3-0)
Scientific animal agriculture. Importance of livestock and meat industries. Selection, reproduction, nutrition, management, and marketing of beef cattle, swine, sheep, goats, and horses.

AGRI 1325 Marketing of Agricultural Products
Three semester hours .................................................(3-0)
Operations in the movement of agricultural commodities from producer to consumer, including the essential marketing functions of buying, selling, transporting, storing, financing, standardizing, pricing, and risk bearing. Recommended Prerequisite: AGRI 2317 or consent of instructor. (0101025101)

AGRI 1329 Principles of Food Science
Three semester hours .................................................(3-0)
Biological and scientific aspects of modern industrial food supply systems. Food classification, modern processing and quality control. (0110015101)

AGRI 1407 Agronomy
Four semester hours .................................................(3-3)
Principles and practices in the development, production, and management of field crops, including plant breeding, plant diseases, soils, insect control, and weed control. (0111025101)

AGRI 1413 Plant Protection (Entomology)
Four semester hours .................................................(3-3)
Principles and practices in controlling and preventing economic loss caused by plant pests. Includes instruction in entomology, plant pathology, weed science, crop science, environmental toxicology, and related environmental protection measures. Field trips are mandatory. Prerequisite: BIOL 1411 or permission of the instructor. (0111055101)

AGRI 1415 Horticulture
Four semester hours .................................................(3-3)
Structure, growth, and development of horticultural plants from a practical and scientific approach. Environmental effects, basic principles of propagation, greenhouse and outdoor production, nutrition, pruning, chemical control of growth, pest control, and landscaping. (0106015101)

AGRI 1419 Introductory Animal Science
Four semester hours .................................................(3-3)
Scientific animal agriculture. Importance of livestock and meat industries. Selection, reproduction, nutrition, management, and marketing of beef cattle, swine, sheep, goats, and horses. (0109015101)

AGRI 2301 Agricultural Power Units (Metal Working)
Three semester hours .................................................(2-2)
Fundamentals of internal combustion engines: gasoline, diesel, and liquefied petroleum. Maintenance and adjustments of the electrical, ignition, fuel, lubricating, and cooling systems of agricultural power machinery. (0102045101)

AGRI 2303 Agricultural Construction I
Three semester hours .................................................(2-2)
Selection, use, and maintenance of hand and power tools; arc and oxy-acetylene welding; and construction materials and principles. (0102015101)

AGRI 2317 Introduction to Agricultural Economics
Three semester hours .................................................(3-0)
Fundamental economic principles and their application to the problems of the industry of agriculture. (0101035101)

AGRI 2321 Livestock Evaluation I
Three semester hours .................................................(3-0)
Selection, evaluation, and classification of livestock and livestock products. Detailed comparative evaluation of breeding and marketing animals along with live animal evaluation of beef cattle, swine, sheep and horses. Prerequisites: Consent of instructor or AGRI 1419. (0109015201)

AGRI 2322 Livestock Evaluation II
Three semester hours .................................................(2-4)
Selection, evaluation, and classification of livestock and livestock products. Detailed evaluation of breeding and marketing animals along with live animal evaluation of beef cattle, sheep, swine and horses. Prerequisite: AGRI 2321 or consent of instructor. A continuation of AGRI 2321. The college judging team will be selected from this class. (0109015201)

AGRI 2330 Wildlife Conservation and Management
Three semester hours .................................................(3-0)
Principles and practices used in the production and improvement of wildlife resources. Aesthetic, ecological, and recreational uses of public and private lands. (0306015101)

ANTH 2346 General Anthropology
Three semester hours .................................................(3-0)
Study of human beings, their antecedents and related primates, and their cultural behavior and institutions. Introduces the major subfields: physical and cultural anthropology, archeology, linguistics, and ethnology. (4502015125)

ANTH 2351 Cultural Anthropology
Three semester hours .................................................(3-0)
Key concepts, methods and theory in the study of cultural diversity, social institutions, linguistics, and culture change among world peoples. (4502015325)
ARCE 1352 Structural Drafting
Three semester hours .........................(2-4)
A study of structural systems including concrete foundations and frames, wood framing and trusses, and structural steel framing systems. Includes detailing of concrete, wood, and steel to meet industry standards including the American Institute of Steel Construction and the American Concrete Institute.

ARTC 1313 Digital Publishing I (formerly GRPH 1322)
Three semester hours .........................(3-0)
The fundamentals of using digital layout as a primary publishing tool and the basic concepts and terminology associated with typography and page layout. Prerequisite: ITSC 1309 or BCIS/COSC Elective.

ARTS 1301 Art Appreciation
Three semester hours ............................(3-0)
Exploration of purposes and processes in the visual arts including evaluation of selected works. Study is of historical examples of architecture, printing, and sculpture. General course in art appreciation open to all college students. Required of Art majors. (5007035126)

ARTS 1303 Art History I
Three semester hours ............................(3-0)
Examination of painting, sculpture, architecture, and other arts from prehistoric times through the middle ages. (5007035226)

ARTS 1304 Art History II
Three semester hours ............................(3-0)
Examination of painting, sculpture, architecture, and other arts from the Renaissance to the present period. (5007035226)

ARTS 1311 Design - Two Dimensional
Three semester hours ............................(2-4)
Elements and principles of art using two-dimensional concepts in a variety of techniques and media. It includes the basic theory of color. Required of Art majors. (5004015326)

ARTS 1312 Design - Three Dimensional
Three semester hours ............................(2-4)
Elements and principles of art using three-dimensional concepts. Required of Art majors. Prerequisite: ARTS 1311 Design - Two Dimensional. (5004015326)

ARTS 1313 Foundations of Art
Three semester hours ............................(2-4)
Introduction to the creative media designed to enhance artistic awareness and sensitivity through the creative and imaginative use of art materials and tools. Includes art history and culture through the exploration of a variety of art works with an emphasis on aesthetic judgment and growth. (5007015126)

ARTS 1316 Drawing I
Three semester hours ............................(2-4)
Investigation of drawing media and techniques, including descriptive and expressive possibilities. Incorporates the drawing of inanimate objects with consideration for line, space, forms, and perspective. Required of Art majors. (5007055226)

ARTS 1317 Drawing II
Three semester hours ............................(2-4)
This is a continuation of ARTS 1316. Required of art majors. Prerequisite: ART 1316 or permission of the instructor. (5007055226)

ARTS 2316 Painting I
Three semester hours ............................(2-4)
Exploration of ideas using painting media and techniques, including composition, color, and technical mastery of painting. Emphasis on the development of basic painting skills and aesthetic sensibilities. Required of Art majors. Prerequisite: ARTS 1316. (5007085226)

ARTS 2317 Painting II
Three semester hours ............................(2-4)
Continuation of ARTS 2316. Expression and subject matter are unrestricted. Emphasis placed on aesthetic factors. Prerequisite: ARTS 2316. (5007085226)

ARTS 2323 Life Drawing I
Three semester hours ............................(2-4)
Basic study of the human form with special attention given to head, hands and feet. Prerequisite: ARTS 1317 or permission of the instructor. (5007055326)

ARTS 2324 Life Drawing II
Three semester hours ............................(2-4)
Continuation of ARTS 2323. Problems in drawing and construction of the human figure in selected media. Prerequisite: ARTS 2323 or permission of the instructor. (5007055326)

ARTS 2326, 2327 Sculpture I & II
Three semester hours each .....................(2-4)
Exploration of ideas using sculpture media and techniques. Experiences in sculpture in clay, wood and plaster with an emphasis on expression in three dimensional form in space. Prerequisite: 9 hours Art. (5007095126)

ARTS 2333 Printmaking I
Three semester hours ............................(2-4)
Exploration of ideas using various printmaking processes. (5007105126)

ARTS 2336 Fiber Arts I
Three semester hours ............................(2-4)
Structure and design of woven and non-woven fiber forms. Techniques on two and four harness looms as well as off-loom design. Prerequisite: ARTS 1316. (5007125126)

ARTS 2346 Ceramics I
Three semester hours ............................(2-4)
Exploration of ideas using basic ceramic processes. Search for form and personal expression through hand building potter techniques. The lab fee will cover clay and firing charges for use of the kiln. (5007115126)
ARTS 2347 Ceramics II
Three semester hours ....................................(2-4)
Exploration of ideas using basic ceramic processes. Design analysis and production of functional clay pottery. Emphasis on throwing techniques, surface enrichment and glaze application. The lab fee will cover clay and firing charges for use of kiln. (5007/085326)

ARTS 2366 Water Color I
Three semester hours .....................................(2-4)
Exploration of ideas using water-based painting media and techniques. Water color medium as a means of artistic expression in the interpretation of still life, landscape and figure subjects. Prerequisite: ARTS 1316 or permission of the instructor. (5007/085326)

ARTS 2367 Water Color II
Three semester hours .....................................(2-4)
Exploration of ideas using water-based painting media and techniques. Prerequisite: ARTS 2366 or permission of the instructor. (5007/085326)

ARTV 1211 Storyboard
Two semester hours .......................................(2-1)
Introduction to the techniques of storyboarding including organizing a project's content and arranging it in a visual format. Prerequisite: ITSE 1302 or COSC 1336

BCIS 1305 Business Computer Applications
Three semester hours .....................................(3-0)
Computer terminology, hardware, software, operating systems, and information systems relating to the business environment. The main focus of this course is on business applications of software, including word processing, spreadsheets, databases, presentation graphics, and business-oriented utilization of the Internet. Prerequisite or Corequisite: POFI 2301, POFT 1127 or keyboarding speed of 25 wpm as verified by a three minute timed writing. (1102025404)

BCIS 1405 Business Computer Applications
Four semester hours ......................................(3-3)
Computer terminology, hardware, software, operating systems, and information systems relating to the business environment. The main focus of this course is on business applications of software, including word processing, spreadsheets, databases, presentation graphics, and business-oriented utilization of the Internet. Prerequisite or Corequisite: POFI 2301, POFT 1127 or keyboarding speed of 25 wpm as verified by a three minute timed writing. (1102025404)

BCOL 1322 Nutrition & Diet Therapy I
Three semester hours ....................................(3-0)
Study of the chemical, physical, and sensory properties of food; nutritional quality; and food use and diet applications. Prerequisite: Minimum of 230 on THEA reading or placement test score in reading or THEA completion by “B” or better in a course designated for reading. (1905015109)

BIOL 1406 General Biology I
Four semester hours ......................................(3-3)
Fundamental principles of living organisms, including physical and chemical properties of life, organization, cell structure and function, evolutionary adaptation, classification, and animal systems with an emphasis on the human body. Concepts of reproduction, genetics, ecology, and the scientific method are included. (2601015103)

BIOL 1407 General Biology II
Four semester hours ......................................(3-3)
Continuation of BIOL 1406. Overview of fundamental biological principles of living organisms, including the study of noncellular biological material, biological diversity, biological development, ecology, and environmental conservation. Prerequisite: BIOL 1406 (2601015103)

BIOL 1411 General Botany
Four semester hours ......................................(3-3)
Study of structure and function of plant cells, tissues, and organs. Includes and evolutionary survey and life histories of the following representative groups: algae, fungi, mosses, liverworts, ferns, and seed producing organisms. Plant reproductive and functional interactions with their environment and with humans. Selected laboratory exercises. (2603015103)

BIOL 1413 General Zoology
Four semester hours ......................................(3-3)
Study of the principles of taxonomy, molecular biology, and ecology as they relate to animal form and function, diversity, behavior, and evolution. (2607015103)

BIOL 2401 Anatomy and Physiology I
Four semester hours .....................................(3-3)
Study of the structure and function of the human anatomy, including the neuroendocrine, integumentary, musculoskeletal, digestive, urinary, reproductive, respiratory, and circulatory systems. Content may be either integrated or specialized. This course is designed to meet the requirements for physical education and Health Professions students. (2607075103)

BIOL 2402 Anatomy and Physiology II
Four semester hours .....................................(3-3)
Continuation of Biology 2401. Study of the structure and function of the human anatomy, including the neuroendocrine, integumentary, musculoskeletal, digestive, urinary, reproductive, respiratory, and circulatory systems. Content may be either integrated or specialized. This course is designed to meet the requirements for physical education and Health Professions students. Prerequisite: Biology 2401 (2607075103)
Biol 2420 Microbiology  
Four semester hours ................................ (3-3)  
Study of the morphology, physiology, and taxonomy of representative  
groups of pathogenic and nonpathogenic microorganisms. Pure cultures of  
microorganisms grown on selected media are used in learning laboratory  
techniques. Includes a brief preview of food microbes, public health, and  
immunology. Designed to meet the needs of health professions, home  
economics, and physical education majors, and not for biology majors.  
(2605035103)

BMGT 1301 Supervision  
Three semester hours ................................ (3-0)  
A study of the role of the supervisor. Managerial functions as applied  
to leadership, counseling, motivation, and human skills are examined.

BMGT 1303 Principles of Management  
Three semester hours ................................ (3-0)  
Concepts, terminology, principles, theory, and issues that are the  
substance of the practice of management.

BMGT 1341 Business Ethics  
Three semester hours ................................ (3-0)  
Discussion of ethical issues, the development of a moral frame  
of reference and the need for an awareness of social justice  
in management practices and business activities. Review of  
ethical responsibilities and relationships between organizational  
departments, divisions, executive management, and the public.

BMGT 1345 Communication Skills for Managers  
Three semester hours ................................ (3-0)  
Comprehensive study of advanced communication skills for  
managers in business and industry, including advanced techniques in  
reading, writing, listening, and speaking. Emphasis on clear,  
concise written and spoken communication in terms of business  
letters, memos, and reports, as well as oral presentations;  
techniques for time management; prioritizing reading materials,  
and comprehending the main ideas and salient details of technical  
materials, including journals and reports, and other work-related  
materials.

BMGT 1382 Cooperative Education - Business  
Administration and Management General  
Three semester hours ................................ (1-14)  
Career-related activities encountered in the student’s area of  
specialization offered through an individualized agreement among  
the college, employer, and student. Under the supervision of  
the college and the employer, the student combines classroom  
learning with work experience. Includes a lecture component.

BMGT 2303 Problem Solving and Decision Making  
Three semester hours ................................ (3-0)  
Decision making and problem solving processes in organizations,  
utilizing logical and creative problem solving techniques. Application  
of theory is provided by experiential activities such as small group  
discussions, case studies, and the use of other managerial decision aids.

BMGT 2331 Principles of Quality Management (Cross  
listed with QCTC 1301)  
Three semester hours ................................ (3-0)  
Quality of productivity in organizations. Includes planning for  
quality throughout the organization, analysis of costs of quality,  
and employee empowerment.

BMGT 2341 Strategic Management  
Three semester hours ................................ (3-0)  
Strategic management process involving analysis of how organizations  
develop and implement a strategy for achieving organizational  
objectives in a changing environment. Prerequisite: BMGT 1303.

BMGT 2347 Critical Thinking and Problem Solving  
Three semester hours ................................ (3-0)  
Instruction in interpreting data for effective problem solving and  
recommending corrective action with emphasis on a structured  
approach to critical thinking and problem solving in a team environment.

BMGT 2388 Internship-Business Administration and  
Management, General  
Three semester hours ................................ (0-9)  
A work-based learning experience that enables the student to apply  
specialized occupational theory, skills, and concepts. A learning plan  
is developed by the college and the employer. Prerequisite: This is a  
capstone course and should be taken in the student’s last semester.

BUSG 2309 Small Business Management  
Three semester hours ................................ (3-0)  
A course on how to start and operate a small business. Topics  
include facts about a small business, essential management  
skills, how to prepare a business plan, financial needs, marketing  
strategies, and legal issues. Prerequisite: BUSI 1301 or permission  
of instructor.

BUSI 1301 Business Principles  
Three semester hours ................................ (3-0)  
Introduction to the role of business in modern society. Includes  
overview of business operations, analysis of the specialized fields within  
the business organization, and development of a business vocabulary.  
(5201015104)

BUSI 1304 Business Report Writing and Correspondence  
Three semester hours ................................ (3-0)  
Theory and applications for technical reports and correspondence  
in business. (2311015212)

BUSI 1307 Personal Finance  
Three semester hours ................................ (3-0)  
Personal and family accounts, budgets and budgetary control, bank  
accounts, charge accounts, borrowing, investing, insurance, standards  
of living, renting and home ownership, and wills and trust plans.  
(1904015109)

BUSI 1311 Salesmanship  
Three semester hours ................................ (3-0)  
Principles of personal salesmanship including methods and tasks  
applicable to a wide variety of industries and commercial settings.  
Prerequisite: MRKG 1311. (5218045104)
BUSI 2301 Business Law
Three semester hours ........................................ (3-0)
Principles of law which form the legal framework for business activity. (2201015124)

BUSI 2302 Legal Environment of Business
Three semester hours ........................................ (3-0)
Role of law and government regulations in business and society. Includes legal reasoning, sources of law, social policy and legal institutions, and laws relating to antitrust protection, security regulations, consumer protection, environmental protection, worker health and safety, and employment discrimination. (2201015224)

BUSI 2304 Business Report Writing and Correspondence
Three semester hours ........................................ (3-0)
Theory and applications for technical reports and correspondence in business. (2311015212)

CBFM 1411 Building Maintenance I
Three semester hours ........................................ (2-3)
Basic principles of residential and commercial maintenance and repair. Emphasis on safety, materials, and tool identification.

CBFM 2317 Mechanical Maintenance
Three semester hours ........................................ (2-3)
General principles of mechanical and electrical systems as related to inspection, repair, and preventative maintenance of facility equipment.

CDEC 1313 Curriculum Resources for Early Childhood Programs
Three semester hours ........................................ (3-0)
A study of the fundamentals of curriculum design and implementation in developmentally appropriate programs for children.

CDEC 1321 The Infant and Toddler
Three semester hours ........................................ (3-0)
This course is a study of appropriate infant and toddler (birth to three years) programs, including an overview of development, quality care giving routines, appropriate environments, materials and activities, and teaching/guidance techniques.

CDEC 1356 Emergent Literacy for Early Childhood
Three semester hours ........................................ (3-0)
An exploration of principles, methods, and materials for teaching young children language and literacy through a play-based integrated curriculum.

CDEC 1358 Creative Arts for Early Childhood
Three semester hours ........................................ (3-0)
An exploration of principles, methods, and materials for teaching children music, movement, visual arts, and dramatic play through process-oriented experiences to support divergent thinking.

CDEC 1359 Children with Special Needs
Three semester hours ........................................ (3-0)
A survey of information regarding children with special needs including possible causes and characteristics of exceptionalities, intervention strategies, available resources, referral processes, the advocacy role, and legislative issues.

CDEC 2307 Math and Science for Early Childhood
Three semester hours ........................................ (3-0)
An exploration of principles, methods, and materials for teaching children math and science concepts through discovery and play.

CDEC 2326 Administration of Programs for Children I
Three semester hours ........................................ (3-0)
This course is a practical application of management procedures for early care and education programs, including a study of operating, supervising, and evaluating programs. Topics on philosophy, types of programs, policies, fiscal management, regulations, staffing, evaluation, and communication are included.

CDEC 2341 The School Age Child
Three semester hours ........................................ (3-0)
A study of appropriate programs for the school age child (5-13 years), including an overview of development, appropriate environments, materials, and activities and teaching/guidance techniques.

CDEC 2386 Internship - Child Development and Early Childhood or Provider Assistant
Three semester hours ........................................ (0-9)
A work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A learning plan is developed by the college and the employer. Prerequisite: This is a capstone course and should be taken in the students last semester. A background check may be required for this course.

