

Phlebotomy

Workforce and Continuing Education Course

San Angelo Campus

PHLEBOTOMY - PLAB1023

This course prepares the student for the practice of phlebotomy in clinics, hospitals, commercial laboratories, large medical offices, and blood banks. Medical terminology, safety and legal issues, various related physiological systems, laboratory tests, and specimens handling will be covered. The 168 hour program consists of a 56 hour basic phlebotomy course and a 56 hour clinical.

Learning Outcomes

- Select and prepare the puncture site of the skin by use of manikins
- Obtain blood specimens skillfully and safely
- Understand the legal and ethical implications of phlebotomy procedures
- Apply infection control and other safety procedures
- Enter data in the computer for the testing process and record keeping of laboratory tests

Prerequisites Needed in Order to Register

- *Must be a minimum of 18 years of age.
- *Must be able to read, write, speak and understand English
- *Must provide official high school or GED transcript
- *Must have a current AHA Basic Life Support CPR Certification expiring no sooner than 1 yr from course start date
- *Provide proof of health insurance coverage
- *Clear background check and drug screen 15 business days before class starts
- *Upon registration, students must bring their social security card, driver's license, and shot records showing they have had: TDAP, MMR, Varicella, Hepatitis B Titer, Flu shot, and TB Test.

Phlebotomy Clinical

Upon successful completion of the Phlebotomy Course, the clinical is a health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.