CETT 1409 DC-AC Circuits
Four semester hours ........................................ (3-3)
Fundamentals of DC circuits and AC circuits operation including Ohm’s law, Kirchoff’s laws, networks, transformers, resonance, phasors, capacitive and inductive, and circuit analysis techniques.

CHEF 1205 Sanitation & Safety
Two semester hours ........................................ (2-0)
A study of personal cleanliness; sanitary practices in food preparation; causes, investigation, control of illness caused by food contamination (Hazard Analysis Critical Control Points); and work place safety standards.

CHEM 1405 Introductory Chemistry I
Four semester hours ........................................ (3-3)
Survey course introducing chemistry. Topics may include inorganic, organic, biochemical, food-physiological chemistry, and environmental/consumer chemistry. The laboratory will consist of inorganic preparation and qualitative analysis. Designed for non-science and health professions students. (4005015103)

CHEM 1411 General Chemistry I
Four semester hours ........................................ (3-3)
General principles, problems, fundamental laws, and theories. Course content provides a foundation for work in advanced chemistry and related sciences. Consideration is given to atomic theory, chemical bonding, radiochemistry, notation and nomenclature, thermodynamics, chemical equilibrium, and ionization. A special unit deals with the procurement and utilization of energy. The laboratory emphasizes quantitative measure and chemical and physical change as basic laboratory procedure. Prerequisite: One year of high school chemistry or CHEM 1405 or equivalent. (4005015203)
**CHEM 1412 General Chemistry II**  
Four semester hours ........................................ (3-3)  
Continuation of CHEM 1411. Topics including chemical kinetics;  
electrochemistry; solid, liquid and gas phases; and biochemistry  
are discussed. Laboratory work will include qualitative analysis  
for cations. Prerequisite: CHEM 1411. (4005015203)

**CHEM 1419 Introductory Organic Chemistry I**  
Four semester hours ........................................ (3-4)  
Survey course introducing organic chemistry. Not designed for  
students in science or pre-professional programs. For students  
of agriculture, health professions sciences, and home economics.  
Basic principles, nomenclature, principal reactions, and methods of  
synthesis of major classes or organic compounds will be covered.  
Prerequisite: Permission of instructor. (4005045103)

**CHEM 2423 Organic Chemistry I**  
Four semester hours ........................................ (3-4)  
Study of the properties and behavior of hydrocarbon compounds and  
their derivatives. Designed for students in science or pre-professional  
programs. Aliphatic hydrocarbons and their derivatives (halides,  
alkohols, ethers, aldehydes, ketones, acids, esters, and other acid  
derivatives). Structure and nomenclature, reactions, and preparation of  
the various compounds. Structures and reactions studied in the  
light of the electron theory and energy relations. Prerequisite: CHEM  
1412. (4005045203) (Offered only fall of even-numbered years.)

**CHEM 2425 Organic Chemistry II**  
Four semester hours ........................................ (3-4)  
Continuation of CHEM 2423. Aliphatic amines, carbohydrates,  
and the aromatic hydrocarbons and their derivatives. Along  
with CHEM 2423, fulfills the organic chemistry requirement for  
students interested in medicine, pharmacy, and medical technology.  
Prerequisite: CHEM 2423. (4005045203) (Offered only spring of  
odd-numbered years.)

**CJCR 1400 Basic Jail Course**  
Three semester hours ........................................ (3-2)  
Provides instruction in human relations, observation, evaluation  
of prisoners, booking procedures, classification, mug shots,  
fingerprinting, strip searches, meals, medical services, visitation,  
inmate’s rights and privileges, detention areas, key, knife and  
tool control, disturbances, riots, fire procedures, and release  
procedures. Taught in accordance with the current TCLEOSE  
instructor guides provided by the Commission for course #1005.

**CJCR 1304 Probation and Parole**  
Three semester hours ........................................ (3-0)  
Survey of the structure, organization, and operation of probation  
and parole services. Emphasis on applicable state statutes and  
administrative guidelines.

**CJCR 2325 Legal Aspects of Corrections**  
Three semester hours ........................................ (3-0)  
A study of the operation, management, and legal issues affecting  
corrections. Analysis of constitutional issues involving rights of the  
convicted as well as civil liability of correctional agencies and staff.

**CJLE 1111 Basic Firearms**  
One semester hour ............................................ (1-0)  
Firearm safety, cleaning and care techniques, proper shooting  
principles, and firearm proficiency.

**CJLE 1228 Introduction to Terrorism**  
Two semester hours ............................................ (2-0)  
Historical perspective and the current terrorism threat to a modern  
society. Major terrorist targets and tactics. Includes limits on military  
and civil authority. Emphasizes roles of local, state, and federal criminal  
justice agencies in mitigating the terrorist threat to the U.S.

**CJLE 1303 Basic Telecommunication Certification**  
Three semester hours ........................................ (3-0)  
Overview of law enforcement functions, history of public safety  
communications, federal laws regulating public safety communications,  
radio communication systems, radio operations, fire and EMS  
dispatch considerations, telephone operations, law enforcement  
management, police emergency situations, 9-1-1/computer aided  
dispatch, media relations, stress management, and crisis intervention.  
Required course for law enforcement telecommunication personnel  
prior to completion of 12 months of service.

**CJLE 1325 Criminal Justice Survey**  
Three semester hours ........................................ (3-0)  
An overview of criminal justice agencies.

**CJLE 2349 Basic Instructor**  
Three semester hours ........................................ (2-2)  
Adult learning process and the differences between adult and child  
learning, the role of the instructor, the three domains of learning and  
their impact on the learning process, factors affecting learning, the  
four phases of the teaching learning process, learning objectives and  
their proper use, lesson plan preparation, methods of instruction,  
techniques of developing tests and evaluations, and use of instructional  
media. Students successfully completing this course and who  
pass the TCLEOSE Instructor licensing examination will be eligible for  
the TCLEOSE Instructor license.

**CJLE 2420 Texas Peace Officer Procedures**  
Four semester hours ........................................ (3-4)  
Study of the techniques and procedures used by police officers on  
patrol. Includes controlled substance identification, handling abnormal  
persons, traffic collision, investigation, note taking and report writing,  
vehicle operation, traffic direction, crowd control, and jail operations.  
This is one of three courses that may be offered by colleges approved  
by TCLEOSE to offer the academic licensing eligibility program.  
Students who complete the 7 TCLEOSE approved academic CJRI  
courses and the 3 sequence courses may be certified to sit for the  
TCLEOSE licensing exam. This course is 1/3 of the external learning  
experience for Law Enforcement majors. Prerequisite: The 7 TCLEOSE  
approved academic CJRI courses and background clearance is  
required prior to registering for this course.
CJLE 2421 Texas Peace Officer Law
Four Semester Hours ...........................................(3-4)
Study of laws directly related to police field work. Topics include
Texas Transportation Code, intoxicated driver; Texas Penal Code,
elements of crimes, Texas Family Code, Texas Alcoholic Beverage
Code, and civil liability. This is one of three courses that may be
offered by colleges approved by TCLEOSE to offer the academic
licensing eligibility program. Students who complete the 7
TCLEOSE approved academic CRIJ courses and the 3 sequence
courses may be certified to sit for the TCLEOSE licensing exam.
This course is 1/3 of the external learning experience for Law
Enforcement majors. Prerequisite: The 7 TCLEOSE approved
academic CRIJ courses and background clearance is required
prior to registering for this course.

CJLE 2522 Texas Peace Officer Skills
Five Semester Hours ............................................(3-5)
Requires the demonstration and practice of the skills of a police officer
including patrol, driving, traffic stop skills, use of force, mechanics of
arrest, firearm safety, and emergency medical care. This is one of three
courses that may be offered by colleges approved by TCLEOSE to offer
the academic licensing eligibility program. Students who complete the 7
TCLEOSE approved academic CRIJ courses and the 3 sequence
courses may be certified to sit for the TCLEOSE licensing exam. This course is
1/3 of the external learning experience for Law Enforcement majors.
Prerequisite: The 7 TCLEOSE approved academic CRIJ courses and
background clearance is required prior to registering for this course.

CJSA 1302 Private Security Officer Training
impact of the code on procedures and policies, judicial interpretation of
statutes and related procedures, and rules and regulations. Satisfies the
requirements for Commissioned Security Officer Skill Certification.

CJSA 1348 Ethics in Criminal Justice
Three semester hours ............................................. (3-0)
A study of ethical thought and issues facing the criminal justice
professional. Topics include constitutional ethics, codes of conduct,
and standards of conduct.

CJSA 1351 Use of Force
Three semester hours ............................................. (3-0)
Study of the use of force including introduction to and statutory
authority for the use of force, force options, deadly force, and
related legal issues. Fulfills the TCLEOSE Use of Force Intermediate
Certificate requirement.

CJSA 1392 Special Topics in Criminal Justice Studies
Three semester hours ............................................. (3-0)
Topics address recently identified current events, skills,
knowledge, and/or attitudes and behaviors pertinent to the
technology or occupation and relevant to the professional
development of the student.

CJSA 1393 Special Topics in Criminal Justice Studies
Three semester hours ............................................. (3-0)
Topics address recently identified current events, skills,
knowledge, and/or attitudes and behaviors pertinent to the
technology or occupation and relevant to the professional
development of the student.

CJSA 2331 Child Abuse, Prevention, and Investigation
Three semester hours ............................................. (3-0)
Topics include forms of child abuse and neglect, the traits of
typical abusers, and investigative strategies.

CJSA 2334 Contemporary Issues in Criminal Justice
Three semester hours ............................................. (3-0)
Series of lectures and class participation exercises presenting
selected topics currently confronting criminal justice personnel
and the public they serve. This course will be the capstone
course for the Law Enforcement program students, consisting
of a comprehensive review of the elements of TCLEOSE Basic
Peace Officer Examination. Successful completion of this course
is required prior to taking the TCLEOSE exam. The capstone
experience must occur during the students last semester and
requires the approval of the program director.

CJSA 2388 Internship - Criminal Justice Studies
Three semester hours .............................................(1-9)
A work-based learning experience that enables the student
to apply specialized occupational theory, skills, and concepts.
A learning plan is developed by the college and the employer.
Prerequisite: This is a capstone course and should be taken in
the student’s last semester of their educational program.

CNBT 1305 Residential and Light Blueprint Reading
Three semester hours .............................................(2-3)
Blueprint reading covering the theory of projection,
architectural and engineering symbols, relationship of views, and
measuring with emphasis on residential and light commercial
construction.

COMM 1129 News Publications I
One semester hour .............................................. (0-3)
Work on the staff of one of the college publications. Students
are required to work on the staff of at least one of the official
college publications for prescribed periods under faculty
supervision. (0904015406)

COMM 1130 News Publications II
One semester hour .............................................. (0-3)
Further work on college publications with increased
responsibility. Prerequisites: COMM 1129. (0904015406)

COMM 1307 Introduction to Mass Communications
Three semester hours .............................................(3-0)
Study of the media by which entertainment and information messages
are delivered. Includes an overview of the traditional mass media: their
functions, structures, supports, and influences. (0901025106)

COMM 1316 News Photography I
Three semester hours .............................................(2-2)
Problems and practices of photography for newspapers. Includes
instruction in camera and equipment operation and maintenance,
film and plate developing, and printing media. (0904015506)
COMM 1317 News Photography II
Three semester hours ........................................... (2-2)
Continuation of COMM 1316. Theory and practice of exposure, development, printing and enlargement of black and white photographs. Introduction to the various kinds of lenses, cameras and films. Projects include portraiture, sports, action, feature, available light and landscape photographs. Prerequisite: COMM 1316 or consent of instructor. (0904015506)

COMM 2120 Practicum in Electronic Media
One semester hour ................................................... (0-4)
Lecture and laboratory instruction and participation. (0907015306)

COMM 2129 News Publications III
One semester hour ................................................... (0-3)
Further work on college publications with increased responsibility. Prerequisite: COMM 1130. (0904015406)

COMM 2130 News Publications IV
One semester hour ................................................... (0-3)
Further work on college publications with increased responsibility. Prerequisite: COMM 2129. (0904015406)

COMM 2309 News Editing and Copy Reading I
Three semester hours ............................................... (3-0)
Copy editing for errors of fact and interpretation of English. Includes newspaper style, headline writing, proofreading, and page makeup. (0904015306)

COMM 2311 News Gathering and Writing I
Three semester hours ............................................... (2-4)
Fundamentals of writing news for the mass media. Includes instruction in methods and techniques for gathering, processing, and delivering news in a professional manner. (0904015706)

COMM 2327 Principles of Advertising
Three semester hours ............................................... (3-0)
Fundamentals of advertising including marketing theory and strategy, copy writing, design, and selection of media. (0909035106)

COSC 1336 Programming Fundamentals I
Three semester hours ............................................... (3-1)
Introduces the fundamental concepts of structured programming. Topics include software development methodology, data types, control structures, functions, arrays, and the mechanics of running, testing, and debugging. This course assumes computer literacy. Prerequisite or corequisite: BCIS/COSC Elective or ITSC 1309. (1102015507)

COSC 1320 “C” Programming I
Three semester hours ............................................... (3-1)
Introduction to computer programming in the “C” programming language. Emphasis on the fundamentals of structured design, development, testing, implementation, and documentation. Includes coverage of syntax, data and file structures, input/output devices, and disks/files. Prerequisite: BCIS/COSC Elective or ITSC 1309 and corequisite: ITSE 1302 or COSC 1336. (1102015207)

CPMT 1304 Microcomputer System Software
Three semester hours ............................................... (3-1)
Skill development in the installation, configuration, maintenance and troubleshooting of system software in microcomputers. Topics may include operating systems, utility software and other software affecting the basic operation of a microcomputer system.

CPMT 1311 Introduction to Computer Maintenance
Three semester hours ............................................... (3-1)
An introduction to the installation, configuration, and maintenance of a microcomputer system. This course assumes basic computer knowledge.

CPMT 1345 Computer Systems Maintenance
Three semester hours ............................................... (3-1)
Examination of the functions of the components within a computer system. Development of skills in the use of test equipment and maintenance aids. Prerequisite: CPMT 1311.

CPMT 1347 Computer System Peripherals
Three semester hours ............................................... (3-1)
Theory and practices involved in computer peripherals, operation and maintenance techniques, and the use of specialized test equipment. Prerequisite CPMT 1311.

CPMT 2333 Computer Integration
Three semester hours ............................................... (3-1)
An advanced course in integration of hardware, software, and applications. Customizing of computer systems for specific applications in engineering, multimedia, or data acquisition. Prerequisite: CPMT 1311 and ITNW 1325 or ITCC 1302.

CPMT 2345 Computer System Troubleshooting
Three semester hours ............................................... (3-1)
Principles and practices involved in computer system troubleshooting techniques and repair procedures including advanced diagnostic test programs and the use of specialized test equipment. Prerequisite: CPMT 1311 and ITSC 1305.

CPMT 2350 Industry Certification Preparation
Three semester hours ............................................... (3-0)
An overview of the objectives for industry specific certification exam(s). This course should be taken during the end of a degree or certificate program.

CPMT 2449 Advanced Computer Networking Technology
Four semester hours ............................................... (3-3)
An in-depth study of network technology with emphasis on network operating systems, network connectivity, hardware, and software. Mastery of implementation, troubleshooting, and maintenance of LAN and/or WAN network environments. Prerequisite: ITNW 1325.

CRIJ 1301 Introduction to Criminal Justice
Three semester hours ............................................... (3-0)
History, philosophy, and ethical considerations of criminal justice; the nature and impact of crime; and an overview of the criminal justice system, including law enforcement and court procedures. (4301045124)
CRIJ 1306 Court Systems and Practices  
Three semester hours  .................................................. (3-0)  
Study of the judiciary in the American criminal justice system and the adjudication processes and procedures. (2201015424)

CRIJ 1307 Crime in America  
Three semester hours  .................................................. (3-0)  
American crime problems in historical perspective, social and public policy factors affecting crime, impact and crime trends, social characteristics of specific crimes and prevention of crime. (4504015225)

CRIJ 1310 Fundamentals of Criminal Law  
Three semester hours  .................................................. (3-0)  
Study of criminal law, its philosophical and historical development, major definitions and concepts, classification and elements of crime, penalties using Texas statutes as illustrations, and criminal responsibility. (2201015324)

CRIJ 1313 Juvenile Justice System  
Three semester hours  .................................................. (3-0)  
A study of the juvenile justice process to include specialized juvenile law, role of the juvenile law, role of the juvenile courts, role of police agencies, role of correctional agencies, and theories concerning delinquency. (4301045224)

CRIJ 2301 Community Resources in Corrections  
Three semester hours  .................................................. (3-0)  
An introductory study of the role of the community in corrections; community programs for adults and juveniles; administration of community programs; legal issues; future trends in community treatment. (4301045324)

CRIJ 2313 Correctional Systems and Practices  
Three semester hours  .................................................. (3-0)  
Corrections in the criminal justice system; organization of correctional systems; correctional role; institutional operations; alternatives to institutionalization; treatment and rehabilitation; current and future issues. (4301045424)

CRIJ 2314 Criminal Investigation  
Three semester hours  .................................................. (3-1)  
Investigative theory; collection and preservation of evidence; sources of information; interview and interrogation; uses of forensic sciences; case and trial preparation. (4301045524)

CRIJ 2323 Legal Aspects of Law Enforcement  
Three semester hours  .................................................. (3-0)  
Police authority; responsibilities; constitutional constraints; laws of arrest, search, and seizure; police liability. (4301045624)

CRIJ 2328 Police Systems and Practices  
Three semester hours  .................................................. (3-0)  
The police profession, organization of law enforcement systems, the police role, police discretion, ethics, police-community interaction, current and future issue. (4301045724)

CRPT 1329 Introduction to Carpentry  
Three semester hours  .................................................. (3-1)  
An introduction to the carpentry trade including safety, tools, equipment, terminology, and methods.

CSME 1401 Orientation to Cosmetology  
Four semester hours  .................................................. (2-6)  
(128 hours)  
An overview of the skills and knowledge necessary for the field of cosmetology. The student will exhibit comprehension of professional ethics, demonstrate sanitation and safety, and explain the rules and regulations of the institution, department, and state.

CSME 1405 Fundamentals of Cosmetology  
Four semester hours  .................................................. (2-6)  
(128 hours)  
A course in the basic fundamentals of cosmetology. Topics include service preparation, manicure, facial, chemical services, shampoo, haircut, wet styling, comb out, and salon management.

CSME 1420 Orientation to Facial Specialist  
Four semester hours  .................................................. (2-8)  
(160 hours)  
An overview of the skills and knowledge necessary for the field of facials and skin care. The student will explain professional ethics, demonstrate sanitation and safety, and state the rules and regulations of the institution, department, and state.

CSME 1430 Orientation to Nail Technology  
Four semester hours  .................................................. (2-8)  
(160 hours)  
An overview of the fundamental skills and knowledge necessary for the field of nail technology. The student will exhibit comprehension of professional ethics, demonstrate sanitation and sterilization, and reiterate the rules and regulations of the institution, department, and state.

CSME 1434 Cosmetology Instructor I  
Four semester hours  .................................................. (2-6)  
(128 hours)  
The fundamentals of instruction of cosmetology students. The student will develop an understanding of classroom/clinic management; design teaching methodologies, and design and implement lesson plans. Prerequisite: CSME 1435.

CSME 1435 Orientation to the Instruction of Cosmetology  
Four semester hours  .................................................. (2-6)  
(128 hours)  
An overview of the skills and knowledge necessary for the instruction of cosmetology students. The student will develop an understanding of the rules and regulations of the school, department, and state; demonstrate an understanding of teaching methodologies, and exhibit an understanding of lesson plan development. Prerequisite: Must be a licensed cosmetologist.

CSME 1441 Principles of Nail Technology II  
Four semester hours  .................................................. (2-8)  
(160 hours)  
Advanced concepts and principles of nail technology. Topics include advanced instruction in anatomy, physiology, theory, and related skills of nail technology. Prerequisite: CSME 1531.

CSME 1443 Manicuring and Related Theory  
Four semester hours  .................................................. (2-6)  
(128 hours)  
Presentation of the theory and practice of nail technology. Topics include terminology, application, and workplace competencies related to nail technology.
CSME 1445 Principles of Facial/Esthetic Technology II  
Four semester hours ................................................. (2-8)  
(160 hours) 
Advanced concepts and principles in skin care and other related 
technologies. Topics include advanced instruction in anatomy 
physiology, theory, and related skills of facial and esthetic technology. 
The student will describe the operation and demonstrate the use 
of esthetic machines, identify and explain the chemical composition 
of products, perform an advanced application of skin care and 
cosmetics, and remove superfluous hair. Prerequisite: CSME 1521.

CSME 1447 Principles of Skin Care/Facials and Related 
Theory  
Four semester hours ................................................. (2-8)  
(160 hours) 
In-depth coverage of the theory and practice of skin care, facials, 
and cosmetics.

CSME 1451 Artistry of Hair, Theory and Practice  
Four semester hours ................................................. (2-8)  
(160 hours) 
Instruction in the artistry of hair design. Topics include theory, 
application, and terminology of hair design. The student will identify 
the basic anatomy and explain the basic physiology of the skin, and demonstrate 
the proper application of hair design. Prerequisite: CSME 1405.

CSME 1453 Chemical Reformation and Related Theory  
Four semester hours ................................................. (2-8)  
(160 hours) 
Presentation of the theory and practice of chemical reformation. 
Topics include terminology, application, and workplace competencies 
related to chemical reformation. 
Prerequisite: CSME 1405.

CSME 1451 Principles of Facial/Esthetic Technology I  
Five semester hours .................................................. (3-6)  
(144 hours) 
An introduction to the principles of facial and esthetic technology. 
Topics include anatomy, physiology, theory, and related skills of facial 
and esthetic technology. The student will identify the basic anatomy 
and explain the basic physiology of the skin, and demonstrate the 
related skills of skin care and cosmetics. Prerequisite: CSME 1420.

CSME 1531 Principles of Nail Technology I  
Five semester hours .................................................. (3-6)  
(144 hours) 
A course in the principles of nail technology. Topics include anatomy, 
physiology, theory, and related skills of nail technology. The student will 
identify the basic anatomy and explain the basic physiology of the hands, arms, and feet, and demonstrate the related skills of 
manicuring and pedicuring. Prerequisite: CSME 1430.

CSME 2310 Intermediate Haircutting and Related Theory  
Three semester hours ................................................. (1-8)  
(144 hours) 
Advanced concepts and practice of hair cutting. Topics include 
hairstyles utilizing scissors, razors, and/or clippers. The student will 
exhibit workplace competencies and identify terminology related 
to hair cutting and finishing techniques, and demonstrate use 
of implements and various sectioning, hair cutting, and finishing 
techniques. Prerequisite: CSME 1405.

CSME 2343 Salon Development  
Three semester hours ................................................. (2-4)  
(96 hours) 
Exploration of salon development. Topics include professional ethics 
and goals, salon operation, and record keeping. The student will 
create a salon portfolio, demonstrate an understanding of salon 
operations, and demonstrate organizational skills related to salon 
management.

CSME 2401 The Principles of Hair Coloring and Related 
Theory  
Four semester hours ................................................. (2-8)  
(160 hours) 
Presentation of the theory and practice of hair color and 
chemistry. Topics include terminology, application, and workplace 
competencies related to hair color and chemistry. Prerequisite: 
CSME 1453.

CSME 2414 Cosmetology Instructor II  
Four semester hours ................................................. (2-6)  
(128 hours) 
A continuation of the fundamentals of instruction of cosmetology students. The student will demonstrate proper 
classroom/clinic management and implement teaching 
methodologies and lesson plans. Prerequisite: CSME 1434.

CSME 2415 Cosmetology Instructor III  
Four semester hours ................................................. (2-6)  
(128 hours) 
Presentation of assignments and evaluation techniques for a cosmetology program. The student will develop an understanding 
of the proper assessment and evaluation techniques in a cosmetology program and design an evaluation tool for a cosmetology program. Prerequisite: CSME 2414.

CSME 2439 Advanced Hair Design  
Four semester hours ................................................. (2-8)  
(160 hours) 
Advanced concepts in the theory and practice of hair design. 
The student will identify terminology related to hair design, 
demonstrate the proper techniques related to hair design, and exhibit workplace competencies in hair design. Prerequisite: 
CSME 1451.

CSME 2441 Preparation for State Licensing Examination  
Four semester hours ................................................. (2-6)  
(128 hours) 
Preparation for the Texas Cosmetology Commission Operator 
Examination. Prerequisite: CSME 2439.

CSME 2444 Cosmetology Instructor IV  
Four semester hours ................................................. (2-8)  
(160 hours) 
Advanced concepts of instruction in a cosmetology program. 
Topics include demonstration and implementation of advanced 
evaluation and assessment techniques. 
Prerequisite: CSME 2415.
explained. Addiction issues related to diverse populations are presented.

Competencies and requirements for licensure in Texas are addressed. Regarding intervention, treatment, education, and prevention are discussed for family, community, and society. Response alternatives for causes and consequences of addiction as they relate to the individual are covered.

DAAC 1319 Introduction to Alcohol and Other Drug Addictions.
Three semester hours ................................................ (3-0)
Causes and consequences of addiction as they relate to the individual family, community, and society are discussed. Response alternatives regarding intervention, treatment, education, and prevention are reviewed. Competencies and requirements for licensure in Texas are explained. Addiction issues related to diverse populations are presented.

DAAC 2307 Addicted Family Intervention
Three semester hours ................................................. (3-0)
The family as a dynamic system focusing on the effects of addiction on family roles, rules, and behavior patterns. Includes the effects of mood-altering substances, behaviors, and therapeutic alternatives as they relate to the family from a multicultural and transgenerational perspective.

DAAC 2364 Practicum - Alcohol/Drug Abuse Counseling
Three semester hours ................................................. (0-21)
Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. A practicum may be paid or unpaid learning experience. Prerequisite: To be taken in last semester of study and permission of Program Director.

DANC 1146 Modern Dance
Three semester hours ................................................. (0-3)
Instruction and participation in modern dance technique. Students must provide dance shoes.

DANC 2211 Dance Repertory II
Three semester hours ................................................. (0-3)
A practicum in dance as a performing art. Students must provide dance shoes.

DFTG 1305 Technical Drafting
Three semester hours ................................................. (3-1)
Introduction to the principles of drafting to include terminology and fundamentals, including size and shape descriptions, projection methods, geometric construction, sections, auxiliary views, and reproduction processes.

DFTG 1309 Basic Computer-Aided Drafting
Three semester hours ................................................. (3-1)
Introduction to basic computer-aided drafting. Emphasis is placed on drawing setup; creating and modifying geometry; storing and retrieving predefined shapes; placing, rotating, and scaling objects, adding text and dimensions, using layers, coordinating systems; as well as input and output devices.

DFTG 1313 Drafting for Specific Occupations
Three semester hours ................................................. (3-1)
Discussion of theory and practice with drafting methods and the terminology required for non-drafting majors to prepare working drawings in their occupational fields.

DFTG 1317 Architectural Drafting-Residential
Three semester hours ................................................. (2-3)
Architectural drafting procedures, practices, and symbols, including preparation of detailed working drawings for residential structure with emphasis on light frame construction methods.

DFTG 1325 Blueprint Reading and Sketching
Three semester hours ................................................. (2-4)
An introduction to reading and interpreting the working drawings for manufactured products and associated tooling. Use of sketching techniques to create pictorial and multiple-view drawings of manufactured parts.
DFTG 1333 Mechanical Drafting
Three semester hours .................................................(2-4)
Intermediate course covering detail drawings with proper dimensioning and tolerances, use of sectioning techniques, common fasteners, isometrics and oblique drawings, including bill of materials.

DFTG 2300 Intermediate Architectural Drafting - Residential
Three semester hours ....................................................(2-3)
Continued application of principles and practices used in residential construction. Suggested Prerequisite: DFTG 1317

DFTG 2302 Machine Drafting
Three semester hours ....................................................(2-3)
Production of detail and assembly drawing of machines, threads, gears, cams, tolerances and limit dimensioning, surface finishes, and precision drawings.

DFTG 2319 Intermediate Computer-Aided Drafting
Three semester hours ....................................................(3-1)
Continuation of practices and techniques used in basic computer-aided drafting emphasizing batched files, scripted files, customized program menus, and extracted attributes. Students are introduced to three-dimensional drafting.

DFTG 2321 Topographic Drafting
Three semester hours ....................................................(2-4)
Map drafting. Emphasis is given to plotting of surveyor's field notes, plotting elevations, contour drawings, plan and profiles, and laying out traverse.

DFTG 2323 Pipe Drafting
Three semester hours ....................................................(2-4)
A study of pipe fittings, symbols, specifications and their applications to a piping process system. This application will be demonstrated through the creation of symbols and their usage in flow diagrams, plans, elevations, and isometrics.

DFTG 2332 Advanced Computer-Aided Drafting
Three semester hours ....................................................(3-1)
Exploration of the use of system customizing for drawing production enhancement and the principles of data manipulation. Presentation of advanced applications, such as three-dimensional objects creation and linking graphic entities to external non-graphic data is also included.

DFTG 2340 Solid Modeling/Design
Three semester hours ....................................................(2-4)
A computer-aided modeling course. The course emphasizes the development of three-dimensional drawings and models from engineering sketches and orthographic drawings and utilization of three-dimensional models in design work.

DFTG 2386 Internship-Drafting
Three semester hours ....................................................(0-9)
A work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A learning plan is developed by the college and the employer. Prerequisite: This is a capstone course and should be taken in the student's last semester.

DFTG 2417 Descriptive Geometry
Four semester hours .....................................................(3-3)
An examination of the graphical solution to problems involving points, lines, and planes in space.

DHYG 1207 General and Dental Nutrition
Two semester hours .....................................................(2-0)
A study of general nutrition and nutritional biochemistry with emphasis on the effects of nutrition and dental health. Analysis of diet and application of counseling strategies to assist the patient in attaining and maintaining optimum oral health are stressed.

DHYG 1211 Periodontology
Two semester hours .....................................................(2-0)
Study of normal and diseased periodontium to include the structural, functional, and environmental factors. Emphasis on etiology, pathology, treatment modalities, and therapeutic and preventive periodontics in a contemporary private practice setting.

DHYG 1215 Community Dentistry
Two semester hours .....................................................(2-1)
Study of the principles and concepts of community public health and dental health education with an emphasis on community assessment, educational planning, implementation, and evaluation. Laboratory emphasizes methods and materials used in teaching dental health education in various community settings.

DHYG 1223 Dental Hygiene Practice
Two semester hours .....................................................(2-0)
Examination of the dental hygienist's role in practice settings including dental office management, employment consideration, résumé preparation, and job interviewing. Emphasis on the laws governing the practice of dentistry and dental hygiene and the ethical standards established by the dental hygiene profession.

DHYG 1227 Preventive Dental Hygiene Care
Two semester hours .....................................................(2-0)
Study of the dental hygienist in the dental health care system and the basic concepts of disease prevention and health promotion. Communication and behavior modification skills are emphasized to facilitate the role of the dental hygienist as an educator.

DHYG 1235 Pharmacology for the Dental Hygienist
Two semester hours .....................................................(2-0)
A study of the classes of drugs and their uses, actions, interactions, side effects, contraindications, and oral manifestations with emphasis on dental applications.

DHYG 1261 Clinical I - Dental Hygienist
Two semester hours .....................................................(0-12)
A method of instruction providing detailed education, training, and work-based experience and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Course may be repeated if topics and learning outcomes vary.

DHYG 1291 Special Topics in Dental Hygienist: Dental Health and Educational Methods
Three semester hours ..................................................(1-3)
Planning and implementation of dental health education with emphasis on educational principles, motivation, communication, preparation of audio-visual and visual aids, preparation of objectives and lesson plans, and the evaluation of education. Prerequisite: DHYG 1215.
DHYG 1301 Orofacial Anatomy, Histology & Embryology  
Three semester hours ..............................................(2-2)  
A study of histology and embryology of oral tissues, gross anatomy of the head and neck, tooth morphology, and individual tooth identification.

DHYG 1304 Dental Radiology  
Three semester hours ..............................................(2-3)  

DHYG 1319 Dental Materials  
Three semester hours ..............................................(2-4)  
Study of dental materials including the physical and chemical properties and application of the various materials used in dentistry. Student experiences include manipulation of dental materials in the lab setting.

DHYG 1331 Preclinical Dental Hygiene  
Four semester hours ................................................(1-8)  
Foundational knowledge for performing clinical skills on patients. Emphasis on principles, procedures, and professionalism for performing comprehensive oral prophylaxis.

DHYG 1339 General and Oral Pathology  
Three semester hours ..............................................(3-0)  
General study of disturbances in human body development, diseases of the body, and disease prevention measures. Emphasis on the oral cavity and associated structures.

DHYG 2201 Contemporary Dental Hygiene Care I  
Two semester hours ..................................................(2-0)  
Introduction to dental hygiene care for the medically or dentally compromised patient. Emphasizes supplemental instrumentation techniques.

DHYG 2231 Contemporary Dental Hygiene Care II  
Two semester hours ..................................................(2-0)  
A continuation of dental hygiene care for the medically or dentally compromised patient. Emphasizes advanced instrumentation techniques.

DHYG 2361 Clinical II - Dental Hygienist  
Three semester hours ...............................................(0-16)  
A method of instruction providing detailed education, training, and work-based experience and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Course may be repeated if topics and learning outcomes vary.

DHYG 2362 Clinical III - Dental Hygienist  
Three semester hours ...............................................(0-16)  
A method of instruction providing detailed education, training, and work-based experience and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Course may be repeated if topics and learning outcomes vary.

DRAM 1120, 1121, 2120, 2121 Theater Practicum I, II, III, IV  
One semester hour each .............................................(0-3)  
Laboratory course for students participating in departmental productions. Experience is gained in all phases of Theater with emphasis on techniques and procedures. Open to all students. (5005065326)

DRAM 1310 Introduction to Theater  
Three semester hours ..............................................(3-0)  
Survey of all phases of theater including its history, dramatic works, stage techniques, production procedures, and relation to the fine arts. Participation in major productions may be required. (5005015126)

DRAM 1320 Theater Practicum I - Rehearsal and Performance I  
Three semester hours ..............................................(0-6)  
Laboratory course for students participating in departmental productions. Experience is gained in all phases of Theater with emphasis on techniques and procedures. (5005015226)

DRAM 1321 Theater Practicum II - Rehearsal and Performance II  
Three semester hours ..............................................(0-6)  
Laboratory course for students participating in departmental productions. Experience is gained in all phases of Theater with emphasis on techniques and procedures. Stage craft, stage properties, and makeup are covered in this course. (5005065326)

DRAM 1323 Basic Theater Practice  
Three semester hours ..............................................(0-6)  
Practicum in theater with emphasis on technique and procedures with experience gained in play production. (5005065326)

DRAM 1330 Stagecraft I  
Three semester hours ..............................................(2-3)  
Study and application of visual aesthetics of design which may include the physical theater, scenery construction and painting, properties, lighting, costume, make-up, and backstage organization. (5005025126)

DRAM 1341 Make-Up  
Three semester hours ..............................................(3-0)  
Design and execution of make-up for the purpose of developing believable characters. Includes a discussion of basic make-up principles and practical experience of make-up application. (5005025226)

DRAM 1351 Acting I  
Three semester hours ..............................................(2-4)  
Development of basic skills and techniques of acting including increased sensory awareness, ensemble performing, character analysis, and script analysis. Emphasis on the mechanics of voice, body, emotion, and analysis as tools for the actor. (5005065126)

DRAM 1352 Acting II  
Three semester hours ..............................................(2-4)  
Development of basic skills and techniques of acting including increased sensory awareness, ensemble performing, character analysis, and script analysis. Emphasis on the mechanics of voice, body, emotion, and analysis as tools for the actor. (5005065126)

DRAM 2336 Voice for the Theater  
Three semester hours ..............................................(3-0)  
Application of the performer’s use of the voice as a creative instrument of effective communication. Encourages an awareness of the need for vocal proficiency and employs techniques designed to improve the performer’s speaking abilities. (5005065226)
from the theoretical models they have learned. Students developing these skills should be able to continually draw academic programs and become effective and efficient learners. to integrate and apply the learning skills discussed across their own weaknesses as strategic learners. Students are ultimately expected of strategic learning, cognition, and motivation serve as the underlying the production, distribution, and exchange of goods and services including the utilization of resources, analysis of value and prices, national income analysis, fiscal policies, monetary and banking theory and policy, distribution of income, labor problems, international economics, and economics systems. Attention given to the application of economic principles to economic problems.

ECON 2302 Principles of Microeconomics
Three semester hours ...........................................(3-0)
History, development, and application of microeconomic theory underlying the production, distribution, and exchange of goods and services including the utilization of resources, analysis of value and prices, national income analysis, fiscal policies, monetary and banking theory and policy, distribution of income, labor problems, international economics, and economics systems. Attention given to the application of economic principles to economic problems.

EDUC 1301 Introduction to the Teaching Profession
Three semester hours ...........................................(1-2)
An enriched, integrated pre-service course and content experience that 1) provides active recruitment and institutional support of students interested in a teaching career, especially in high need fields; 2) provides students with opportunities to participate in early field observations at all levels of P-12 schools with varied and diverse student populations; 3) provides students with support from college and school faculty, preferably in small cohort groups, for the purpose of introduction to and analysis of the culture of schooling and classrooms; 4) course content should be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards; 5) course must include a minimum of 16 contact hours of field experience in P-12 classrooms.

ELECT 1303 Introduction to Telecommunications
Three semester hours .............................................(3-0)
An overview of the telecommunications industry. Topics include the history of the telecommunications industry, terminology, rules and regulations, and industry standards and protocols.

EDUC 2301 Introduction to Special Populations
Three semester hours .............................................(1-2)
An enriched, integrated pre-service course and content experience that 1) provides an overview of schooling and classrooms from the perspectives of language, gender, socioeconomic status, ethnic and academic diversity, and equity with an emphasis on factors that facilitate learning; 2) provides students with opportunities to participate in early field observations of P-12 special populations; 3) course content should be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards; 4) course must include a minimum of 16 contact hours of field experience in P-12 classrooms with special populations. Prerequisite: EDUC 1301

ECEE 1303 Introduction to Telecommunications
Four semester hours .............................................(2-4)
An overview of the telecommunications industry. Topics include the history of the telecommunications industry, terminology, rules and regulations, and industry standards and protocols.

ELET 1440 Telecommunications Transmission Media
Four semester hours .............................................(2-4)
Fundamentals of telecommunications media, including installation, maintenance, and troubleshooting. Topics address media characteristics and connectorization.

ELMT 1405 Basic Fluid Power
Four semester hours .............................................(2-4)
Basic fluid power course covering vacuum systems, pneumatic and hydraulic systems, fluid power symbols, operating theory, components, and basic electrical and manual controls.

ELPT 1329 Residential Wiring
Three semester hours .............................................(3-1)
Wiring methods for single family and multi-family dwellings. Includes load calculations, service entrance sizing, proper grounding techniques, and associated safety procedures.

ELPT 1419 Fundamentals of Electricity I
Four semester hours .............................................(2-4)
Introduction to basic direct current (DC) theory including electron theory and direct current applications.
ELPT 1445 Commercial Wiring
Four semester hours ...........................................(2-4)
Commercial wiring methods. Includes overcurrent protection, raceway panel board installation, proper grounding techniques, and associated safety procedures.

EMSP 1160 Clinical - Emergency Medical Technology/Technician
One semester hour .............................................(0-3)
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. A method of instruction providing detailed education, training and work-based experience, and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Course may be repeated if topics and learning outcomes vary. Corequisite: EMSP 1161. Prerequisite: Successful completion of criminal background clearance.

EMSP 1161 Clinical - Emergency Medical Technology/Technician
One semester hour .............................................(0-3)
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. A method of instruction providing detailed education, training and work-based experience, and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Course may be repeated if topics and learning outcomes vary. Corequisite: EMSP 1356. Prerequisite: Successful completion of criminal background clearance.

EMSP 1355 Trauma Management
Three semester hours ...........................................(2-2)
A detailed study of the knowledge and skills necessary to reach competence in the assessment and management of patients with traumatic injuries. Prerequisite or corequisite: EMSP 1438. Corequisite: EMSP 1162.

EMSP 1356 Patient Assessment and Airway Management
Three semester hours ...........................................(2-2)
A detailed study of the knowledge and skills required to reach competence in performing patient assessment and airway management. Prerequisite or corequisite: EMSP 1438. Corequisite: EMSP 1161.

EMSP 1438 Introduction to Advanced Practice
Four semester hours .............................................(3-2)
An exploration of the foundations necessary for mastery of the advanced topics of clinical practice out of the hospital. Prerequisite: EMSP 1501.

EMSP 1501 Emergency Medical Technician - Basic
Five semester hours .............................................(4-4)
Introduction to the level of Emergency Medical Technician (EMT) - Basic. Includes all the skills necessary to provide emergency medical care at a basic life support level with an ambulance service or other specialized services. Prerequisite: Current American Heart Association Health Care Provider. Corequisite: EMSP 1160.

EMSP 2160 Clinical - Emergency Medical Technology/Technician
One semester hours .............................................(0-3)
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A method of instruction providing detailed education, training and work-based experience, and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Course may be repeated if topics and learning outcomes vary. Corequisite: EMSP 2444. Prerequisite: Successful completion of criminal background clearance.

EMSP 2161 Clinical - Emergency Medical Technology/Technician
One semester hours .............................................(0-3)
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A method of instruction providing detailed education, training and work-based experience, and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Course may be repeated if topics and learning outcomes vary. Corequisite: EMSP 2434. Prerequisite: Successful completion of criminal background clearance.

EMSP 2243 Assessment Based Management
Two semester hours .............................................(1-2)
The capstone course of the EMSP program. Designed to provide for teaching and evaluating comprehensive, assessment-based patient care management.
EMSP 2248 Emergency Pharmacology
Two semester hours ...........................................(2-1)
A comprehensive course covering all aspects of the utilization of medications in treating emergency situations. Course is designed to compliment Cardiology, Special Populations, and Medical Emergency courses.

EMSP 2330 Special Populations
Three semester hours ...........................................(3-1)
A detailed study of the knowledge and skills necessary to reach competence in the assessment and management of ill or injured patients in nontraditional populations.

EMSP 2438 EMS Operations
Four semester hours ............................................(4-0)
A detailed study of the knowledge and skills necessary to reach competence to safely manage the scene of an emergency.

EMSP 2434 Medical Emergencies
Four semester hours ............................................(3-2)
A detailed study of the knowledge and skills necessary to reach competence in the assessment and management of patients with medical emergencies. Corequisite: EMSP 2161.

EMSP 2444 Cardiology
Four semester hours ............................................(3-2)
A detailed study of the knowledge and skills necessary to reach competence in the assessment and management of patients with cardiac emergencies. Corequisite: EMSP 2160.

ENGL 0301 Success in College Reading I
Three semester hours ............................................(3-1)
Practice in developing the skills necessary for competence in reading and study. Work in perceptual training, reading techniques, reading lessons, and vocabulary places primary emphasis improved comprehension. Includes a one-hour weekly lab. (3201085212)

ENGL 0302 Success in College Reading II
Three semester hours ............................................(3-1)
Extension of ENGL 0301, Success in College Reading I, for those students who need additional work in improving their reading skills. Includes a one-hour weekly lab. (3201085212)

ENGL 0320 Success in Grammar/Writing
Three semester hours ............................................(3-1)
Review course with emphasis on identifying deficiencies and improving fundamental English grammar and language arts skills necessary for the student who intends to pursue college-level academic work. Includes a weekly one-hour lab. (3201085312)

ENGL 0321 College Composition Prep I
Three semester hours ............................................(3-1)
Designed to identify deficiencies and improve basic writing skills necessary for the student who intends to pursue college-level academic work. Includes a weekly one-hour lab. (3201085312)

ENGL 1301 Composition I
Three semester hours ............................................(3-0)
Principles and techniques of written, expository, and persuasive composition; analysis of literary, expository and persuasive texts; and critical thinking. Designed to improve reading skills through the use of thought-provoking material on which to base training in expository writing. Study of grammar and sentence structure will be integrated with the student’s needs as reading and writing skills improve. Outside reading devoted chiefly to nonfiction, especially material in which general information is stressed. Prerequisite: Pass the reading and writing sections of the THEA or alternative test. (2304015112)

ENGL 1302 Composition II
Three semester hours ............................................(3-0)
Principles and techniques of written, expository, and persuasive composition; analysis of literary, expository and persuasive texts; and critical thinking. Includes analysis of prose readings, expository writing and investigative methods of research. Readings will include the main literary types. A more intensive application of grammar will be required in an effort to improve the correctness and precision of the students’ writing. Prerequisite: ENGL 1301. (2304015112)

ENGL 2307 Creative Writing I
Three semester hours ............................................(3-0)
Practical experience in the techniques of imaginative writing. May include fiction, nonfiction, poetry, drama, or screenwriting. Prerequisite: ENGL 1301 or permission of Instructor. (2305015112)

ENGL 2311 Technical and Business Writing
Three semester hours ............................................(3-0)
Principles, techniques, and skills needed for college level scientific, technical, or business writing. (2311015112)

ENGL 2321 British Literature
Three semester hours ............................................(3-0)
Selected significant works of British literature. May include study of movements, schools, or periods. Prerequisite: ENGL 1301 or permission of instructor. (2308015112)

ENGL 2322 British Literature I
Three semester hours ............................................(3-0)
Selected significant works of British literature. May include study of movements, schools, or periods. Prerequisite: ENGL 1301 or permission of instructor. (2308015112)

ENGL 2323 British Literature II
Three semester hours ............................................(3-0)
Continuation of ENGL 2322. Selected significant works of British literature. May include study of movements, schools, or periods. Prerequisite: ENGL 1301 or permission of instructor. (2308015112)

ENGL 2326 American Literature
Three semester hours ............................................(3-0)
Selected significant works of American literature. May include study of movements, schools, or periods. Prerequisite: ENGL 1301 or permission of instructor. (2307015112)

ENGL 2327 American Literature I
Three semester hours ............................................(3-0)
Selected significant works of American literature. May include study of movements, schools, or periods. Prerequisite: ENGL 1301 or permission of instructor. (2307015112)
ENGL 2328 American Literature II
Three semester hours ...........................................(3-0)
Continuation of ENGL 2327. Selected significant works of American literature. May include study of movements, schools, or periods. Prerequisite: ENGL 1301 or permission of instructor. (1609015112)

ENGL 2332 World Literature I
Three semester hours .............................................(3-0)
Selected significant works of world literature. May include study of movements, schools, or periods. Literature of the eighteenth century to the contemporary are examined for the contribution to ideas and ideals. Prerequisite: ENGL 1301 or permission of instructor. (1601045213)

ENGL 2333 World Literature II
Three semester hours .............................................(3-0)
Selected significant works of world literature. May include study of movements, schools, or periods. Literature of the eighteenth century to the contemporary are examined for the contribution to ideas and ideals. Prerequisite: ENGL 1301 or permission of instructor. (1601045213)

ENTC 1449 Reliability and Maintainability
Four semester hours .............................................(3-2)
Equipment reliability and maintainability to improve the efficiency of operations including utilizing the latest equipment and techniques to implement effective prevention and predictive maintenance programs.

FMLD 1301 Introduction to Intergenerational Professions
Three semester hours ..........................................(3-0)
Skill development in the promotion of health, safety, and nutritional needs of elders and children. Topics include activities that promote intergenerational interaction, strategies for meeting the needs of adults and children in the care and service setting, ethics, and professionalism.

FMLD 1341 Development in a Cross Cultural Perspective
Three semester hours ..........................................(3-0)
Critical examination of developmental and family theory research across a diverse range of cultures.

FMLD 1349 Individual and Family Development Studies
Three semester hours ..........................................(3-0)
An introduction to the various conditions of children and adults including recognition of symptoms and treatment techniques.

FREN 1411 Beginning French I
Four semester hours ...........................................(3-2)
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture. Prerequisite: FREN 1411 or permission of instructor. (1609015113)

FREN 1412 Beginning French II
Four semester hours ...........................................(3-2)
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture. Prerequisite: FREN 1411 or permission of instructor. (1609015113)

FREN 2311 Intermediate French I
Three semester hours ...........................................(3-0)
Review and application of skills in listening comprehension, speaking, reading, and writing. Emphasizes conversation, vocabulary acquisition, reading, composition, and culture. Prerequisite: FREN 1412 or permission of instructor. (1609015213)

FREN 2312 Intermediate French II
Three semester hours ...........................................(3-0)
Review and application of skills in listening comprehension, speaking, reading, and writing. Emphasizes conversation, vocabulary acquisition, reading, composition, and culture. Prerequisite: FREN 2311 or permission of instructor. (1609015213)

GAME 1302 Storyboarding
Three semester hours ...........................................(3-1)
In-depth coverage of storyboarding for the development of games and simulations. Addresses pre-production preparation and creation of comprehensive design for a game or simulation including target audience analysis, purpose, goals and objectives, content outline, flow chart, and storyboard.

GAME 1303 Introduction to Game Design and Development
Three semester hours ...........................................(3-1)
Introduction to electronic game development and game development careers. Includes examination of history and philosophy of games, the game production process, employee factors for success in the field, and current issues and practices in the game development industry.

GEOL 1403 Physical Geology
Four semester hours .............................................(3-3)
Principles of physical and historical geology. Study of the earth's composition, structure, and internal and external processes. Includes the geologic history of the earth and the evolution of life. (4006015103)

GEOL 1404 Historical Geology
Four semester hours .............................................(3-3)
Principles of physical and historical geology. Study of the earth's composition, structure, and internal and external processes. Includes the geologic history of the earth and the evolution of life. (4006015103)

GERS 1301 Introduction to Gerontology
Three semester hours ..........................................(3-0)
Overview of the social, psychological, and biological changes that accompany aging and an overview of the implications of these changes for the individual, as well as for the larger society.

GERS 2331 Contemporary Issues in Aging
Three semester hours ..........................................(3-0)
A focus on current issues impacting the aged. Emphasis is on locating and applying the most current research, highlighting the problems and resources related to the local region.
GERS 2360 Clinical - Gerontology  
Three semester hours ....................................... (0-9)  
A method of instruction providing detailed education, training, and work-based experience and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement are the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Course may be repeated if topics and learning outcomes vary. A background check may be required for this course.

GOVT 2301 American Government I  
Three semester hours ....................................... (3-0)  
Introduction to the theory and practice of politics and government in America at the national, state, and local levels, with special attention to Texas. Topics include political theory, the American and Texas constitutions, federalism, political participation and elections, the institutions of government, and domestic and foreign policy. (4510025125)

GOVT 2302 American Government II  
Three semester hours ....................................... (3-0)  
Introduction to the theory and practice of politics and government in America at the national, state, and local levels, with special attention to Texas. Topics include political theory; functions performed in the American system of government; both national and state, with special reference to Texas; federalism; political participation and elections; the institutions of government; and domestic and foreign policy. (4510025125)

HAMG 1313 Front Office Procedures  
Three semester hours ....................................... (3-0)  
A study of the flow of activities and functions in today's lodging operation. Topics include a comparison of manual, machine assisted, and computer-based methods for each front file function.

HAMG 2337 Hospitality Facilities Management  
Three semester hours ....................................... (3-0)  
Identification of building systems, facilities management, security, and safety procedures.

HAMG 2388 Internship, Hospitality Administration/Management, General  
Three semester hours ....................................... (3-0)  
A work-based learning experience that enables the student to apply specialized occupational theory, skills and concepts. A learning plan is developed by the college and the employer. This is capstone course and should be taken in last semester.

HART 1403 Air Conditioning Control Principles  
Four semester hours ....................................... (2-4)  
A basic study of HVAC and refrigeration controls; troubleshooting of control components; emphasis on use of wiring diagrams to analyze high and low voltage circuits; a review of Ohm's law as applied to air conditioning controls and circuits.

HIST 1301 United States History I  
Three semester hours ....................................... (3-0)  
Survey of the political, social, economic, military, cultural, and intellectual history of the United States from the discovery of America (1492) to 1876. Special emphasis given to colonization, the American Revolution, the forming of the new nation, the launching of the government, geographic expansion, sectional friction, the Civil War, and Reconstruction. (5401025125)

HIST 1302 United States History II  
Three semester hours ....................................... (3-0)  
Survey of the political, social, economic, military, cultural, and intellectual history of the United States from 1876 to the present. Includes the economic development, immigration, the Spanish American War, the growth of the United States as a world power, the Progressive Movement, World Wars I and II, the Great Depression, and contemporary America. (5401025125)

HIST 2311 Western Civilization I  
Three semester hours ....................................... (3-0)  
Survey of the political, social, economic, military, cultural, and intellectual development of Europe from prehistory to the medieval period. (5401015425)

HIST 2312 Western Civilization II  
Three semester hours ....................................... (3-0)  
Survey of the political, social, economic, military, cultural, and intellectual development of Europe from the medieval period to the present including colonialism, the Industrial Revolution, the age of Enlightenment, the French Revolution, nationalism, and democracy. Emphasis on the rise of totalitarianism and the clashing ideologies of the Twentieth Century as causes of the present world situation. (5401015425)

HITT 1161 Clinical - Health Information Technology/Technician  
One semester hour ......................................... (1-3)  
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A method of instruction providing detailed education, training, and work-based experience and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Prerequisites: HPRS 1206, HITT 1301, HITT 1253 and successfully complete a criminal background clearance.

HITT 1249 Pharmacology  
Two semester hours ....................................... (1-2)  
Overview of the basic concepts of the pharmacological treatment of various diseases affecting major body systems. Prerequisite: HITT 1301 and BIOL 2401.

HITT 1253 Legal and Ethical Aspects of Health Information  
Two semester hours ....................................... (1-2)  
Concepts of confidentiality, ethics, health care legislation, and regulations to the maintenance and use of health information. Prerequisite: HITT 1301 for HITT students; prerequisite not required for Surg Tech students.
HITT 1253 Legal and Ethical Aspects of Health Information
Two semester hours ........................................(1-2)
Concepts of confidentiality, ethics, health care legislation and regulations relating to the maintenance and use of health information. Prerequisite: HITT 1301 for HITT students; prerequisite not required for SurgTech students.

HITT 1255 Health Care Statistics
Two semester hours ........................................(1-2)

HITT 1301 Health Data Content and Structure
Three semester hours .......................................(2-2)
Introduction to systems and processes for collecting, maintaining, and disseminating primary and secondary health-related information. Instruction in delivery and organizational structure to include content of health record, documentation requirements, registries, indices, licensing, regulatory agencies, forms, and screens.

HITT 1311 Computers in Health Care
Three semester hours .......................................(2-2)
Introduction to the concepts of computer technology related to health care and the tools and techniques for collecting, storing, and retrieving health care data. Prerequisite: HITT 1301.

HITT 1345 Health Care Delivery Systems
Three semester hours .......................................(2-2)
Introduction to organization, financing, and delivery of health care services, accreditation, licensure, and regulatory agencies. Prerequisite: HITT 1301.

HITT 1441 Coding and Classification Systems
Four semester hours .......................................(3-2)
Application of basic coding rules, principles, guidelines, and conventions. Prerequisites: HPRS 1206, BIOL 2401 and BIOL 2402.

HITT 2160 Clinical - Health Information Technology/Technician
One semester hour .........................................(1-4)
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A method of instruction providing detailed education, training, and work-based experience and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Prerequisites: HITT 1161, HITT 1249, HITT 1255, HPRS 2301 and successfully complete a criminal background clearance.

HITT 2161 Clinical - Health Information Technology/Technician
One semester hour .........................................(1-4)
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A method of instruction providing detailed education, training, and work-based experience and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Prerequisites: HITT 1161, HITT 1249, HITT 1255, HPRS 2301 and successfully complete a criminal background clearance.

HITT 2231 Medical Terminology - Advanced
Two semester hours .......................................(2-0)
Study of advanced terminology in various medical and surgical specialties. Prerequisite: HPRS 1206 and HITT 1301.

HITT 2239 Health Information Organization and Supervision
Two semester hours .......................................(1-2)
Principles of organization and supervision of human, fiscal, and capital resources. Prerequisites: HITT 1301 and HITT 1345.

HITT 2340 Advanced Medical Billing & Reimbursement
Three semester hours .......................................(1-4)
Study of advanced health insurance reimbursement in various health care settings. Includes application of coding skills to prepare insurance forms for submission to third party payers. Prerequisites: HITT 1441, HITT 2435.

HITT 2343 Quality Assessment and Performance Improvement
Three semester hours .......................................(2-2)
Study of the many facets of quality standards and methodologies in the health information management environment. Topics include licensing, accreditation, compilation, and presentation of data in statistical formats, quality improvement functions, quality tools, utilization management, risk management, and medical staff data quality issues. Prerequisite: HITT 1301.

HITT 2435 Coding and Reimbursement Methodologies
Four semester hours .......................................(2-4)
Development of advanced coding techniques with emphasis on case studies, health records, and federal regulations regarding perspective payment systems and methods of reimbursement. Prerequisites: HITT 1441 and HPRS 2301.

HMSY 1337 Introduction to Homeland Security
Three semester hours .......................................(3-0)
Overview of homeland security. Evaluation of the progression of homeland security issues throughout Texas and the United States. An examination of the roles undertaken and methods used by governmental agencies and individuals to respond to those issues.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>HPRS 1101</td>
<td>Introduction to Health Professions</td>
<td>1-0</td>
<td>An overview of roles of various members of the health care system, educational requirements, and issues affecting the delivery of health care.</td>
</tr>
<tr>
<td>HPRS 1205</td>
<td>Essentials of Medical Law/Ethics for Health Professions</td>
<td>2-0</td>
<td>Introduction to the relationship between legal aspects and ethics associated with the health care field. Emphasis on the ethical and legal responsibilities of health care professionals.</td>
</tr>
<tr>
<td>HPRS 1206</td>
<td>Essentials of Medical Terminology</td>
<td>2-0</td>
<td>A study of common medical terminology, word origin, structure, and application. Identify, pronounce, and spell medical terms with the use of medical references as resource tools through the introduction of prefixes, suffixes, root words, plurals, abbreviations, and symbols, surgical procedures, medical specialties, and diagnostic procedures.</td>
</tr>
<tr>
<td>HRPO 1302</td>
<td>Human Resource Training and Development</td>
<td>3-0</td>
<td>An overview of the human resource development function specifically concentrating on the training and development component. Topics include training as related to organizational mission and goals; budgeting; assessment; design, delivery, evaluation, and justification of training. Included are new trends in training, including distance and virtual education.</td>
</tr>
<tr>
<td>HRPO 1311</td>
<td>Human Relations</td>
<td>3-0</td>
<td>Practical application of the principles and concepts of the behavioral sciences to interpersonal relationships in the business and industrial environment.</td>
</tr>
<tr>
<td>HRPO 2301</td>
<td>Human Resources Management</td>
<td>3-0</td>
<td>Behavioral and legal approaches to the management of human resources in organizations.</td>
</tr>
<tr>
<td>HRPO 2306</td>
<td>Benefits and Compensation</td>
<td>3-0</td>
<td>An overview of employee compensation systems. Topics include compensation systems, direct and indirect compensation, internal and external determination of compensation, benefits administration, managing and evaluating for effectiveness, legal and regulatory issues, pay equality, job analysis affecting job compensation and competencies.</td>
</tr>
<tr>
<td>HRPO 2388</td>
<td>Internship- Human Resources Management</td>
<td>0-9</td>
<td>A work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A learning plan is developed by the college and the employer. Prerequisite: This is a capstone course and should be taken in the student's last semester.</td>
</tr>
<tr>
<td>HUMA 1301</td>
<td>Introduction to the Humanities I</td>
<td>3-0</td>
<td>An interdisciplinary, multi-perspective assessment of cultural, political, philosophical, and aesthetic factors critical to the formulation of values and the historical development of the individual and of society.</td>
</tr>
<tr>
<td>HUMA 2323</td>
<td>World Cultures</td>
<td>3-0</td>
<td>Study of human beings, their antecedents and related primates, and their cultural behavior and institutions. Introduces the major sub-fields: physical and cultural anthropology, archeology, linguistics, and ethnology.</td>
</tr>
<tr>
<td>HYDR 1409</td>
<td>Basic Fluid Power I (Hydraulics)</td>
<td>4-0</td>
<td>Introduction to the basic principles of hydraulic pressure flow and system components including system controls, symbols, and circuits. Emphasis on good maintenance procedures, troubleshooting techniques, and safety practices.</td>
</tr>
<tr>
<td>HYDR 1415</td>
<td>Basic Fluid Power II (Pneumatics)</td>
<td>4-0</td>
<td>Introduction to the basic principles of pneumatic pressure flow and system components including manual and electro-mechanical controls, symbols, and circuits. Emphasis on troubleshooting techniques, good maintenance procedures, and safety practices.</td>
</tr>
<tr>
<td>IMED 1301</td>
<td>Introduction to Multimedia</td>
<td>3-1</td>
<td>A survey of the theories, elements, and hardware/software components of multimedia. Topics include digital image editing, digital sound and video editing, animation, web page development, and interactive presentations. Emphasis on conceptualizing and producing effective multimedia presentations.</td>
</tr>
<tr>
<td>IMED 1316</td>
<td>Web Page Design I</td>
<td>3-1</td>
<td>Instruction in web design and related graphic design issues including mark-up languages, web sites, and browsers. Prerequisite: or corequisite: BCIS/COSC Elective or ITSC 1309.</td>
</tr>
<tr>
<td>IMED 1345</td>
<td>Interactive Multimedia I</td>
<td>3-1</td>
<td>Exploration of the use of graphics and sound to create interactive multimedia applications and/or animations using industry standard authoring software.</td>
</tr>
<tr>
<td>IMED 2309</td>
<td>Internet Commerce</td>
<td>3-1</td>
<td>An overview of the Internet as a marketing and sales tool with emphasis on developing a prototype for electronic commerce. Topics include database technology, creating web sites in order to collect information, performing on-line transactions, and generating dynamic content.</td>
</tr>
<tr>
<td>IMED 2349</td>
<td>Internet Communications</td>
<td>3-1</td>
<td>Advanced seminar in web server design and maintenance. Topics include scripting, web site planning, testing, security, production, and marketing. Prerequisite: ITNW 1325 or ITCC 1302 and ITSC 1305.</td>
</tr>
</tbody>
</table>
INMT 1319 Manufacturing Processes  
Three semester hours ..............................................(3-1)  
Exploration of a variety of methods used in manufacturing.  
Theory and application of processes including but not limited to  
metal forming, welding, machining, heat treating, plating, assembly  
procedures, and process control considerations.

INMT 1345 Computer Numerical Controls  
Three semester hours ..............................................(2-4)  
Numerical controlled machine operations. Emphasis on standard  
and computer numerical controlled procedures for planning,  
preparing, and operating a computer-assisted program.

INMT 1336 Logistics  
Three semester hours ..............................................(3-1)  
Introduction to logistics as it relates to the industrial and service  
industries including a working definition, material handling  
equipment, inventory management and warehousing, purchasing,  
and packaging. Emphasis on activity-based decision making.

INMT 2388 Internship - Industrial/Manufacturing  
Technology/Technician  
Three semester hours ..............................................(0-9)  
A work-based learning experience that enables the student to apply  
specialized occupational theory, skills, and concepts. A learning plan  
is developed by the college and the employer. Prerequisite: This is a  
capstone course and should be taken in the student’s last semester.

INTC 1455 Unit Operations  
Four semester hours..................................................(2-4)  
Study of industrial processes including fluid flow and material  
transport, distillation, extraction, and automatic control  
requirements of these processes. Instruction in control system  
design and control loop adjustments and analysis.

ITCC 1300 Router and Routing Basics  
Three semester hours ..............................................(3-1)  
Instruction in basic router configuration for local area networks.  
Includes initial router configuration for TCP/IP, management of  
IOS and router configuration files, routing protocols, and access  
control lists. Prerequisite: ITNW 1325 or ITCC 1302.

ITCC 1302 CCNA 1 Networking Basics  
Three semester hours ..............................................(3-1)  
A course introducing the basics of networking including network  
terminology, local area networks (LAN) and wide area networks  
(WAN). Topics include network protocols such as TCP/IP, Open  
System Interconnection (OSI) models, cabling and routers.

ITCC 1306 CCNA 2 Router and Routing Basics  
Three semester hours ..............................................(3-1)  
An introduction to Cisco basic router configuration for local area  
networks. Topics include initial router configuration for TCP/IP,  
management of the Cisco IOS and router configuration files, routing  
protocols, and access control lists. Prerequisite: ITCC 1302.

ITCC 1340 Switching Basic and Intermediate Routing  
Three semester hours ..............................................(3-1)  
A course focusing on advanced topics including Internet  
Protocol addressing techniques, intermediate routing protocols,  
CLI configuration of switches, Ethernet switching, Virtual Local  
Area Networks (VLANs), Spanning Tree Protocol, and VLAN  
Trunking Protocols. Prerequisite: ITCC 1300 or ITCC 1306.

ITCC 1341 Wide Area Network (WAN) Technologies  
Three semester hours ..............................................(3-1)  
This course focusing on advanced Internet Protocol (IP)  
addressing techniques (Network Address Translation [NAT],  
Port Address Translation [PAT], and DHCP), Wide Area  
Network (WAN) technology and terminology, PPP, ISDN, DDR,  
Frame Relay, network management, and introduction to optical  
networking. Prerequisite: ITCC 1340 or ITCC 1342.

ITCC 1342 CCNA 3 Switching Basic and Intermediate  
Routing  
Three semester hours ..............................................(3-1)  
A course focusing on advanced topics including IP addressing  
techniques, intermediate routing protocols, CLI configuration of  
switches, Ethernet switching, VLANs, Spanning Tree Protocol, and  
VLAN Trunking Protocol. Prerequisite: ITCC 1306.

ITCC 1346 CCNA 4 WAN Technologies  
Three semester hours ..............................................(3-1)  
This course focuses on advanced IP addressing techniques  
(Network Address Translation [NAT], Port Address Translation  
[PAT], and DHCP), WAN technology and terminology, PPP, ISDN,  
DDR, Frame Relay, network management and introduction to  
optical networking. In addition the student will prepare for the  
CCNA exam. Prerequisite: ITCC 1342.

ITDF 1300 Introduction to Digital Forensics  
Three semester hours ..............................................(3-1)  
A study of the application of forensic science and technology  
to collect, analyze, document, and present after-the-fact digital  
information from digital sources while maintaining a documented  
chain of custody to determine exactly what happened on a  
digital device. Overview of ethics, white collar crime, HIPAA,  
SOX, GLBA, and other legal guidelines/regulations/laws. Includes  
overview of tools used for forensic analysis of digital devices  
seized in investigations. Also covers securing a search warrant,  
collecting digital evidence, protecting digital evidence, and  
obtaining information from offenders.

ITDF 2320 Digital Forensics Collection  
Three semester hours ..............................................(3-1)  
A study of acquiring digital evidence from devices, networks  
and logs while preserving the evidentiary chain. Includes the  
legal aspects of the search and seizure of computers and related  
equipment/information.

ITDF 2325 Digital Forensics Tools  
Three semester hours ..............................................(3-1)  
Skills-based course in the applications of major forensic  
hardware and software tools such as EnCase, ILook, Forensic  
Tool Kit, write blockers, StegAlyzerSS, “X-Ways” forensic  
software, ProDiscover Basic, and others.
ITDF 2330 Digital Forensics Analysis  
Three semester hours ...........................................(3-1)  
Digital forensic analysis, report preparation, and evidence presentation. Emphasizes balancing legal and technical aspects of cases where digital forensics is employed.

ITDF2335 Comprehensive Digital Forensics Project  
Three semester hours .........................................(3-1)  
Comprehensive application of skills learned in previous digital forensics courses in a simulated crime scene or workplace investigation. Includes collection, analysis, and presentation of digital data and evidence in a problem-based case study format. This course is used as a capstone course for a certificate of degree.

ITNW 1325 Fundamentals of Networking Technologies  
Three semester hours .........................................(3-1)  
Instruction in networking technologies and their implementation. Topics include the OSI reference model, network protocols, transmission media, and networking hardware and software. Prerequisite or corequisite: ITSC 1305.

ITNW 1351 Fundamentals of Wireless LANs  
Three semester hours .........................................(3-1)  
Designing, planning, implementing, operating, and troubleshooting wireless LANs (WLANs). Includes WLAN design, installation, and configuration; and WLAN security issues and vendor interoperability strategies.

ITNW 2305 Networking Administration  
Three semester hours .........................................(3-1)  
Topics include network components, user accounts and groups, network file systems, file system security, and network printing. Prerequisite: ITNW 1325 or ITCC 1302 and ITSC 1305.

ITNW 2313 Networking Hardware  
Three semester hours .........................................(3-1)  
Maintain network hardware devices. Topics include network cables, servers, and workstations; network connectivity devices such as routers, hubs, bridges, gateways, repeaters, and uninterruptible power supplies; and other networking hardware devices.

ITNW 2321 Networking with TCP/IP  
Three semester hours .........................................(3-1)  
Set up, configure, use, and support Transmission Control Protocol/Internet Protocol (TCP/IP) on networking operating systems. Prerequisite: ITNW 1325 or ITCC 1302 or approval from instructor.

ITNW 2335 Network Troubleshooting and Support  
Three semester hours .........................................(3-1)  
Instruction in the techniques used to troubleshoot and support networks with emphasis on solving real world problems in a hands-on environment. Topics include troubleshooting and research techniques, available resources, and network management of hardware or software. Prerequisite: ITNW 1325 or ITCC 1302 or approval from instructor.

ITNW 2354 Internet/Intranet Server  
Three semester hours .........................................(3-1)  
Designing, installing, configuring, maintaining, and managing an Internet server. Prerequisite: ITNW 1325 or ITCC 1302 or approval from instructor.

ITNW 2413 Networking Hardware  
Four semester hours ...........................................(3-3)  
Maintain network hardware devices. Topics include network cables, servers, and workstations; network connectivity devices such as routers, hubs, bridges, gateways, repeaters, uninterrupted power supplies, and other networking hardware devices; building networking cables; identifying and implementing connectivity devices; selecting appropriate network power management devices; and determining the necessary computer hardware requirements for workstations and servers. Prerequisite: ITNW 1325 or ITCC 1302 or approval from instructor.

ITSC 1305 Introduction to PC Operating Systems  
Three semester hours .........................................(3-1)  
A study of personal computer operating systems. Topics include installation and configuration, file management, memory and storage management, control of peripheral devices, and use of utilities. Prerequisite or corequisite: BCIS/COSC Elective or ITSC 1309.

ITSC 1309 Integrated Software Applications I  
Three semester hours .........................................(3-1)  
Integration of applications from popular business productivity software suites. Instruction in embedding data, linking and combining documents using word processing, spreadsheets, databases, and/or presentation media software. Prerequisites or corequisites: POFT 1127, POFI 2301, or keyboarding speed of 25 wpm as verified by a three-minute timed writing.

ITSC 1316 Linux Installation and Configuration  
Three semester hours .........................................(3-1)  
Open-source Linux operating system. Includes Linux installation, basic administration, utilities and commands, upgrading, networking, security, and application installation. Emphasizes hands-on setup, administration, and management of Linux. Also covers maintaining and securing reliable Linux systems.

ITSC 1321 Intermediate PC Operating Systems  
Three semester hours .........................................(3-1)  
Advanced operating system installation, configuration, and troubleshooting. Management of file systems, memory, and peripheral devices. Prerequisite: ITSC 1305.

ITSC 2335 Application Problem Solving  
Three semester hours .........................................(3-1)  
Utilization of current application software to solve advanced problems and generate customized solutions, involving project and software specific to a specific curricular area. Prerequisite: ITSE 1302 or COSC 1336 and CPMT 1311.

ITSC 2339 Personal Computer Help Desk Support  
Three semester hours .........................................(3-1)  
Diagnosis and solution of user hardware and software related problems with on-the-job and/or simulated projects. This is a sophomore level course. Prerequisite: CPMT 1311 and ITSC 1305.
ITSE 1321 Introduction to Visual BASIC Programming
Three semester hours (3-1)
Introduction to computer programming using Visual BASIC. Emphasis on the fundamentals of structured design, development, testing, implementation, and documentation. Includes language syntax, data and file structures, input/output devices, and files. Prerequisite: BCIS/COSC Elective or ITSC 1309 and ITSE 1302 or COSC 1336.

ITSE 1331 Introduction to Visual BASIC Programming
Three semester hours (3-1)
Introduction to computer programming using Visual BASIC. Emphasis on the fundamentals of structured design, development, testing, implementation, and documentation. Includes language syntax, data and file structures, input/output devices, and files. Prerequisite: BCIS/COSC Elective or ITSC 1309 and ITSE 1302 or COSC 1336.

ITSE 1350 System Analysis and Design
Three semester hours (3-1)
Comprehensive introduction to the planning, design, and construction of computer information systems using the systems development life cycle and other appropriate design tools. Prerequisite or corequisite: BCIS/COSC Elective or ITSC 1309.

ITSE 2309 Database Programming
Three semester hours (3-1)
Application development using database programming techniques emphasizing database structures, modeling, and database access. Prerequisite or corequisite: BCIS/COSC Elective or ITSC 1309.

ITSE 2313 Web Authoring
Three semester hours (3-1)
Instruction in designing and developing web pages that incorporate text, graphics, and other supporting elements using current technologies and authoring tools. Prerequisite: IMED 1316.

ITSE 2317 JAVA Programming
Three semester hours (3-1)
Introduction to JAVA programming with object-orientation. Emphasis on the fundamental syntax and semantics of JAVA for applications and web applets. Prerequisite: ITSE 1302 or COSC 1336.

ITSE 2347 Advanced Database Programming
Three semester hours (3-1)
Application development using complex database programming techniques emphasizing multiple interrelated files, menu design, security implementation, and multiple access. Prerequisite: ITSE 2309.

ITSW 2334 Advanced Spreadsheets
Three semester hours (3-1)
Designed to provide an understanding of advanced functionality of electronic spreadsheets. Prerequisite or corequisite: BCIS/COSC Elective or ITSC 1309.

ITSW 2337 Advanced Database
Three semester hours (3-1)
Designed to provide an understanding of advanced functionality of databases. Prerequisite or corequisite: BCIS/COSC Elective or ITSC 1309.

ITSY 1300 Fundamentals of Information Security
Three semester hours (3-0)
Basic information security goals of availability, integrity, and confidentiality. Vocabulary and terminology specific to the field of information security are discussed. Identification of exposures and vulnerabilities and appropriate countermeasures are addressed. The importance of appropriate planning and administrative controls is also discussed. Prerequisite: BCIS/COSC Elective or ITSC 1309.

ITSY 1342 Information Technology Security
Three semester hours (3-1)
Instruction in security for network hardware, software, and data, including physical security, backup procedures, relevant tools, encryption, and protection from viruses. Prerequisite: ITNW 2354 and ITSY 1300.

ITSY 2300 Operating System Security
Three semester hours (3-1)
Safeguard computer operating systems by demonstrating server support skills and designing and implementing a security system. Identify security threats and monitor network security implementations. Use best practices to configure operating systems to industry security standards. Prerequisite: ITSC 1305.

ITSY 2301 Firewalls and Network Security
Three semester hours (3-1)
Identify elements of firewall design, types of security threats and responses to security attacks. Use best practices to design, implement, and monitor a network security plan. Examine security incident postmortem reporting and ongoing network security activities. Prerequisite: ITSC 1321.

ITSY 2343 Computer System Forensics
Three semester hours (3-1)
In-depth study of system forensics including methodologies used for analysis of computer security breaches. Gather and evaluate evidence to perform postmortem analysis of a security breach.

MATH 0330 Math Essentials
Three semester hours (3-1)
Designed for students requiring instruction in basic mathematical operations focusing in the development of Algebra skills. Topics may include but are not limited to study in basic math skills in whole numbers, fractions, decimals; percentages; ratio and proportion, basic statistics, and geometry. A grade of C or better must be achieved to advance to the next level, MATH 0331. This course does not transfer or apply towards graduation. (Accuplacer breakdown 0-40)
MATH 0331 Beginning Algebra
Three semester hours ............................................. (3-1)
Designed for students requiring instruction in introductory Algebra concepts. The course is a continuation of MATH 0330. Topics may include but are not limited to a review of basic math skills needed for algebra, the real number system; algebraic expressions; linear equations and inequalities in one variable, coordinate graphing, and systems of equations and inequalities. A grade of C or better must be achieved to advance to the next level, MATH 0332. This course does not transfer or apply towards graduation. (Accuplacer breakdown 41-52)

MATH 0332 Intermediate Algebra
Three semester hours .............................................. (3-1)
Designed for students requiring instruction in basic Algebra concepts and have had at least one year of high school Algebra. The course is a continuation of MATH 0331. Topics may include but are not limited to a review of the real number system, algebraic expressions, and graphing linear equations in one and two variables; exponents and polynomials; factoring, introduction to rational expression and equations, introduction to radicals, and quadratic equations. A grade of C or better must be achieved to advance to the next level, MATH 0333. This course does not transfer or apply towards graduation. (Accuplacer breakdown 53-65)

MATH 0333 College Prep Algebra
Three semester hours .............................................. (3-1)
Designed for students requiring review in basic Algebra concepts and have had two years of high school Algebra. The course is a continuation of MATH 0332. Topics may include but are not limited to a review of graphing linear equations in one and two variables, graphing inequalities in two variables, functions, systems of equations, factoring polynomials, rational expressions, roots and radicals, and quadratic equations. A grade of C or better must be achieved to advance to the next level, MATH 1314 or other college level math course. This course does not transfer or apply towards graduation. (Accuplacer breakdown 66-79)

MATH 1314 College Algebra
Three semester hours ............................................. (3-0)
Study of quadratics; polynomial, rational, logarithmic, and exponential functions; systems of equations; progressions; sequences and series; and matrices and determinants. Prerequisite: MATH 0333 or satisfactory placement test or THEA scores. (2701015119)

MATH 1316 Plane Trigonometry
Three semester hours ............................................. (3-0)
Trigonometric functions, identities, equations, and applications including study of the functions of angles; identities and graphs of trigonometric functions; solutions of right and oblique triangles; logarithms; functions of double and half angles; inverse trigonometric functions; and trigonometric equations. Prerequisite: two years of high school algebra or MATH 0333; satisfactory placement test or THEA scores. (2701015119)

MATH 1324 Mathematics for Business and Social Sciences I (finite mathematics)
Three semester hours ............................................. (3-0)
Topics from college algebra (linear equations, quadratic equations, functions and graphs, inequalities), mathematics of finance (simple and compound interest, annuities), linear programming, matrices, systems of linear equations, applications to management, economics, and business. Prerequisite: MATH 1314 or instructor approval. (2703015219)

MATH 1325 Business Calculus (Mathematics for Business & Social Sciences II)
Three semester hours ............................................. (3-0)
Limits and continuity, derivatives, graphing and optimization, exponential and logarithmic functions, antiderivatives, integration, application to management, economics and business. Prerequisite: MATH 1324, 1314, 1316 or approval of instructor. (2703015219)

MATH 1332 Contemporary Mathematics I
Three semester hours ............................................. (3-0)
Modern algebra and geometry. Topics may include sets, logic, number systems, number theory, functions, equivalence, congruence, measurement, other geometric concepts, and the introduction to probability and statistics. Prerequisite: Two years high school algebra or above. (2701015119)

MATH 1342 Elementary Statistical Methods
Three semester hours ............................................. (3-0)
Presentation and interpretation of data, probability, sampling, hypothesis testing, correlation and regression, analysis of variance, spreadsheets, and the use of statistical software. Prerequisite: Basic arithmetic skills. (2705015119)

MATH 1348 Analytical Geometry
Three semester hours ............................................. (3-0)
Lines, circles, and other conic sections; transformation of coordinates; polar coordinates; and parametric equations. Introduces relationship between algebra and geometry. Includes the fundamental formulas related to Cartesian coordinates and equations, with special emphasis on the straight line, the circle, the parabola, the ellipse, and the hyperbola; high plane curves; parametric equations; polar coordinates; and an introduction to vectors. Prerequisites: MATH 1316 and 1314, or by taking an advanced standing examination. May be taken concurrently with MATH 1316. (2701015519)

MATH 1350 Fundamentals of Mathematics I
Three semester hours ............................................. (3-0)
Concepts of sets, functions, numerations systems, number theory, and properties of the natural numbers, integers, rational and real number systems with an emphasis on problem solving and critical thinking. Recommended for Elementary Education majors with Grade 4-8 Certification. This course may also be appropriate for early childhood education majors. Prerequisite: College Algebra or equivalent. (2701015619)

MATH 1351 Fundamentals of Mathematics II
Three semester hours ............................................. (3-0)
Concepts of Euclidian geometry, probability, and statistics as well as applications of the algebraic properties of real numbers to concepts of measurement with an emphasis on problem solving and critical thinking. Recommended for Elementary Education majors with Grade 4-8 Certification. This course may also be appropriate for early childhood education majors. Prerequisite: MATH 1350. (2701015619)
MATH 2313 Calculus I  
Three semester hours .................................(3-0) 
Functions, limits, continuity, differentiation, integration, applications, and partial differentiation. This course may include topics in analytic geometry. This course is concerned with the limit of functions, the derivative and its application, the indefinite integral, the definite integral and applications. Prerequisite: Trigonometry or Pre-calculus. (2701015919)

MATH 2314 Calculus II  
Three semester hours .................................(3-0) 
Functions, limits, continuity, differentiation, integration, applications, sequences and series, and vector analysis. This course may include topics in analytic geometry. This course is a study of the differentiation of transcendental functions with applications, parametric equations, theorem of mean value, the integration of standard forms, integration by various devices, reduction formulas, and series. Prerequisite: MATH 2313. (2701015919)

MATH 2315 Calculus III  
Three semester hours .................................(3-0) 
Functions, limits, continuity, differentiation, integration, applications, sequences and series, vector analysis, partial differentiation, and multiple integration. This course may include topics in analytic geometry. This course is concerned with partial differentiation, infinite series, indeterminate forms, hyperbolic functions, functions of several variables, multiple integrals, and vectors. Prerequisite: MATH 2314. (2701015919)

MATH 2412 Precalculus Math  
Three semester hours .................................(3-0) 
Applications of algebra and trigonometry to the study of elementary functions and their graphs including polynomial, rational, exponential, logarithmic and trigonometric functions. May include topics from analytical geometry. (2701015819)

MDCA 1164 Practicum (or Field Experience) Medical/Clinical Assistant  
One semester hours .................................(0-9) 
Corequisites: MDCA 1309 and MDCA 1352

MDCA 1165 Practicum (or Field Experience) Medical/Clinical Assistant  
One semester hours .................................(0-8) 
Corequisites: MDCA 1348 and MDCA 1417

MDCA 1166 Practicum (or Field Experience) Medical/Clinical Assistant  
One semester hours .................................(0-8) 
Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedure, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry and will demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the business/industry. Corequisites: MDCA 1452

MDCA 1305 Medical Law and Ethics  
Three semester hours .................................(3-0) 
Instruction in principles, procedures, and regulations involving legal and ethical relationships among physicians, patients, and medical assistants. Includes current ethical issues and risk management as they relate to the practice of medicine and fiduciary responsibilities.

MDCA 1309 Anatomy and Physiology for Medical Assistants  
Three semester hours .................................(3-0) 
Emphasis on normal human anatomy and physiology of cells, tissues, organs, and systems with overview of common pathophysiology. Corequisites: MDCA 1352, MDCA 1164

MDCA 1313 Medical Terminology  
Three semester hours .................................(3-0) 
A study and practical application of a medical vocabulary system. Includes structure, recognition, analysis, definition, spelling, pronunciation, and combination of medical terms from prefixes, suffixes, roots, and combining forms.

MDCA 1321 Administrative Procedures  
Three semester hours .................................(2-2) 
Medical office procedures including appointment scheduling, medical records creation and maintenance, phone communications, financial processes, coding, billing, collecting, third party reimbursement, credit arrangements, and computer use in the medical office.

MDCA 1343 Medical Insurance  
Three semester hours .................................(1-2) 
Emphasizes accurate ICD-9 and CPT coding of office procedures for payment/reimbursement by patient or third party and prevention of insurance fraud. Additional topics may include managed care or medical economics.
MDCA 1348 Pharmacology and Administration of Medicines
Three semester hours ...........................................(2-2)

MDCA 1352 Medical Assistant Laboratory Procedures I
Three semester hours .............................................(2-3)
MDCA Procedures depicted in the Current Clinical Laboratory Improvement Act (CLIA). Includes blood collection, specimen handling, basic urinalysis, identification of normal ranges, quality assurance, and quality control. May include electrocardiography. Demonstrate proper venipuncture and skin puncture technique; demonstrate compliance with Universal/Standard Precautions and OSHA guidelines; properly perform hematocrit and glucose with a blood glucose meter; properly label and handle all biologic specimens; perform appropriate equipment maintenance and troubleshooting; demonstrate quality assurance and quality control procedures; and if appropriate, perform proper 12 lead electrocardiography. Corequisites: MDCA 1309, MDCA 1164
NOTE: Upon successful completion of these courses, the student is eligible to submit application for the Registered Phlebotomy Technician certification examination with the American Medical Technologists Association. Individuals who pass the examination are awarded the Registered Phlebotomy Technician (RPT) credential.

MDCA 1402 Human Disease?Pathophysiology
Four semester hours .............................................(6-0)
A study of anatomy and physiology with emphasis on human pathophysiology, including etiology, prognosis, medical treatment, signs and symptoms of common diseases of all body systems.

MDCA 1417 Procedures in a Clinical Setting
Four semester hours .............................................(2-3)
Emphasis on patient-centered assessment, examination, intervention, and treatment as directed by physician. Includes vital signs, collection, and documentation of patient information, asepsis, minor surgical procedures, and other treatments as appropriate for the medical office. Prerequisite or corequisite: MDCA 1348 and 1165.

MDCA 1452 Medical Assistant Laboratory Procedures II
Four semester hours .............................................(2-4)
Demonstrate proper venipuncture technique; demonstrate compliance with Universal/Standard Precautions and OSHA guidelines; properly perform hematocrit and glucose with a blood glucose meter; properly label and handle all biologic specimens; perform appropriate equipment maintenance and troubleshooting; demonstrate quality assurance and quality control procedures; and if appropriate, perform proper 12 lead electrocardiography. Prerequisites: MDCA 1309, MDCA 1352, MDCA 1164, Corequisites: MDCA 1166

MRKG 1301 Customer Relations
Three semester hours .............................................(3-0)
General Principles of customer service including skills, knowledge, attitudes, and behaviors.

MRKG 1302 Principles of Retailing (formerly BMGT 1302)
Three semester hours .............................................(3-0)
Introduction to the retailing environment and its relationship to consumer demographics, trends, and traditional/nontraditional retailing markets. The employment of retailing techniques and the factors that influence modern retailing.

MRKG 1311 Principles of Marketing
Three semester hours .............................................(3-0)
Introduction to basic marketing functions; identification of consumer and organizational needs; explanation of economic, psychological, sociological, and global issues; and description and analysis of the importance of marketing research.

MRKG 2349 Advertising and Sales Promotion (formerly BMGT 1349)
Three semester hours .............................................(3-0)
Introduction to the advertising principles, practices, and multimedia of persuasive communication including buyer behavior, budgeting, and regulatory constraints. Prerequisite: MRKG 1311.

MRKG 2388 Internship-Business Marketing & Marketing Management
Three semester hours .............................................(0-9)
A work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A learning plan is developed by the college and the employer. Prerequisite: This is a capstone course and should be taken in the student's last semester.

MRMT 1162 Clinical - Medical Transcription
One semester hour ..................................................(1-3)
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A method of instruction providing detailed education, training, and work-based experience and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation, and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Prerequisites: HPRS 1206, POFM 1309, MRMT 1307 and successfully complete a criminal background clearance.

MRMT 1307 Medical Transcription Fundamentals
Three semester hours .............................................(2-4)
Fundamentals of medical transcription with hands-on experience in transcribing physician dictation including basic reports such as history and physicals, discharge summaries, consultations, operative reports, and other medical reports. Utilizes transcribing and information processing equipment compatible with industry standards. Designed to develop speed and accuracy. Prerequisite or corequisite: HPRS 1206.
MRMT 2162 Clinical - Medical Transcription
One semester hour .................................................. (1-4)
A health-related work-based learning experience that enables
the student to apply specialized occupational theory, skills, and
concepts. A method of instruction providing detailed education,
training, and work-based experience and direct patient/client care,
generally at a clinical site. Specific detailed learning objectives are
developed for each course by the faculty. On-site clinical instruction,
supervision, evaluation, and placement is the responsibility of the
college faculty. Clinical experiences are unpaid external learning
experiences. Prerequisites or corequisites: HITT 2231, MRMT 2333
and successfully complete a criminal background clearance.

MRMT 2333 Advanced Medical Transcription
Three semester hours .............................................. (2-4)
Production of advanced reports of physician dictation with increasing
speed and accuracy including history and physicals, consultations,
discharge summaries, operative reports, and other medical reports.
Prerequisite: MRMT 1307.

MUSIC
All freshman and college-transfer students who are declared music
majors are placed in appropriate music theory classes by the music
faculty. College transfer students will have all previous music course work
evaluated. In addition, music students will be assigned to piano, voice or
major instrument areas of study.
All students entering music theory should have a knowledge of key
signatures, scales, and understanding of basic notation and pitch. If a
lack of background is determined, the student will then be expected to
achieve a parity of proficiency with first year theory students, prior to
taking sophomore course work.
Courses in Applied Music and the Performing Groups may be repeated
for credit with the consent of the instructor and the understanding of
the student that they may not apply toward advanced degrees upon
transfer to a senior college.
The non-keyboard music major is expected to reach a level of
proficiency equivalent to two years of college level private instruction.
Instrumental, voice, and piano concentrates are given playing auditions to
determine level of proficiency. It is advisable for all music majors to have
completed several years of private piano study prior to entering college.

Applied Music Examinations
All students taking applied music courses must appear for a jury
examination at the end of each semester. The examining committee will
decide whether the student is to be advanced to a higher classification
or retained (asked to repeat the same course) in the event that he is not
ready to proceed to the next higher level. If a student repeats a course,
only the credit earned in the repetition of the course will be counted
toward degree requirements. Specific examination requirements for each
classification are determined by the faculty of each Applied Music area,
in consultation with the departmental chairman. These requirements are
subject to periodic review.

Piano Requirements
Keyboard Majors and Concentrates
Keyboard concentrates must take private lessons in piano each
semester during the freshman and sophomore years. All keyboard
concentrates must take piano sight-reading and accompanying
studies for four semesters, participate in one performance group per
semester, and participate as needed for student recital accompanying
as determined by the music faculty.

Instrumental and Voice Concentrates
Instrumental and voice concentrates must take four semesters of
secondary piano. The primary instruction in applied music would be
either voice or an orchestral instrument for students in this area. As a
secondary piano student, each music student must prepare to pass a
piano proficiency barrier upon acceptance in a senior college. Specific
requirements for meeting the piano proficiency barrier may be obtained
from the music faculty at Howard College. Individual instruction is available on brass, guitar, percussion, voice, keyboard and woodwinds through individual private lessons. Weekly
lessons are one-hour. There is a fee required. One semester hour each
(0-1) (5009035426)

MUAP 1103, 1105, 2103, 2105-Keyboard
MUAP 1106, 1107, 2106, 2107-Woodwind
MUAP 1109, 1110, 2109, 2110-Brass
MUAP 1111, 1112, 2111, 2112-Voice
MUAP 1113, 1123, 2113, 2123-Percussion
MUAP 1119, 1120, 2119, 2120-Guitar

MUEN 1131, 1132, 2131, 2132 Chamber (Small)
Instrumental Ensemble
One semester hour each ........................................... (1-2)
HAWK BAND-Modern as well as contemporary and standard band
music will be studied and performed with frequent public appearances.
Enrollment is at the discretion of the director. (5009035626)

MUEN 1151, 1152, 2151, 2152 Chamber (Small) Vocal
Ensemble
One semester hour each .......................................... (1-2)
NEW DIMENSION-Ensemble of mixed voices dedicated to
performance of lighter contemporary music. Enrollment by audition.
(5009035826)

MUSI 1116, 1117 Elementary Sight Singing and Ear
Training I and II
One semester hour .................................................. (0-2)
singing tonal music in treble, bass, alto, and tenor clefs. Aural study,
including diction, rhythm, melody, and diatonic harmony. (500904526)

MUSI 1183, 1184, 2183, 2184 Voice Class I, II, III, IV
One semester hour each .......................................... (1-0)
Class instruction in the fundamentals of singing, including breathing, tone
production and diction. Designed for students with little or no previous
voice training. These are co-enrollment courses with Music 1111, 1112,
2111, 2112 and require enrollment by audition. (5009085126)

MUSI 1163, 1164, 2163, 2164 Improvisation I, II, III, IV
One semester hour each .......................................... (1-2)
Materials and practices for improvisation or extemporaneous
playing. This course includes basic improvisation in different jazz
styles. Studies on the use of modal and pentatonic styles, blues
progressions, and associated scales are also included. Students
learn standards as well as fusion-funk applications. (5009036526)

MUSI 1300 Foundations of Music
Three semester hours ................................................ (3-0)
Study of the basic fundamentals of music with an introduction
to melodic, rhythmic, and harmonic instruments. Emphasis on
participation in singing and reading music. Designed for the
elementary education major and requires no previous musical
training. (5009045426)
MUSI 1303 Fundamentals of Music  
Three semester hours ..............................................(3-0)  
Introduction to the elements of music theory: scales, intervals, keys, triads, elementary ear training, keyboard harmony, notation, meter, and rhythm. (5009045526)

MUSI 1306 Music Appreciation  
Three semester hours ..............................................(3-0)  
Understanding music through the study of cultural periods, major composers, and musical elements. Illustrated with audio recordings and live performances. (5009025126)

MUSI 1308 Music Literature  
Three semester hours ..............................................(2-3)  
Survey of the principal musical forms and cultural periods as illustrated in the literature of major composers. Study of the elements and structure of music, including the orchestra and music forms. Research periods include Medieval, Renaissance, Baroque, Classicism, Romantic, and Modern, which will include American music and a look at New Music. (5009025226)

MUSI 1310 American Music  
Three semester hours ..............................................(3-0)  
General survey of various styles of music in America. Topics may include jazz, folk, rock, and contemporary art music. (5009025326)

MUSI 1311 Music Theory I  
Three semester hours ..............................................(3-0)  
Analysis and writing of tonal melody and diatonic harmony up to and including the chords. Analysis and writing of small compositional forms. Correlated study at the keyboard. Companion course with Music 1116. (5009045126)

MUSI 1312 Music Theory II  
Three semester hours ..............................................(3-0)  
Continuation of MUSI 1311. (5009045126)

MUSI 2116, 2117 Advanced Sight Singing and Ear-Training I and II  
One semester hour each ...........................................(0-2)  
Singing more difficult tonal music including modal, ethnic, and 20th century materials. Aural study, including dictation, of more complex rhythm, melody, chromatic harmony, and extended tertian structures. (5009045726)

MUSI 2311 Music Theory III  
Three semester hours ..............................................(3-0)  
Advanced harmony part writing and keyboard analysis and writing of more advanced tonal harmony including chromaticism and extended tertian structures. Introduction to 20th century compositional procedures and survey of the traditional large forms of composition. Correlated study at the keyboard. Prerequisite: Completion of MUSI 1312. Companion course with MUSI 2116. (5009045226)

MUSI 2312 Music Theory IV  
Three semester hours ..............................................(3-0)  
Continuation of MUSI 2311. Study of mixed chords, ninths, elevenths, etc. Original compositions in two and three-part song forms are required. Survey of harmonic techniques of the nineteenth and twentieth centuries. Continued study of keyboard harmony. Prerequisite: Completion of MUSI 2311. Companion course with MUSI 2118. (5009045226)

MUSI 2315 Golf  
One semester hour .................................................(0-2)  
Instruction and participation in physical and recreational activities. (Physical Fitness and Sport majors may have the option of eight credits.)

OSHT 2209 Safety Program Management  
Two semester hours .................................................(2-0)  
Examine the major safety management issues that affect the workplace, including safety awareness, loss control, regulatory issues, and human behavior modification.

OSHT 2401 OSHA Regulations - General Industry  
Four semester hours ................................................(3-2)  
A study of Occupational Safety and Health Administration (OSHA) regulations pertinent to general industry.

KINESIOLOGY/PHYSICAL EDUCATION (PHED)

FRESHMAN - Activity Classes  
One semester hour each .............................................(0-3)  
Instruction and participation in physical and recreational activities. (Physical Fitness and Sport majors may have the option of eight credits.)

SOPHOMORE - Activity Classes  
One semester hour each .............................................(0-3)  
Instruction and participation in physical and recreational activities. (Physical Fitness and Sport majors may have the option of eight credits.)
PHED 1301 Introduction to Physical Fitness & Sport
Three semester hours ...........................................(3-0)
Orientation to the field of physical fitness and sport. Includes
the study and practice of activities and principles that promote
physical fitness. (3105015223)

PHED 1304 Personal/Community Health I
Three semester hours .............................................(3-0)
Investigation of the principles and practices in relation to
personal and community health. (5115045116)

PHED 1306 First Aid
Three semester hours .............................................(3-0)
Instruction in and practice of first aid techniques. (5115045316)

PHED 1308 Sports Officiating I
Three semester hours .............................................(3-0)
Instruction in rules, interpretation, and mechanics of officiating
selected sports. (3101015123)

PHED 1309 Sports Officiating II
Three semester hours .............................................(3-0)
Instruction in rules, interpretation, and mechanics of officiating
selected sports. (3101015123)

PHED 1321 Coaching/Sports/Athletics I
Three semester hours .............................................(3-0)
Study of the history, theories, philosophies, rules, and terminology of
competitive sports. Includes coaching techniques. (3105055123)

PHED 1322 Coaching/Sports/Athletics II
Three semester hours .............................................(3-0)
Study of the history, theories, philosophies, rules, and terminology of
competitive sports. Includes coaching techniques. (3105055123)

PHED 1336 Introduction To Recreation I
Three semester hours .............................................(3-0)
Fundamental theory and concepts of recreational activities with
emphasis on programs, planning, and leadership. (3101015123)

PHED 1337 Introduction To Recreation II
Three semester hours .............................................(3-0)
Fundamental theory and concepts of recreational activities with
emphasis on programs, planning, and leadership. (3101015123)

PHED 1338 Concepts of Physical Fitness
Three semester hours .............................................(3-0)
Concepts and use of selected physiological variables of fitness,
individual testing and consultation, and the organization of sports
and fitness programs. (3105035123)

PHED 2156 Taping and Bandaging
One semester hours ..............................................(1-0)
This course provides the fundamental taping and bandaging
techniques used in the prevention and care of athletic related
injuries. (3105035123)

PHED 2356 Care and Prevention of Athletic Injuries
Three semester hours .............................................(3-0)
Prevention and care of athletic injuries with emphasis on
qualities of a good athletic trainer, avoiding accidents and injuries,
recognizing signs and symptoms of specific sports injuries
and conditions, immediate and long-term care of injuries, and
administration procedures in athletic training. (3105035223)

PHIL 1301 Introduction to Philosophy
Three semester hours .............................................(3-0)
Introduction to the study of ideas and their logical structure,
including arguments and investigations about abstract and real
phenomena. Includes introduction to the history, theories, and
methods of reasoning. (3801015112)

PHIL 1304 Introduction to World Religions
Three semester hours .............................................(3-0)
A comparative study of major religions of the world including
Mohammedanism, Judaism, Buddhism, Hinduism and Christianity.
(3802015212)

PHIL 1316 History of Religions I
Three semester hours .............................................(3-0)
A historical survey of major religions. (3802015212)

PHIL 2303 Introduction to Logic
Three semester hours .............................................(3-0)
Nature and methods of clear and critical thinking and correct
reasoning such as deduction, induction, scientific reasoning, and
fallacies. (3801015112)

PHIL 2306 Introduction to Ethics
Three semester hours .............................................(3-0)
Classical and contemporary theories concerning the good life, human
conduct in society, and moral and ethical standards. (3802015312)

PHIL 2321 Philosophy of Religion
Three semester hours .............................................(3-0)
A critical investigation of major religious ideas and experiences.
(3802015312)

PHYS 1401 College Physics I
Four semester hours .............................................(3-3)
Algebra-level physics sequence, with laboratories, that includes
study of mechanics, heat, waves, electricity and magnetism, and
modern physics. Prerequisite: Completion of or registration for
MATH 1316. (4008015303)

PHYS 1402 College Physics II
Four semester hours .............................................(3-3)
Continuation of Physics 1401. Algebra-level physics sequence,
with laboratories, that includes study of mechanics, heat, waves,
electricity and magnetism, and modern physics. Prerequisite:
PHYS 1401 or approval of the instructor. (4008015303)

PHYS 1410 Elementary Physics
Four semester hours .............................................(3-3)
Conceptual level survey of topics in physics intended for liberal
art and other non-science majors. (4008015103)
PHYS 1412 Stars and Galaxies
Four semester hours ....................................... (3-3)
This course is a descriptive survey of stellar processes, stellar
corpses, galactic evolution, and extragalactic astronomy. (4002015103)

PHYS 1413 Solar System
Four semester hours ....................................... (3-3)
This course describes the origin and evolution of our solar
system using the technique of comparative planetology to
identify the similarities and differences between the worlds of
the solar system. (4002015103)

PHYS 2425 University Physics I
Four semester hours ....................................... (3-4)
Calculus-level physics sequence, with laboratories, that includes
study of mechanics, heat, waves, electricity and magnetism.
Prerequisites: PHYS 1401 and PHYS 1402 or high school physics
or the equivalent and MATH 2313. (4008015403)

PHYS 2426 University Physics II
Four semester hours ....................................... (3-4)
Continuation of Physics 2425. Calculus-level physics sequence,
with laboratories, that includes study of mechanics, heat, waves,
electricity and magnetism. Prerequisites: PHYS 2425 and parallel
enrollment in MATH 2314. (4008015403)

POFI 2301 Word Processing
Three semester hours ...................................... (3-1)
In-depth coverage of word processing software application.
Prerequisite or corequisite: BCIS/COSC Elective or ITSC 1309.

POFI 2331 Desktop Publishing for the Office
Three semester hours ...................................... (3-1)
In-depth coverage of desktop publishing terminology, text editing,
and use of design principles to create publishing material using
word processing desktop publishing features. Emphasis on layout
techniques, graphics, and multiple page displays. Prerequisite or
corequisite: BCIS/COSC Elective or ITSC 1309.

POFI 2340 Advanced Word Processing
Three semester hours ...................................... (3-1)
Instruction in advanced techniques in merging, macros,
graphics, and desktop publishing. Includes extensive formatting
for technical documents. Emphasis on business applications.
Prerequisite: POFI 2301.

POFL 1303 Legal Office Procedures
Three semester hours ...................................... (3-1)
Study of the administrative duties of support personnel in a law
office including issues involved in understanding and using social,
organizational, and technological systems. This is a sophomore-
level course. Prerequisites: POFI 2301 and POFT 1309.

POFL 2301 Legal Document Processing
Three semester hours ...................................... (3-1)
Skill development in the production of legal documents used in the
legal and court systems. Prerequisite: POFT 1349.

POFM 1309 Medical Office Procedures
Three semester hours ...................................... (3-1)
Introduction to basic medical office skills including telephone
techniques, filing and indexing, mail handling, appointment scheduling,
travel arrangements, correspondence, and business transactions.
Emphasis on human relations and customer service skills.

POFM 1313 Medical Terminology I
Three semester hours ...................................... (3-0)
Instruction in the practical application of a medical vocabulary
system. Topics include structure; recognition; analysis; definitions;
spelling; pronunciation; and combination of medical terms from
prefixes, suffixes, roots, and combining forms.

POFM 1327 Medical Insurance
Three semester hours ...................................... (3-0)
Survey of medical insurance including the life cycle of various
claim forms, terminology, litigation, patient relations, and ethical
issues.

POFM 1331 Medical Transcription I
Three semester hours ...................................... (3-1)
Fundamentals of medical transcription including basic reports
such as history and physicals, discharge summaries, consultations,
operative reports, and other medical reports. Emphasis on
development of speed and accuracy.

POFT 1127 Introduction to Keyboarding
One semester hour ...................................... (1-1)
Skill development in keyboarding with emphasis on alphabet,
number, and symbol keys by touch. Skills can be applied to
computers, typewriters, and other equipment with keyboards.

POFT 1309 Administrative Office Procedures I
Three semester hours ...................................... (3-1)
Study of current office procedures including telephone skills,
time management, travel and meeting arrangements, mail
processing, and other duties and responsibilities in an office
environment.

POFT 1325 Business Math and Machine Applications
Three semester hours ...................................... (3-0)
Skill development in the use of electronic calculators and
business mathematical functions. Emphasis on business problem-
solving skills using spreadsheet software.

POFT 1349 Administrative Office Procedures II
Three semester hours ...................................... (3-1)
In depth coverage of office applications with special emphasis on
decision making, goal setting, management theories, and critical
thinking. Prerequisites POFT 1309, POFI 2301, or permission of
instructor.

POFT 2331 Administrative Systems
Three semester hours ...................................... (3-1)
Advance concepts of project management and office procedures
utilizing integration of previously learned office skills. Prerequisite
POFT 1349
POFT 2388 Internship-General Office/Clerical & Typing Services
Three semester hours...........................................(0-9)
A work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. A learning plan is developed by the college and the employer. Prerequisite: This is a capstone course and should be taken in the student's last semester.

PTAC 2446 Process Troubleshooting
Four semester hours.............................................(3-3)
Instruction in the different types of troubleshooting techniques, procedures, and methods used to solve process problems. Topics include application of data collection and analysis, cause-effect relationships, and reasoning.

PSYC 2301 General Psychology
Three semester hours ............................................(3-0)
Survey of major topics in psychology. Introduces the study of behavior and the factors that determine and affect behavior. General topics include individual differences, intelligence, personality, heredity and environment, learning, memory, behavior disorders, psychotherapies, and group behavior. (4201015125)

PSYC 2302 Applied Psychology
Three semester hours ............................................(3-0)
Survey of the applications of psychological knowledge and methods in such fields as business, industry, education, medicine, law enforcement, social work, and government work. (4201015225)

PSYC 2314 Life Span Growth and Development
Three semester hours .............................................(3-0)
Study of the relationship of the physical, mental, social, and emotional factors of growth and development of children and throughout the lifespan. Methods for child study; native and learned behavior patterns; individual differences; signs of maladjustment in children; and problems in discipline. (4207015125)

PSYC 2315 Psychology of Adjustment
Three semester hours .............................................(3-0)
Study of the processes involved in adjustment of individuals to their personal and social environments. (4201015625)

PSYC 2318 Juvenile Delinquency
Three semester hours .............................................(3-0)
Study of individual behavior within the social environment. May include topics such as the socio-psychological process, attitude formation and change, interpersonal relations, and group processes. Prerequisite: PSYC 2301 or permission of instructor. (4216015125)

PSYC 2319 Social Psychology
Three semester hours .............................................(3-0)
Study of individual behavior within the social environment. May include topics such as the socio-psychological process, attitude formation and change, interpersonal relations, and group processes. (4216015125)

QCTC 1301 Total Quality Management
Three semester hours .............................................(3-1)
The study of integrating work processes using team participation through employee empowerment and teamwork emphasizing the philosophy of customer service and satisfaction.

QCTC 1303 Quality Control
Three semester hours .............................................(3-0)
Information on quality control principles and applications. Designed to introduce the student to the quality control profession.

QCTC 1341 Statistical Process Control
Three semester hours .............................................(3-0)
Components of statistics including techniques of collection, presentation, analysis, and interpretation of numerical data as applied to statistical control. Stresses application of correlation methods, analysis of variance, dispersion, sampling quality control; collect and analyze data to calculate control limits; and identify out-of-control conditions. Prerequisite: Math elective.

QCTC 1448 Metrology
Four semester hours..............................................(3-2)
A study of the terminology, methodology, and practice of measurement systems and equipment in the calibration and use of basic measuring tools.

RADR 1167 Practicum - Radiologic Technology
One semester hour ................................................(0-8)
Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. Practicum experiences are unpaid external learning experiences. Prerequisite: Successful completion of RADR 1266.

RADR 1213 Principles of Radiographic Imaging I
Two semester hours...............................................(2-1)
Radiographic image quality and the effects of exposure variables. Corequisite: RADR 1260. Students who do not successfully complete a course must repeat that course and its corequisite, regardless of the grade earned in the corequisite course. Prerequisite: Admission into the Radiologic Technology Program.

RADR 1260 Clinical - Radiologic Technology
Two semester hour ...............................................(0-8)
A health related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Clinic experiences are unpaid external learning experiences. Prerequisite: Admission into the Radiologic Technology Program.

RADR 1266 Practicum - Radiologic Technology
Two semester hours...............................................(0-16)
Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. Practicum experiences are unpaid external learning experiences. Prerequisite: RADR 1260.
RADR 109 Introduction to Radiography and Patient Care
Three semester hours ........................................(2-2)
An overview of the historical development of radiography, basic radiation protection, an introduction to medical terminology, ethical and legal issues for health care professionals, and an orientation to the program and to the health care system. Patient assessment, infection control procedures, emergency and safety procedures, communication and patient interaction skills, and basic pharmacology are also included. Corequisite: RADR 1260. Students who do not successfully complete a course must repeat that course and its corequisite, regardless of the grade earned in the corequisite course. Prerequisite: Admission into the Radiologic Technology Program.

RADR 1311 Basic Radiographic Procedures
Three semester hours ........................................(2-3)
An introduction to radiographic positioning terminology, the proper manipulation of equipment, positioning and alignment of the anatomical structure and equipment, and evaluation of images for proper demonstration of basic anatomy. Corequisite: RADR 1260. Students who do not successfully complete a course must repeat that course and its corequisite, regardless of the grade earned in the corequisite course. Prerequisite: Admission into the Radiologic Technology Program.

RADR 2217 Radiographic Pathology
Two semester hours .........................................(2-0)
Disease processes and their appearance on radiographic images. Corequisite: RADR 2367. Students who do not successfully complete a course must repeat that course and its corequisite, regardless of the grade earned in the corequisite course. Prerequisite: RADR 2313

RADR 2240 Sectional Anatomy for Medical Imaging
Two semester hours .........................................(2-0)
Anatomic relationships that are present under various sectional orientations as depicted by computed tomography or magnetic resonance imaging. Corequisite: RADR 2367. Students who do not successfully complete a course must repeat that course and its corequisite, regardless of the grade earned in the corequisite course. Prerequisite: RADR 2313

RADR 2301 Intermediate Radiographic Procedures
Three semester hours ........................................(2-3)
A continuation of the study of the proper manipulation of radiographic equipment, positioning and alignment of the anatomical structure and equipment, and evaluation of images for proper demonstration of anatomy. Corequisite: RADR 1266. Students who do not successfully complete a course must repeat that course and its corequisite, regardless of the grade earned in the corequisite course. Prerequisite: RADR 1311

RADR 2305 Principals of Radiographic Imaging II
Three semester hours ........................................(3-1)
Radiographic imaging technique formulation. Includes equipment quality control, image quality assurance, and the synthesis of all variables in image production. Corequisite: RADR 1266. Students who do not successfully complete a course must repeat that course and its corequisite, regardless of the grade earned in the corequisite course. Prerequisite: Successful completion of RADR 1213, RADR 1309.

RADR 2309 - Radiographic Imaging Equipment
Three semester hours ........................................(3-1)
Equipment and physics of x-ray production. Includes basic x-ray circuits. Also examines the relationship of conventional and digital equipment components to the imaging process. Corequisite: RADR 1266. Students who do not successfully complete a course must repeat that course and its corequisite, regardless of the grade earned in the corequisite course. Prerequisite: Successful completion of RADR 1213, RADR 1309.

RADR 2313 Radiation Biology and Protection
Three semester hours ........................................(3-0)
Effects of radiation exposure on biological systems. Includes typical medical exposure levels, methods for measuring and monitoring radiation, and methods for protecting personnel and patients from excessive exposure. Corequisite: RADR 2366. Students who do not successfully complete a course must repeat that course and its corequisite, regardless of the grade earned in the corequisite course. Prerequisite: RADR 2331

RADR 2331 Advanced Radiographic Procedures
Three semester hours ........................................(2-2)
Continuation of positioning; alignment of the anatomical structure and equipment, evaluation of images for proper demonstration of anatomy and related pathology. Corequisite: RADR 1167. Students who do not successfully complete a course must repeat that course and its corequisite, regardless of the grade earned in the corequisite course. Prerequisite: RADR 2301, RADR 2305, RADR 2309.

RADR 2335 Radiologic Technology Seminar
Three semester hours ........................................(3-2)
A capstone course focusing on the synthesis of professional knowledge, skills, and attitudes in preparation for professional employment and lifelong learning. Corequisite: RADR 2367. Students who do not successfully complete a course must repeat that course and its corequisite, regardless of the grade earned in the corequisite course. Prerequisite: RADR 2313

RADR 2366 Practicum - Radiologic Technology
Three semester hours ........................................(0-24)
Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. Practicum experiences are unpaid learning experiences. Prerequisite: RADR 1167

RADR 2367 Practicum - Radiologic Technology
Three semester hours ........................................(0-24)
Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. Practicum experiences are unpaid learning experiences. Prerequisite: RADR 2366

RNSG 1309 Introduction to Nursing
Three semester hours ........................................(3-3)
Overview of nursing and the role of the associate degree nurse as a provider of care, coordinator of care, and member of a profession. Topics include knowledge, judgment, skills, and professional values with a legal/ethical framework. Prerequisite: 14 hours of required support courses, including a minimum of BIOL 2402 and one other science course. (5116015414) Co requisite RNSG 1361

RNSG 1343 Concepts of Adult Health
Three semester hours ........................................(3-0)
Integration of previous knowledge and skills into the continued development of the associate degree nurse as a provider of care, coordinator of care, and member of a profession in the care of adult clients/families in structured health care settings. Incorporates judgments, skills, and professional values within a legal/ethical framework. Prerequisite: RNSG 1209, RNSG 1361, and a minimum of 26 hours of required support courses, including all science courses. (5116016414) Co requisite RNSG 1362
RNSG 1361 - Clinical - Nursing (R.N. Training)
Intro to Nursing
Three semester hours ..............................................(0-9)
A work-based learning experience that enables the student to apply
specialized occupational theory, skills, and concepts. (5116016914)
Co requisite RNSG 1309

RNSG 1362 - Clinical - Nursing (R.N. Training)
Concepts of Adult Health
Three semester hours ..............................................(0-9)
A work-based learning experience that enables the student to apply
specialized occupational theory, skills, and concepts. (5116016914)
Co requisite RNSG 1343

RNSG 2160 - Clinical - Nursing (R.N. Training)
Transition to Nursing Practice
One semester hours ...............................................(0-3)
A work-based learning experience that enables the student to apply
specialized occupational theory, skills, and concepts. (5116016914)
Co requisite RNSG 2307

RNSG 2201 Care of Children and Families
Two semester hours ..............................................(1-2)
Study of concepts related to the provision of nursing care for children
and their families, emphasizing judgment, and professional values within
a legal/ethical framework. Prerequisites: RNSG 1209, RNSG 1361,
RNSG 1343, RNSG 1362, Computer Science elective. (5116015814)
Co requisite RNSG 2361

RNSG 2213 Mental Health Nursing
Two semester hours ..............................................(1-2)
Principles and concepts of mental health, psychopathology, and treatment
modalities related to the nursing care of clients and their families.
Prerequisites: RNSG 1209, RNSG 1361, RNSG 1343, RNSG 1362,
RNSG 2307, COSC 1401 Computer Science elective. (5116016814)
Co requisite RNSG 2261

RNSG 2260 Clinical - Nursing (R.N. Training)
Maternal/Newborn Nursing and Women's Health
Two semester hours ...................................................(0-6)
A work-based learning experience that enables the student to apply
specialized occupational theory, skills, and concepts. Focus is on
mothers and neonates. (5116016914) Co requisite RNSG 2308

RNSG 2261 - Clinical - Nursing (R.N. Training)
Mental Health Nursing
Two semester hours ...................................................(0-6)
A work-based learning experience that enables the student to apply
specialized occupational theory, skills, and concepts. The focus is on
the mentally ill client. (5116016914) Co requisite RNSG 2213

RNSG 2307 Transition to Nursing Practice
Three semester hours ...................................................(3-0)
Introduction to selected concepts related to the role of the
associate degree nurse as a provider of care, coordinator of
care, and member of the profession. Review of trends and issues
impacting nursing and health care today and in the future. Topics
include knowledge, judgment, skill, and professional values within
a legal/ethical framework. Co requisite RNSG 2160

RNSG 2308 Maternal/Newborn Nursing and Women's Health
Three semester hours ..............................................(3-0)
Study of concepts related to the provision of nursing care for normal
childbearing families and those at risk as well as women's health issues;
competency in knowledge, judgment, skill, and professional values within
a legal/ethical framework, including a focus on normal and high-risk needs
for the childbearing family during the preconception, prenatal, intrapartum,
neonatal, and postpartum periods; and consideration of selected issues
in women's health. Prerequisites: RNSG 1209, RNSG 1361, RNSG 1343,
RNSG 1362, Computer Science elective. (5116015914) Co requisite
RNSG 2260

RNSG 2361 - Clinical - Nursing (R.N. Training)
Care of the Children and Families
Three semester hours ..............................................(0-9)
A work-based learning experience that enables the student to apply
specialized occupational theory, skills, and concepts. The focus is on
the pediatric population 28 days to 18 years old. (5116016914) Co requisite
RNSG 2201

RNSG 2404 Care of the Client with Common Health Care Needs
Four semester hours ..............................................(4-0)
Application of a systematic problem-solving process and
critical-thinking skills to provide nursing care to diverse
clients/families across the life span with common health care
needs. Opportunities for collaboration with members of the
multidisciplinary health care team. Content includes applicable
competencies in knowledge, judgment, skills, and professional
values within a legal/ethical framework. Prerequisites: RNSG
1209, RNSG 1361, RNSG 1343, RNSG 1362, COSC 1401,
Computer Science elective. (5116016814) Co requisite RNSG
2460

RNSG 2460 - Clinical - Nursing (R.N. Training)
Care of the Client with Common Health Care Needs
Four semester hours ..............................................(0-12)
A work-based learning experience that enables the student to apply
specialized occupational theory, skills, and concepts. Focus is on the
ill adult population. (5116016914) Co requisite RNSG 2404

RSPT 1160 Clinical - Respiratory Care
One semester hour .................................................(0-5)
A health-related work-based learning experience that enables
the student to apply specialized occupational theory, skills, and
concepts. Direct supervision is provided by the clinical professional.
Prerequisite: RSPT 1213

RSPT 1101 Introduction to Respiratory Care
One semester hour .................................................(0-4)
An introduction to the field of respiratory care. Topics include the
history of respiratory care, hospital organization, medical malpractice,
ethics, vital signs, body mechanics, basic cardiopulmonary assessment,
infection control, and cardiopulmonary resuscitation (CPR).
Prerequisite: Admission into the Respiratory Care program.

RSPT 1213 Basic Respiratory Care Pharmacology
Two semester hours .................................................(2-1)
A study of basic pharmacological principles/practices of
respiratory care drugs. Emphasis on classification, routes of
administration, dosages/calculations, and physiological interaction.
RSPT 1266 Practicum - Respiratory Care  
Two semester hours ............................................(0-16)  
Practical general workplace training supported by an individualized learning plan developed by the employer, college, and student. Corequisite: RSPT 1331, RSPT 2310. Prerequisite: RSPT 1101, RSPT 1160, RSPT 1213, RSPT 1327, RSPT 1329

RSPT 1327 Applied Physics for Respiratory Care  
Three semester hours ............................................(3-0)  
Review of the theoretical and practical applications of mathematics and physics with a focus on the applicability and clinical utility of the modalities, techniques, procedures, equipment, and diagnostic tests utilized in respiratory care. Prerequisite: Admission into the Respiratory Care program.

RSPT 1329 Respiratory Care Fundamentals I  
Three semester hours ............................................(2-3)  
Provides a foundation for the development of knowledge and skills for respiratory care including history, medical terms/symbols, medical/legal, infection control, vital signs, physical assessment, chest x-ray interpretation, medical gas therapy, oxygen analyzers, and humidity/aerosol therapy. Corequisite: RSPT 1160 Prerequisite: RSPT 1101, RSPT 1213.

RSPT 1331 Respiratory Care Fundamentals II  
Three semester hours ............................................(2-3)  
Provides a foundation for the development of knowledge and skills for respiratory care including lung expansion therapy, postural drainage and percussion, artificial airways, manual resuscitation devices, suctioning, pulse oximetry, bedside spirometry, arterial sampling techniques and blood gas analysis and interpretation. Corequisite: RSPT 1266, RSPT 2310. Prerequisite: RSPT 1101, RSPT 1160, RSPT 1213, RSPT 1327, RSPT 1329

RSPT 1335 Cardiopulmonary Testing  
Three semester hours ............................................(2-2)  
A comprehensive study of pulmonary testing of lung function, dysrhythmia interpretation, and 12-lead electrocardiogram (EKG) interpretation. Prerequisites: RSPT 1331, RSPT 2310, RSPT 1266.

RSPT 2160 Clinical - Respiratory Care  
One semester hour .............................................(0-5)  
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Prerequisite: All core and RSPT courses.

RSPT 2166 Practicum - Respiratory Care*  
One semester hour .............................................(0-8)  
Practical general workplace training supported by an individualized learning plan developed by the employer, college, and student. Corequisite: RSPT 2267, RS.PT 2230 Prerequisites: RSPT 2314, RSPT 2266, RSPT 2255, RSPT 1335. *Capstone experience for Respiratory Care program.

RSPT 2230 Examination Preparation  
Two semester hours .............................................(0-5)  
Comprehensive review for selected respiratory care credentialing examinations. Test matrices and exam content areas for selected exams will be presented. Prerequisite: RSPT 2314, RSPT 2266, RSPT 2255, RSPT 1335. Corequisite: RSPT 2166, 2267.

RSPT 2255 Critical Care Monitoring  
Two semester hours .............................................(2-0)  
Advanced monitoring techniques used clinically to assess a patient in the critical care setting. Corequisite: RSPT 2314, 2266, 1335. Prerequisite: RSPT 1266, 1331, 2310.

RSPT 2266 Practicum - Respiratory Care  
Two semester hours .............................................(0-16)  
Practical general workplace training supported by an individualized learning plan developed by employer, college, and student. Corequisite: RSPT 2314, 2255, 1335. Prerequisite: RSPT 1266, 1331, 2310.

RSPT 2267 Practicum - Respiratory Care  
Two semester hours .............................................(0-16)  
Practical general workplace training supported by an individualized learning plan developed by employer, college, and student. Prerequisite: RSPT 2314, RSPT 2266, 2255, 1335. Corequisite: RSPT 2230 & 2166

RSPT 2310 Cardiopulmonary Disease  
Three semester hours .............................................(3-0)  
A discussion of pathogenesis, pathology, diagnosis, history, prognosis, manifestations, treatment, and detection of cardiopulmonary diseases. Prerequisite: RSPT 1327, 1329, 1213, 1160, 1101. Corequisite: RSPT 1266, 1331.

RSPT 2314 Mechanical Ventilation  
Three semester hours .............................................(2-2)  
In-depth coverage and application of therapeutic procedures to achieve adequate, spontaneous, and artificial ventilation with emphasis on ventilator classification, methods, principles, and operational characteristics. Also included are the indications, complications, and physiologic effects/principles of mechanical ventilation. Emphasizes initiation, management of ventilation support. Prerequisites: RSPT 1331, 1266, 2310. Corequisite: RSPT 2266.

RSPT 2353 Neonatal/Pediatric Cardiopulmonary Care  
Three semester hours .............................................(3-0)  
A study of acute care, monitoring, and management as applied to the neonatal and pediatric patient.

RSTO 1325 Purchasing for Hospitality Operations  
Three semester hours .............................................(3-0)  
Study of purchasing and inventory management of foods and other supplies to include development of purchase specifications, determination of order quantities, formal & informal price comparisons, proper receiving procedures, storage management, and record keeping at each stage of the purchasing cycle.

RSTO 2301 Principles of Food & Beverage Controls  
Three semester hours .............................................(3-0)  
A study of financial principles and controls of food service operation including review of operation policies and procedures. Topics include financial budgeting and cost analysis emphasizing food and beverage labor costs, operational analysis, and international and regulatory reporting procedures.

SOCl 1301 Introductory Sociology  
Three semester hours .............................................(3-0)  
Introduction to the concepts and principles used in the study of group life, social institutions, and social processes. Socialization, development of human personality, integration, and current trends in family and community life are also discussed. (4511015125)
SOCI 1306 Contemporary Social Problems
Three semester hours ........................................ (3-0)
This is a study of the current social problems among individuals, families, and institutions; and their treatment and prevention through social planning and action. Prerequisite: SOCI 1301 or permission of instructor. (451015225)

SOCI 2301 Marriage and the Family
Three semester hours ........................................ (3-0)
Characteristics of and problems within courtship, marriage, and family in American society with special emphasis on parent-child relationships are covered. (4511015425)

SOCI 2319 Minority Studies
Three semester hours ........................................ (3-0)
This course covers the study of cultural, religious, ethnic and racial groups and the treatment accorded them in society. Prejudice, discrimination and the outcomes of discrimination in relation to both dominant and subordinate groups are considered. The status of racial, ethnic and other minority groups such as black, American Indians, and Hispanics in the economic, legal and social system of the United States are covered. (4511015325)

SOCI 2336 Criminology
Three semester hours ........................................ (3-0)
Current theories and empirical research pertaining to crime and criminal behavior and its causes, methods of prevention, systems of punishment, and rehabilitation. (4504015125)

SOCW 2361 Introduction to Social Work
Three semester hours ........................................ (3-0)
Development of the philosophy and practice of social work in the United States, survey of the fields and techniques of social work. (4407015124)

SOCW 2362 Social Welfare as a Social Institution
Three semester hours ........................................ (3-0)
Introduction to the study of modern social work, the underlying philosophy and ethics of social work, and the major divisions and types of social work together with their methods and objectives. (4407015224)

SPAN 1411 Beginning Spanish I
Four semester hours ........................................ (3-2)
Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture. (1609055113)

SPAN 1412 Beginning Spanish II
Four semester hours ........................................ (3-2)
Continuation of Spanish 1411. Fundamental skills in listening comprehension, speaking, reading, and writing. Includes basic vocabulary, grammatical structures, and culture. (1609055113)

SPAN 2311 Intermediate Spanish I
Three semester hours ........................................ (3-0)
Review and application of skills in listening comprehension, speaking, reading, and writing. Emphasizes conversation, vocabulary acquisition, reading, composition, and culture. (1609055213)

SPAN 2312 Intermediate Spanish II
Three semester hours ........................................ (3-0)
Review and application of skills in listening comprehension, speaking, reading, and writing. Emphasizes conversation, vocabulary acquisition, reading, composition, and culture. (1609055213)

SPCH 1144, 1145, 2144, 2145 Forensic Activities
One semester hour ............................................ (0-3)
Laboratory experience for students who participate in forensic activities. (2310016012)

SPCH 1311 Introduction to Speech Communication
Three semester hours ........................................ (3-0)
Theories and practice of communication in interpersonal, small group, and public speech. A minimum of four public speaking assignments are required. (2310015112)

SPCH 1315 Public Speaking I
Three semester hours ........................................ (3-0)
Research, composition, organization, delivery, and analysis of speeches for various purposes and occasion. (2310015312)

SPCH 1318 Interpersonal Communication
Three semester hours ........................................ (3-0)
Theories and exercises in verbal and nonverbal communication with focus on interpersonal relationships. Effective one-to-one communication, communication theory, nonverbal communication, and assertiveness are emphasized in this course. (2310015412)

SPCH 1321 Business and Professional Communication
Three semester hours ........................................ (3-0)
Theories and practice of speech communication as applied to business and professional situations. Designed to introduce the fundamentals of speech communication in situations such as interpersonal communication, interviews, group discussions, and public speaking. (2310015124)

SPCH 2333 Discussion and Small Group Communication
Three semester hours ........................................ (3-0)
Discussion and small group theories and techniques as they relate to group process and interaction. Examines discussion, small group, and leadership theories and techniques as they relate to group process and interaction. (2310015612)

SPCH 2341 Oral Interpretation
Three semester hours ........................................ (3-0)
Theories and techniques in analyzing and interpreting literature. Preparation and presentation of various literary forms. (2310015712)

SRGT 1144 Technological Sciences for the Surgical Technologist
One semester hours ........................................ (2-0)
In-depth coverage of specialized surgical modalities. Areas covered include endoscopy, microsurgery, therapeutic surgical energies, and other integrated science technologies.

SRGT 1405 Introduction to Surgical Technology
Four semester hours ........................................ (3-3)
Orientation to surgical technology theory, surgical pharmacology and anesthesia, and patient care concepts.

SRGT 1409 Fundamentals of Perioperative Concepts and Techniques
Four semester hours ........................................ (3-3)
In-depth coverage of aseptic technique principles and practices, infectious processes, wound healing, and creation and maintenance of the sterile field. Continuation of surgical anesthesia and pharmacology concepts.
SRGT 1441 Surgical Procedures I
Four semester hours.............................................(3-3)
Introduction to surgical pathology and its relationship to surgical procedures. Emphasis on surgical procedures related to the general, OB/GYN, genitourinary, and orthopedic surgical specialties incorporating instruments, equipment, and supplies required for safe patient care.

SRGT 1442 Surgical Procedures II
Four semester hours.............................................(3-3)
Introduction to surgical pathology and its relationship to surgical procedures. Emphasis on surgical procedures related to thoracic, peripheral vascular, plastic/reconstructive, EENT, cardiac, and neurological surgical specialties incorporating instruments, equipment, and supplies required for safe patient care.

SRGT 2461 Clinical
Four semester hours.............................................(0-24)
A method of instruction providing detailed education, training and work-based experience and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Course may be repeated if topics and learning outcomes vary. Students may not be substituted for staff personnel while performing clinical program requirements. Students and faculty provided by the institution are not and will not be acting as servant agent or employee of medical facility during program clinical rotations.

SRGT 2562 Clinical
Five semester hours.............................................(0-30)
A method of instruction providing detailed education, training and work-based experience and direct patient/client care, generally at a clinical site. Specific detailed learning objectives are developed for each course by the faculty. On-site clinical instruction, supervision, evaluation and placement is the responsibility of the college faculty. Clinical experiences are unpaid external learning experiences. Students may not be substituted for staff personnel while performing clinical program requirements. Students and faculty provided by the institution are not and will not be acting as servant agent or employee of medical facility during program clinical rotations. Course may be repeated if topics and learning outcomes vary. Prerequisite: Successful completion of SRGT 1405, SRGT 1409, SRGT 1441, and SRGT 2461.

TECA 1311 Educating Young Children
(CDEC 1311)
Three semester hours.........................................(3-1)
An introduction to the education of the young child, including developmentally appropriate practices and programs, theoretical and historical perspectives, ethical and professional responsibilities, and current issues. Course content is aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards. This course requires students to participate in field experiences (minimum of 16 hours) with children from infancy through age 12 in a variety of settings with varied and diverse populations. (1312052109)

TECA 1318 Wellness of the Young Child
(CDEC 1318)
Three semester hours.........................................(3-1)
A study of the factors that impact the well-being of the young child including healthy behavior, food, nutrition, fitness, and safety practices. Focus on local and national standard and legal implications of relevant policies and regulations. Course content is aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards. This course requires students to participate in field experiences (minimum of 16 hours) with children from infancy through age 12 in a variety of settings with varied and diverse populations. (1301015309)

TECA 1354 Child Growth and Development
(CDEC 1354)
Three semester hours.........................................(3-0)
A study of the physical, emotional, social, and cognitive factors impacting growth and development of children through adolescence. (1312052209)

TECM 1303 Technical Mathematics
Three semester hours.........................................(3-1)
A review of mathematical functions including fractions, decimals, proportions, perimeters, areas, volumes of geometric figures, and certain algebraic/trigonometric functions, as required by specific businesses and industries for successful on-the-job performance.

VNSG 1230 Maternal-Neonatal Nursing
Two semester hours.............................................(2-1)
Assessment and management of the childbearing family. Emphasis on the bio-psycho-socio-cultural needs of the family during the phases of pregnancy, childbirth, and the neonatal period including abnormal conditions. Prerequisites: VNSG 1304, VNSG 1323, VNSG 1509, VNSG 1360, and BIOL 2420. Corequisites: VNSG 1324 and VNSG 1261.

VNSG 1234 Pediatrics
Two semester hours.............................................(1-2)
Study of childhood diseases and childcare from infancy through adolescence. Focus on the care of the well and the ill child utilizing the nursing process and includes health promotion, growth and development, and immunizations. Prerequisites: VNSG 1304, VNSG 1323, VNSG 1509, VNSG 1360, and BIOL 2420. Corequisites: VNSG 1230 and VNSG 1261.
VNSG 1261 Clinical II
Two semester hours ..............................................(0-7)
A work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Focus is on mothers and neonates. Corequisites: VNSG 1234 and VNSG 1230. Prerequisites: VNSG 1304, VNSG 1323, VNSG 1509, VNSG 1360, and BIOL 2420.

VNSG 1304 Foundations of Nursing
Three semester hours ............................................(3-0)
Introduction to the nursing profession including history, standards of practice, legal and ethical issues, and role of the vocational nurse. Prerequisites: BIOL 2401, BIOL 2402, BIOL 1322, and PSYC 2314. Corequisites: VNSG 1509 and VNSG 1360.

VNSG 1323 Basic Nursing Skills
Three semester hours .............................................(1-4)
Mastery of entry level nursing skills, medical terminology, and competencies for a variety of health care settings. VNSG 1323 must be completed with a grade of “C” or better in order to proceed to the next level. Prerequisites BIOL 2401, 2402, 1322, and PSYC 2314.

VNSG 1360 Clinical I
Three semester hours .............................................(0-9)
A work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Corequisites: VNSG 1304, VNSG 1509. Prerequisites: BIOL 2401, BIOL 2402, BIOL 1322, and PSYC 2314 and successful completion of criminal background clearance.

VNSG 1509 Nursing in Health and Illness II
Five semester hours .............................................(3-6)
